How to Draw Spoon — Free Practice Sheets

ANSWER / CASE 1

spoon: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

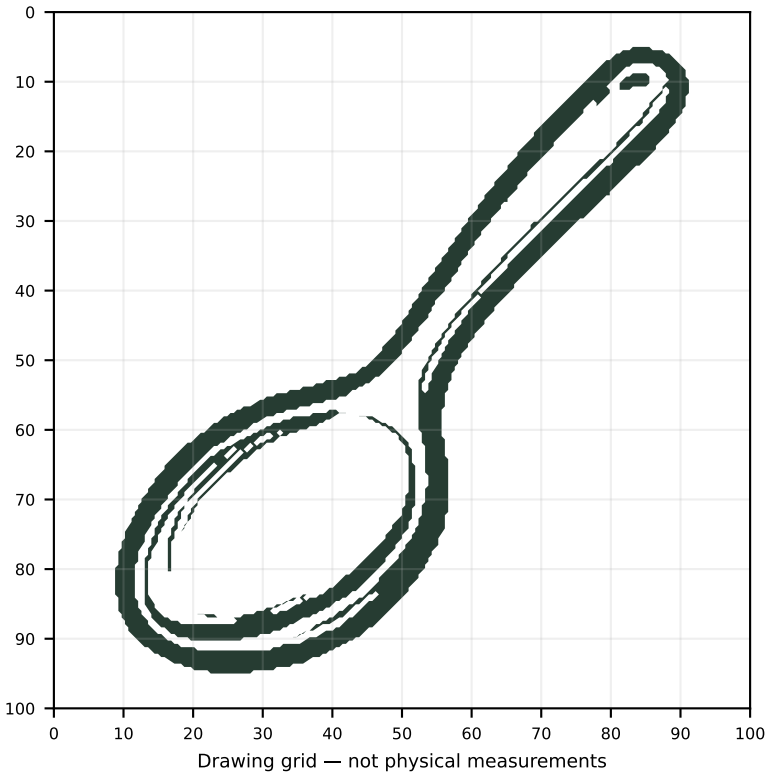

ANSWER: Example solution: preserve oval bowl at the lower left, long handle extending to the upper right, curved profile with a slight S-curve in the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bowl, tilted diagonally.
2. Extend two roughly parallel curved lines from the top of the oval to form the long handle.
3. Add a small circle or hole near the rounded end of the handle.
4. Outline the bowl and handle with a thicker contour to define the silhouette.

