How to Draw Trash Can — Free Practice Sheets

ANSWER / CASE 1

trash can: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

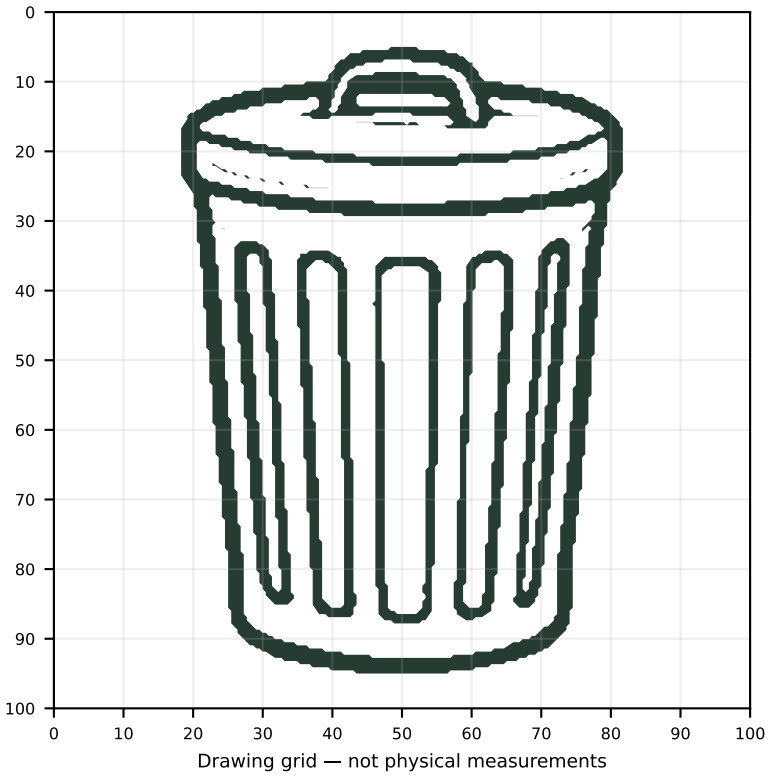

ANSWER: Example solution: preserve cylindrical body with slightly tapered vertical sides, flat lid with a small arched handle on top, vertical ribbed lines running down the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a slightly tapered cylinder for the body, wider at the top and narrower at the bottom.
2. Add an elliptical lid on top with a small arched handle centered above it.
3. Draw evenly spaced vertical lines down the body to represent ribs.
4. Outline the lid rim and body base with thicker contour lines to finish the silhouette.

