How to Draw Sword — Free Practice Sheets

ANSWER / CASE 1

sword: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

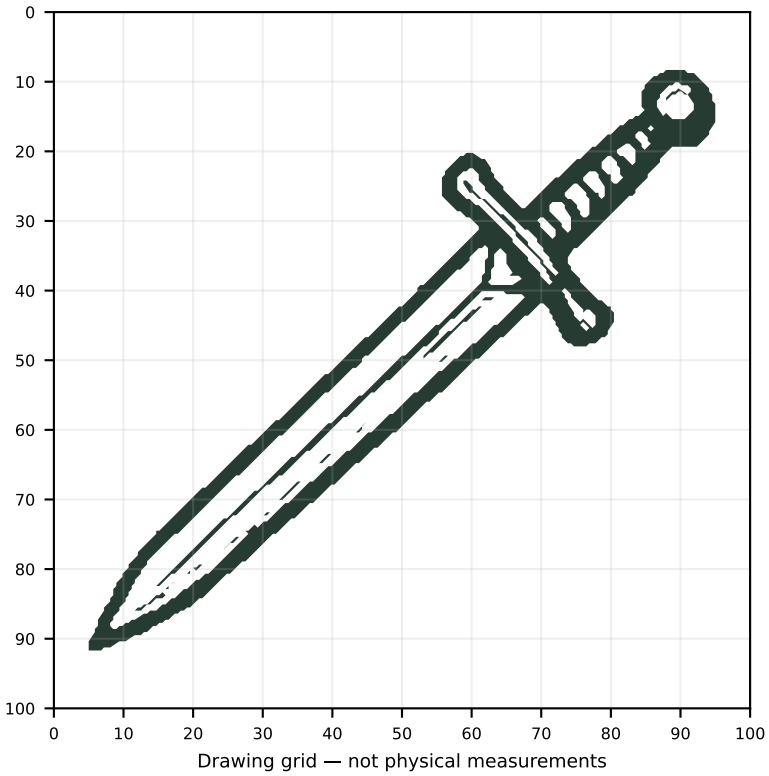

ANSWER: Example solution: preserve long tapered blade with a pointed tip, curved crossguard perpendicular to the blade, wrapped handle with a round pommel. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left.
2. Add a curved crossguard crossing the top of the blade, extending slightly on both sides.
3. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip.
4. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.

ANSWER / CASE 2

sword: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

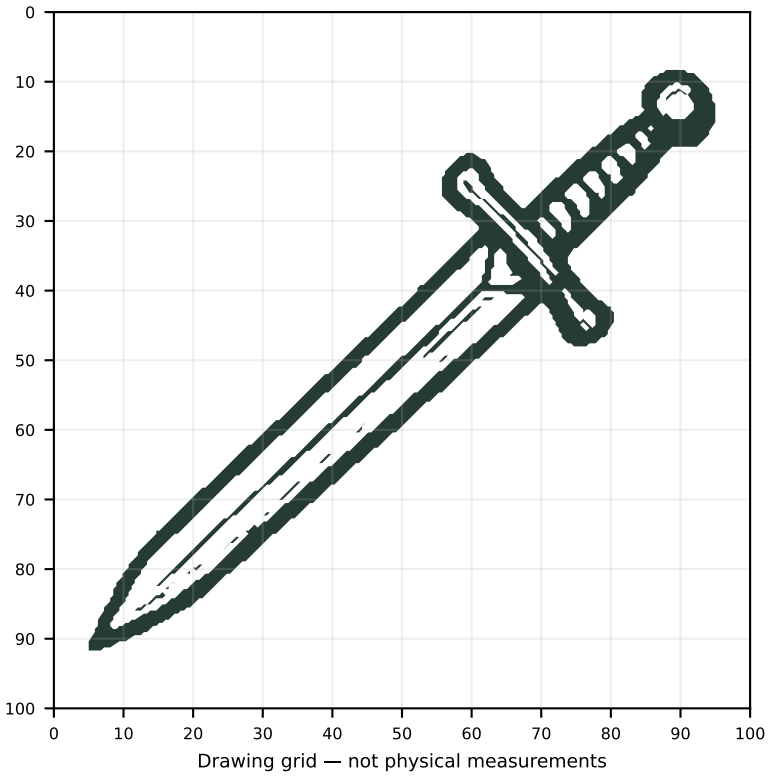

ANSWER: Example solution: preserve long tapered blade with a pointed tip, curved crossguard perpendicular to the blade, wrapped handle with a round pommel. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left.
2. Add a curved crossguard crossing the top of the blade, extending slightly on both sides.
3. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip.
4. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.

ANSWER / CASE 3

sword: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

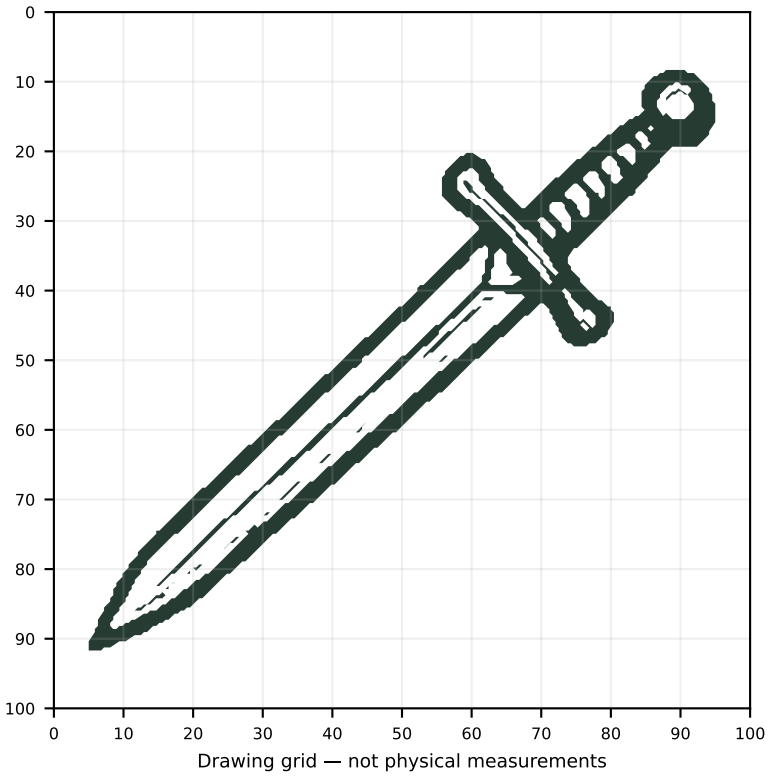

ANSWER: Example solution: preserve long tapered blade with a pointed tip, curved crossguard perpendicular to the blade, wrapped handle with a round pommel. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left.
2. Add a curved crossguard crossing the top of the blade, extending slightly on both sides.
3. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip.
4. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.

How to Draw Sword — Free Practice Sheets

ANSWER / CASE 4

sword: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long tapered blade with a pointed tip, curved crossguard perpendicular to the blade, wrapped handle with a round pommel. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left.
2. Add a curved crossguard crossing the top of the blade, extending slightly on both sides.
3. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip.
4. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.