How to Draw Spoon — Free Practice Sheets

ANSWER / CASE 2

spoon: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

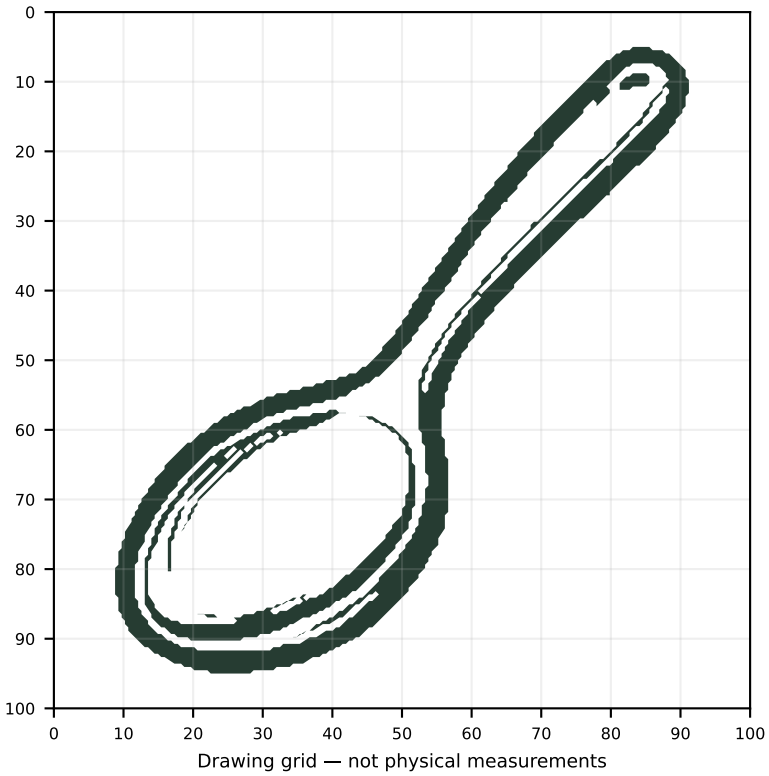

ANSWER: Example solution: preserve oval bowl at the lower left, long handle extending to the upper right, curved profile with a slight S-curve in the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bowl, tilted diagonally.
2. Extend two roughly parallel curved lines from the top of the oval to form the long handle.
3. Add a small circle or hole near the rounded end of the handle.
4. Outline the bowl and handle with a thicker contour to define the silhouette.

How to Draw Spoon — Free Practice Sheets

ANSWER / CASE 3

spoon: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

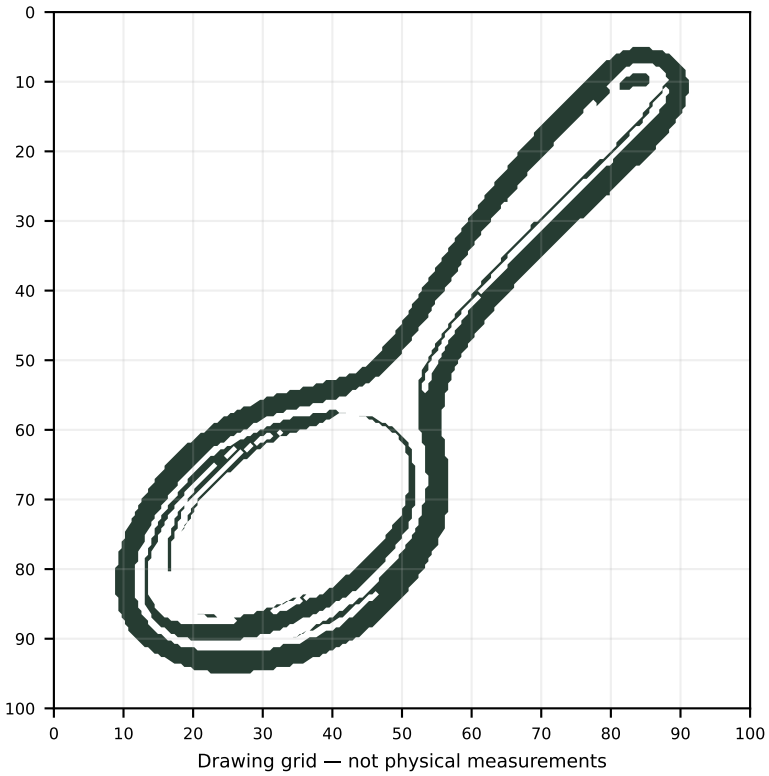

ANSWER: Example solution: preserve oval bowl at the lower left, long handle extending to the upper right, curved profile with a slight S-curve in the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bowl, tilted diagonally.
2. Extend two roughly parallel curved lines from the top of the oval to form the long handle.
3. Add a small circle or hole near the rounded end of the handle.
4. Outline the bowl and handle with a thicker contour to define the silhouette.

How to Draw Spoon — Free Practice Sheets

ANSWER / CASE 4

spoon: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve oval bowl at the lower left, long handle extending to the upper right, curved profile with a slight S-curve in the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large oval for the bowl, tilted diagonally.
2. Extend two roughly parallel curved lines from the top of the oval to form the long handle.
3. Add a small circle or hole near the rounded end of the handle.
4. Outline the bowl and handle with a thicker contour to define the silhouette.
