How to Draw Speaker — Free Practice Sheets

ANSWER / CASE 1

speaker: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

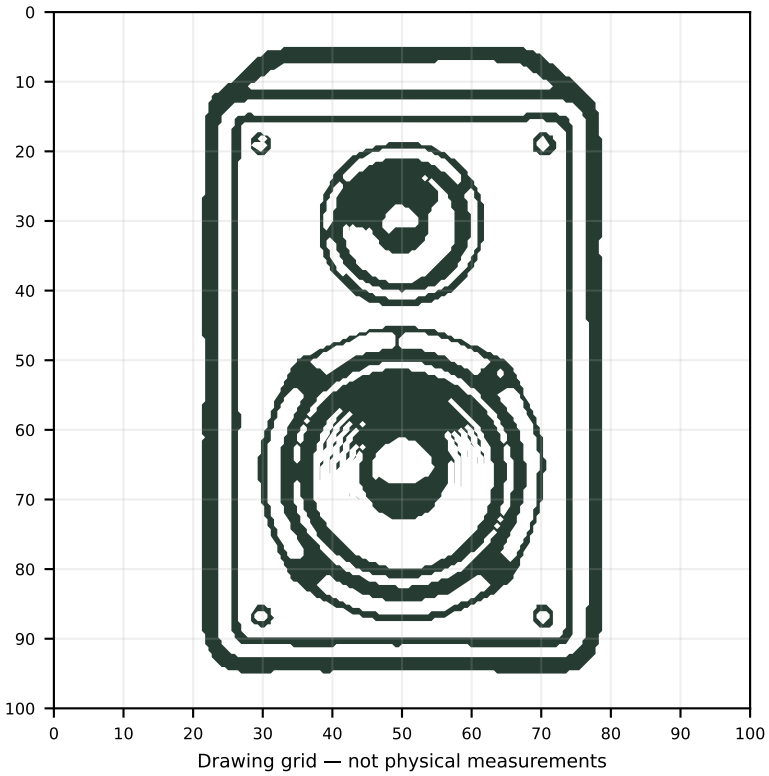

ANSWER: Example solution: preserve rounded rectangular outer frame with a top handle-like outline, two circular driver cones of different sizes arranged vertically, concentric ring/grille texture on the lower large driver. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded rectangular outer frame and add the top handle outline above it.
2. Place the small upper circular driver centered near the top of the front panel.
3. Draw the larger lower circular driver centered below it, with concentric rings for the grille texture.
4. Add the corner fastener circles and the inner cone details to complete the speaker.

