How to Draw Baseball Glove — Free Practice Sheets

ANSWER / CASE 1

baseball glove: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

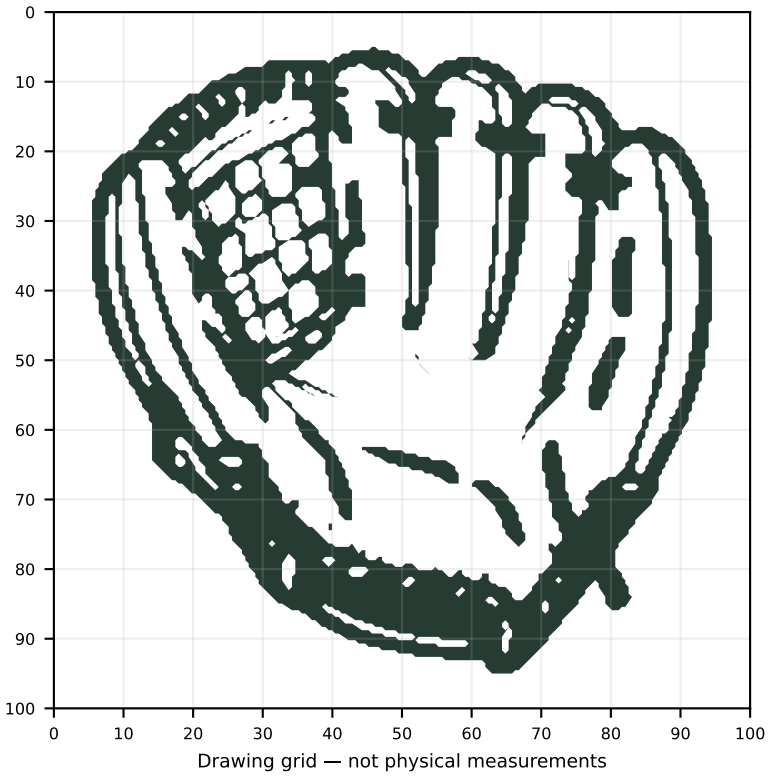

ANSWER: Example solution: preserve wide padded fingers with stitched seams, webbing between thumb and index finger, wrist strap and lacing along the bottom edge. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the outer rounded outline of the glove, including the thumb on the left and the four finger humps across the top.
2. Add the rectangular webbing panel between the thumb and index finger, using a grid of crossing lines.
3. Draw the finger seams and padded sections with short curved lines and stitch marks on each finger.
4. Finish the bottom wrist opening with a thick curved strap and lacing details.
