How to Draw Sword — Free Practice Sheets

REFERENCE / CASE 1

sword: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

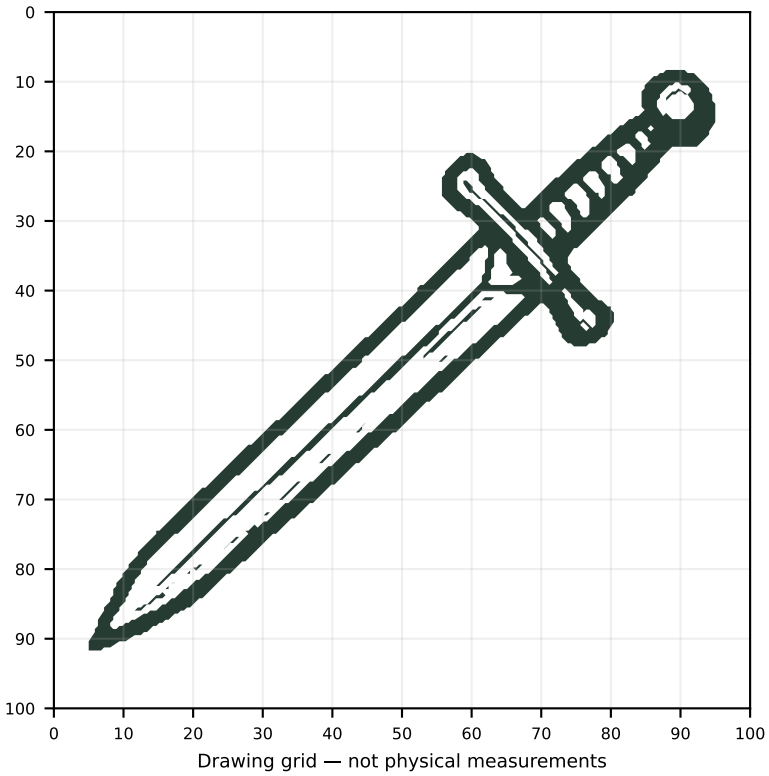

METHOD: Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left. Add a curved crossguard crossing the top of the blade, extending slightly on both sides. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

sword: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

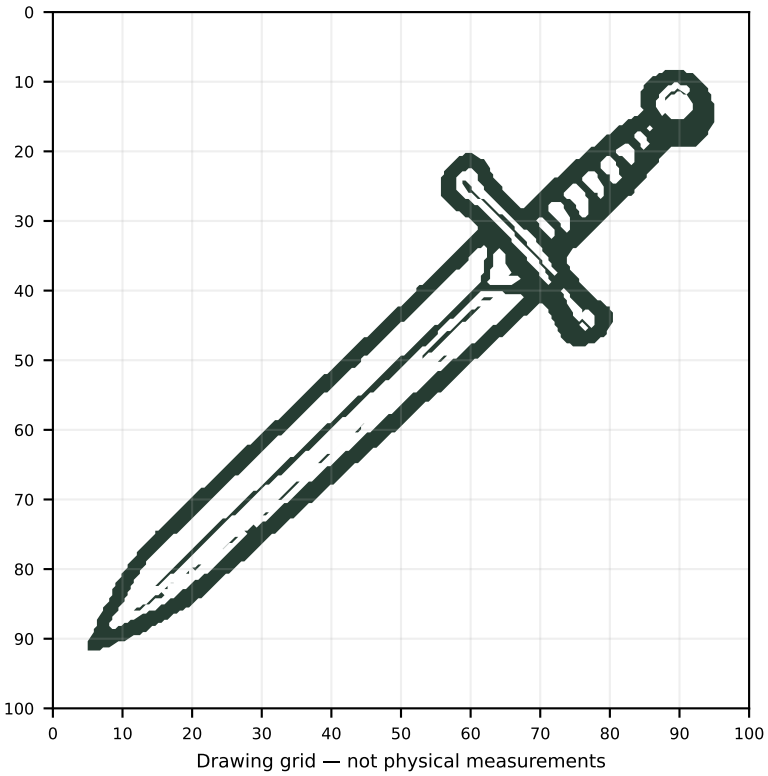

METHOD: Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left. Add a curved crossguard crossing the top of the blade, extending slightly on both sides. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

sword: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

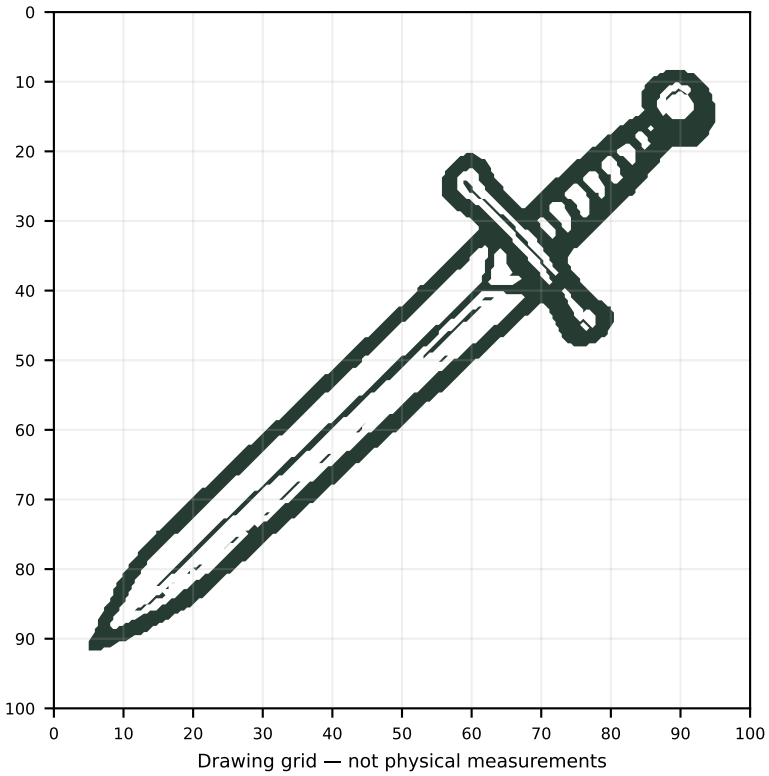

METHOD: Draw a long, narrow triangle for the blade, tapering to a sharp point at the lower left. Add a curved crossguard crossing the top of the blade, extending slightly on both sides. Draw a cylindrical handle above the crossguard, adding diagonal lines to suggest a wrapped grip. Top the handle with a circular pommel and outline the blade with a center ridge line for depth.
Use the separate practice sheet before checking the answer.
