How to Draw Scissors — Free Practice Sheets

REFERENCE / CASE 1

scissors: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

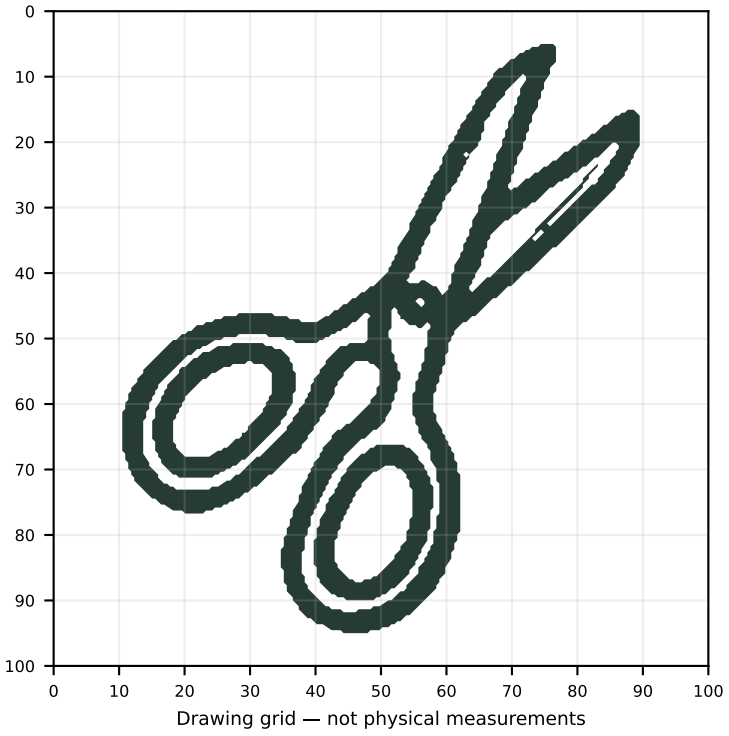

METHOD: Draw two elongated blade shapes crossing near the center to form a V. Add a small circle at the crossing point for the pivot screw. Draw two rounded finger loops below the pivot, one on each side. Connect the loops to the blades with curved handle lines and outline the full silhouette.
Use the separate practice sheet before checking the answer.

How to Draw Scissors — Free Practice Sheets

REFERENCE / CASE 2

scissors: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

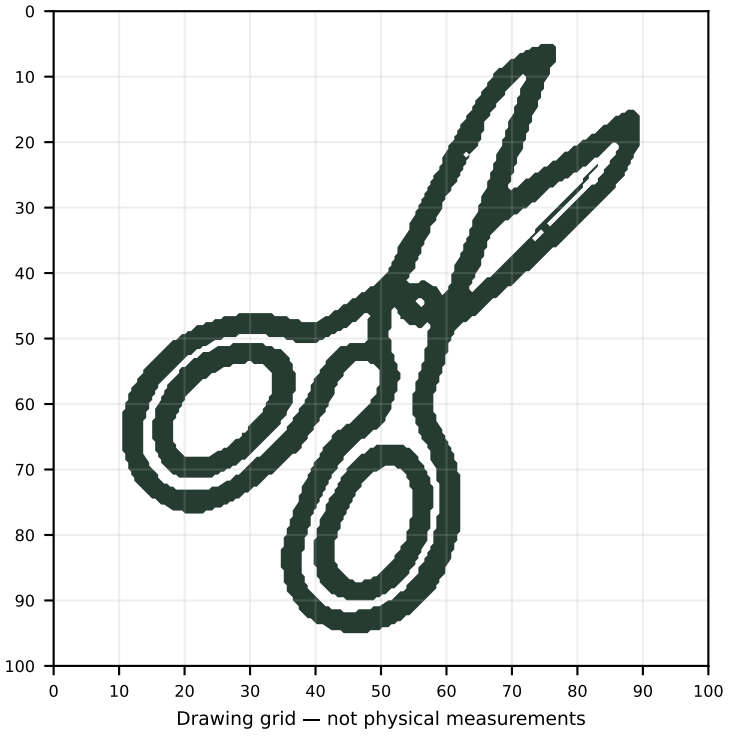

METHOD: Draw two elongated blade shapes crossing near the center to form a V. Add a small circle at the crossing point for the pivot screw. Draw two rounded finger loops below the pivot, one on each side. Connect the loops to the blades with curved handle lines and outline the full silhouette.
Use the separate practice sheet before checking the answer.

How to Draw Scissors — Free Practice Sheets

REFERENCE / CASE 3

scissors: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

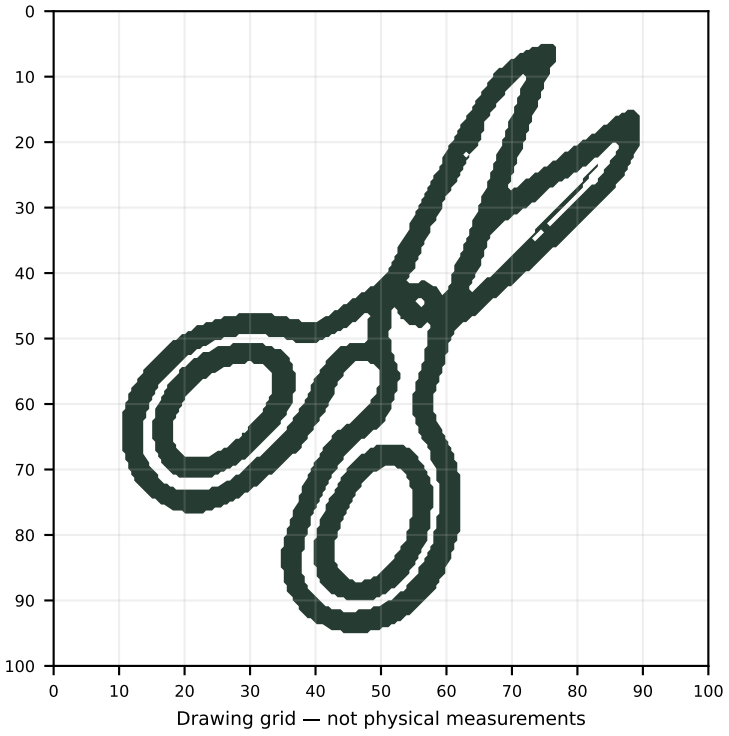

METHOD: Draw two elongated blade shapes crossing near the center to form a V. Add a small circle at the crossing point for the pivot screw. Draw two rounded finger loops below the pivot, one on each side. Connect the loops to the blades with curved handle lines and outline the full silhouette.
Use the separate practice sheet before checking the answer.

How to Draw Scissors — Free Practice Sheets

REFERENCE / CASE 4

scissors: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two elongated blade shapes crossing near the center to form a V. Add a small circle at the crossing point for the pivot screw. Draw two rounded finger loops below the pivot, one on each side. Connect the loops to the blades with curved handle lines and outline the full silhouette.
Use the separate practice sheet before checking the answer.