How to Draw Speaker — Free Practice Sheets

ANSWER / CASE 2

speaker: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

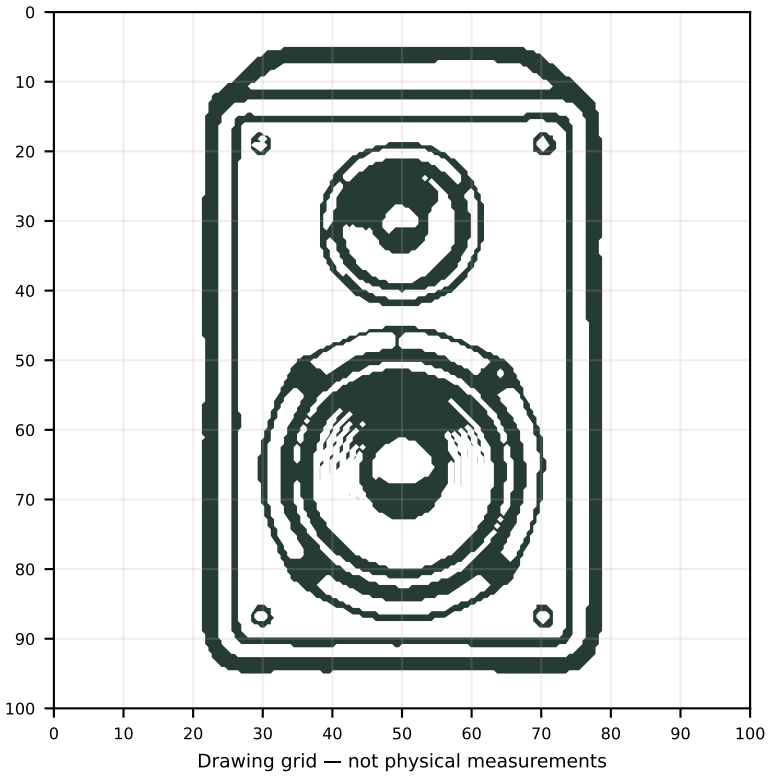

ANSWER: Example solution: preserve rounded rectangular outer frame with a top handle-like outline, two circular driver cones of different sizes arranged vertically, concentric ring/grille texture on the lower large driver. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded rectangular outer frame and add the top handle outline above it.
2. Place the small upper circular driver centered near the top of the front panel.
3. Draw the larger lower circular driver centered below it, with concentric rings for the grille texture.
4. Add the corner fastener circles and the inner cone details to complete the speaker.

How to Draw Speaker — Free Practice Sheets

ANSWER / CASE 3

speaker: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

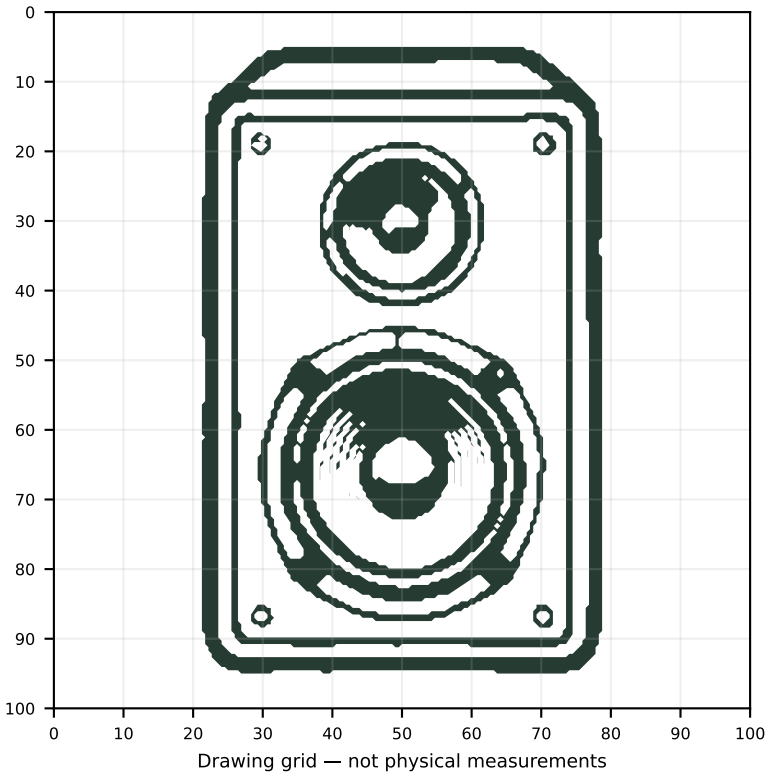

ANSWER: Example solution: preserve rounded rectangular outer frame with a top handle-like outline, two circular driver cones of different sizes arranged vertically, concentric ring/grille texture on the lower large driver. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded rectangular outer frame and add the top handle outline above it.
2. Place the small upper circular driver centered near the top of the front panel.
3. Draw the larger lower circular driver centered below it, with concentric rings for the grille texture.
4. Add the corner fastener circles and the inner cone details to complete the speaker.

How to Draw Speaker — Free Practice Sheets

ANSWER / CASE 4

speaker: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rounded rectangular outer frame with a top handle-like outline, two circular driver cones of different sizes arranged vertically, concentric ring/grille texture on the lower large driver. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the rounded rectangular outer frame and add the top handle outline above it.
2. Place the small upper circular driver centered near the top of the front panel.
3. Draw the larger lower circular driver centered below it, with concentric rings for the grille texture.
4. Add the corner fastener circles and the inner cone details to complete the speaker.