How to Draw Trash Can — Free Practice Sheets

ANSWER / CASE 2

trash can: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

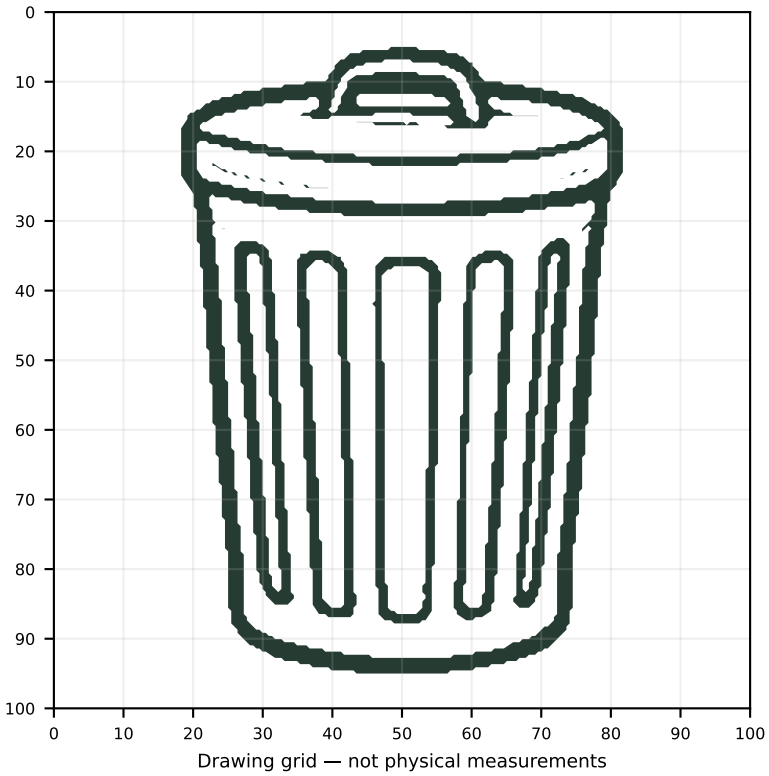

ANSWER: Example solution: preserve cylindrical body with slightly tapered vertical sides, flat lid with a small arched handle on top, vertical ribbed lines running down the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw a slightly tapered cylinder for the body, wider at the top and narrower at the bottom.
2. Add an elliptical lid on top with a small arched handle centered above it.
3. Draw evenly spaced vertical lines down the body to represent ribs.
4. Outline the lid rim and body base with thicker contour lines to finish the silhouette.

How to Draw Trash Can — Free Practice Sheets

ANSWER / CASE 3

trash can: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

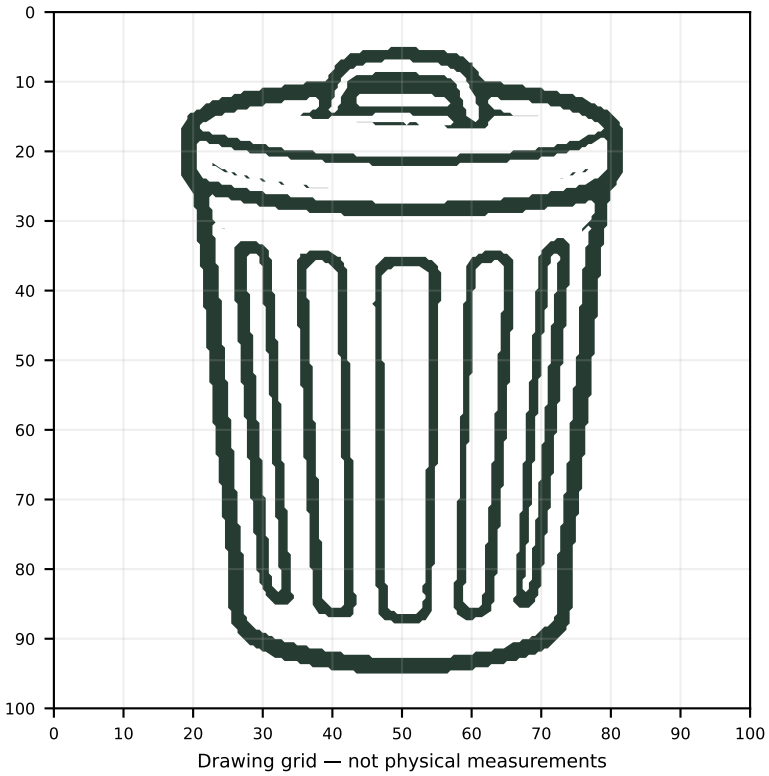

ANSWER: Example solution: preserve cylindrical body with slightly tapered vertical sides, flat lid with a small arched handle on top, vertical ribbed lines running down the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a slightly tapered cylinder for the body, wider at the top and narrower at the bottom.
2. Add an elliptical lid on top with a small arched handle centered above it.
3. Draw evenly spaced vertical lines down the body to represent ribs.
4. Outline the lid rim and body base with thicker contour lines to finish the silhouette.

How to Draw Trash Can — Free Practice Sheets

ANSWER / CASE 4

trash can: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve cylindrical body with slightly tapered vertical sides, flat lid with a small arched handle on top, vertical ribbed lines running down the body. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a slightly tapered cylinder for the body, wider at the top and narrower at the bottom.
2. Add an elliptical lid on top with a small arched handle centered above it.
3. Draw evenly spaced vertical lines down the body to represent ribs.
4. Outline the lid rim and body base with thicker contour lines to finish the silhouette.
