How to Draw Gear — Free Practice Sheets

REFERENCE / CASE 1

gear: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

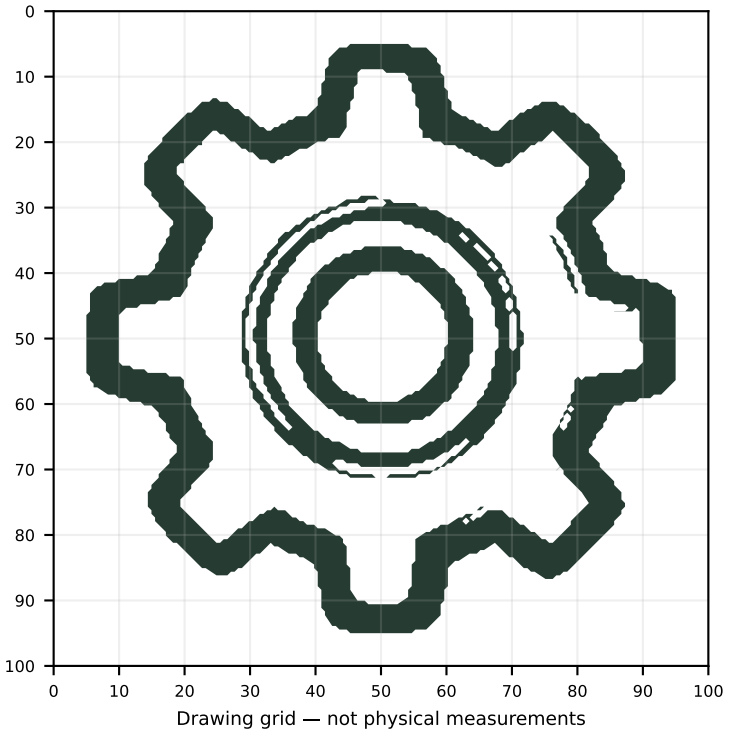

METHOD: Draw a large circle for the gear body. Add evenly spaced rectangular teeth around the outer edge of the circle. Draw two concentric circles in the center to form the hub.
Draw a smaller central circle for the hole.
Use the separate practice sheet before checking the answer.

How to Draw Gear — Free Practice Sheets

REFERENCE / CASE 2

gear: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

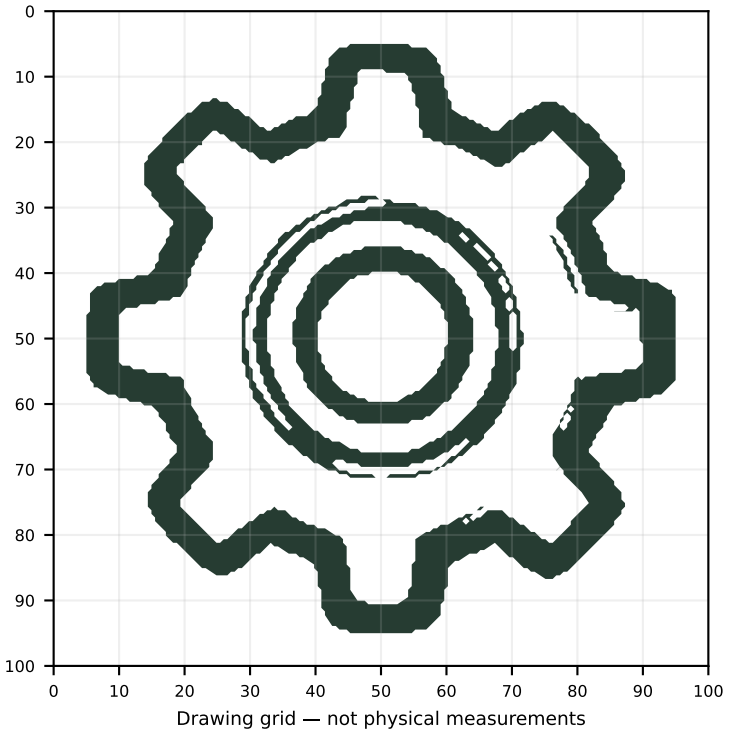

METHOD: Draw a large circle for the gear body. Add evenly spaced rectangular teeth around the outer edge of the circle. Draw two concentric circles in the center to form the hub. Draw a smaller central circle for the hole.
Use the separate practice sheet before checking the answer.

How to Draw Gear — Free Practice Sheets

REFERENCE / CASE 3

gear: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

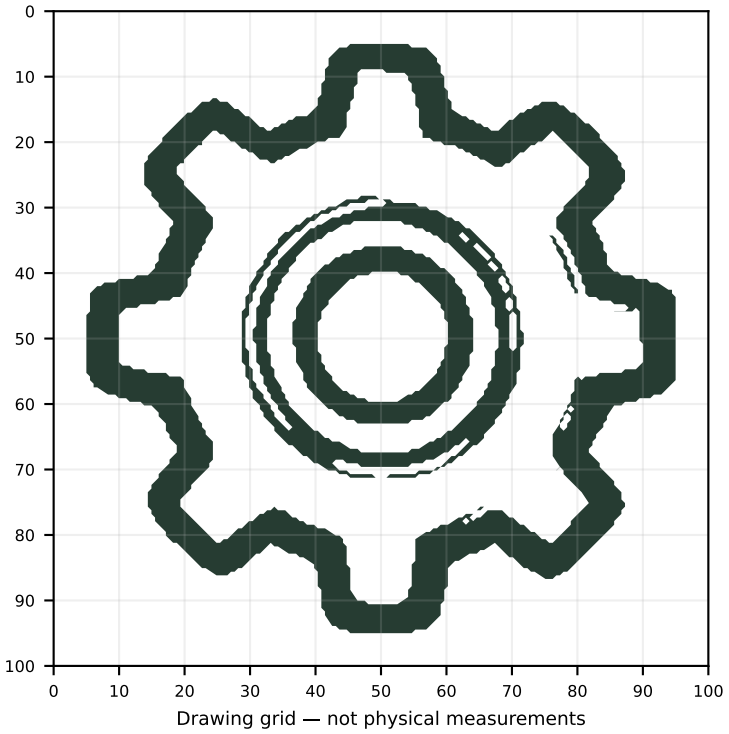

METHOD: Draw a large circle for the gear body. Add evenly spaced rectangular teeth around the outer edge of the circle. Draw two concentric circles in the center to form the hub. Draw a smaller central circle for the hole.
Use the separate practice sheet before checking the answer.

How to Draw Gear — Free Practice Sheets

REFERENCE / CASE 4

gear: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a large circle for the gear body. Add evenly spaced rectangular teeth around the outer edge of the circle. Draw two concentric circles in the center to form the hub.
Draw a smaller central circle for the hole.
Use the separate practice sheet before checking the answer.
