How to Draw Crown — Free Practice Sheets

ANSWER / CASE 1

crown: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

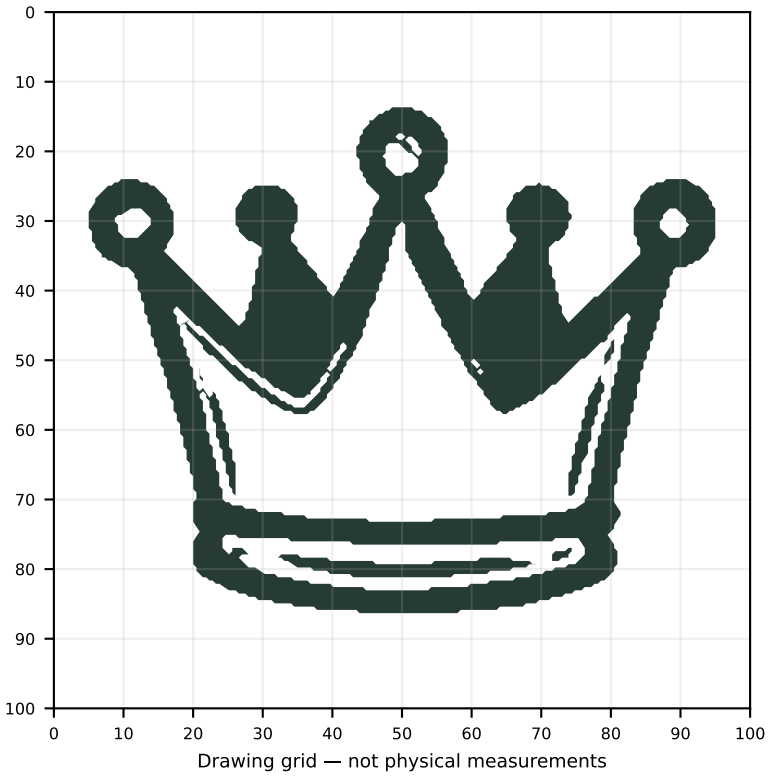

ANSWER: Example solution: preserve zigzag pointed band with five peaks, circular orbs on the tips of the outer and center points, arched top with a central orb. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide, slightly curved base band with a double outline.
2. Add five upward-pointing triangular peaks along the top edge of the band, making the center peak tallest.
3. Place small circles (orbs) on the tips of the outer and center peaks.
4. Add small circular jewel details along the front of the band and refine the outline.
