# How to Draw Surfboard — Free Practice Sheets

### ANSWER / CASE 1

surfboard: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

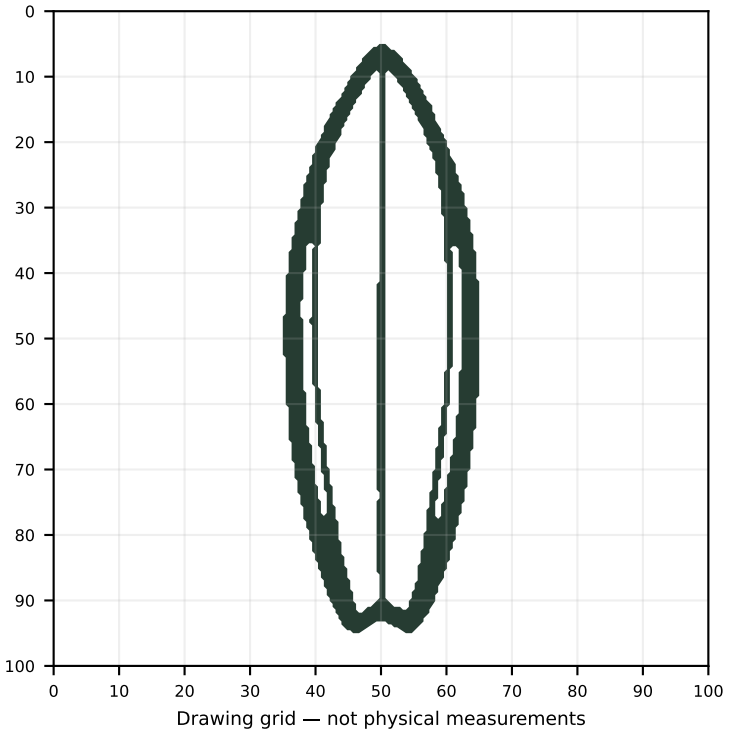

ANSWER: Example solution: preserve long tapered pointed outline, central vertical stripe/stringer line, notched split tail at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long vertical pointed oval for the board outline.
2. Add a straight vertical center line from nose to tail.
3. Draw inner contour lines parallel to the outer edge to suggest rails.
4. Cut a small V notch at the bottom to form the split tail.

### ANSWER / CASE 2

surfboard: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

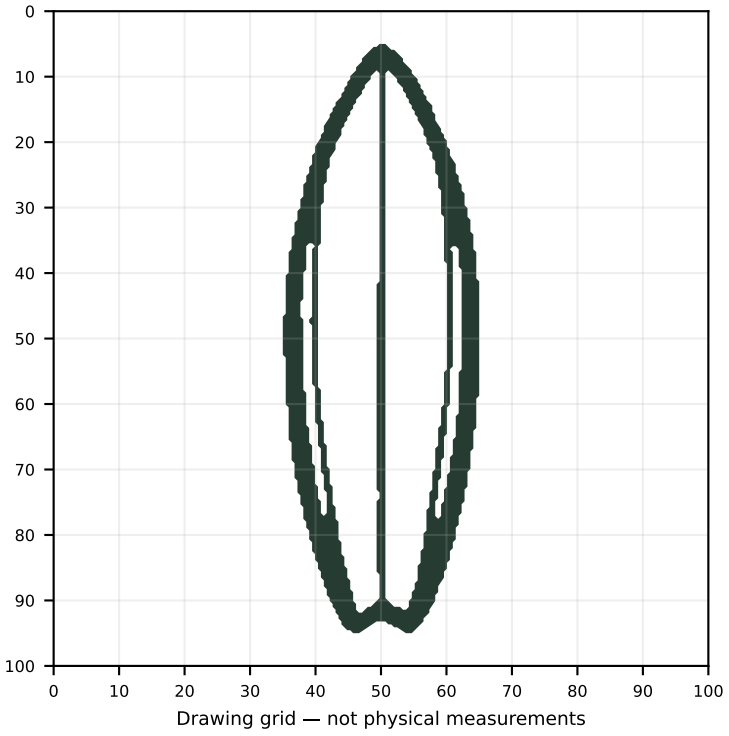

ANSWER: Example solution: preserve long tapered pointed outline, central vertical stripe/stringer line, notched split tail at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long vertical pointed oval for the board outline.
2. Add a straight vertical center line from nose to tail.
3. Draw inner contour lines parallel to the outer edge to suggest rails.
4. Cut a small V notch at the bottom to form the split tail.

### ANSWER / CASE 3

surfboard: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

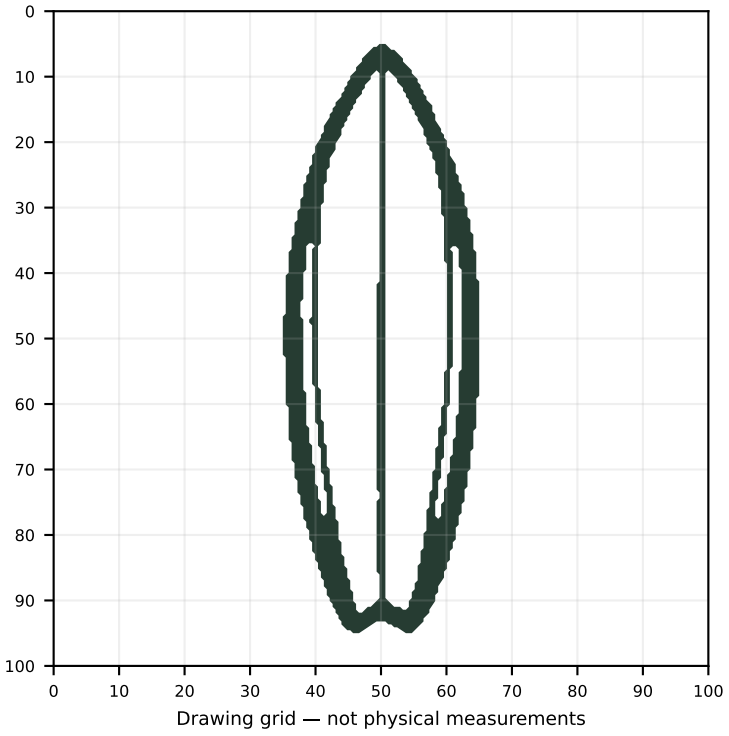

ANSWER: Example solution: preserve long tapered pointed outline, central vertical stripe/stringer line, notched split tail at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long vertical pointed oval for the board outline.
2. Add a straight vertical center line from nose to tail.
3. Draw inner contour lines parallel to the outer edge to suggest rails.
4. Cut a small V notch at the bottom to form the split tail.

### ANSWER / CASE 4

surfboard: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long tapered pointed outline, central vertical stripe/stringer line, notched split tail at the bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a long vertical pointed oval for the board outline.
2. Add a straight vertical center line from nose to tail.
3. Draw inner contour lines parallel to the outer edge to suggest rails.
4. Cut a small V notch at the bottom to form the split tail.
