How to Draw Balance Scale — Free Practice Sheets

REFERENCE / CASE 1

balance scale: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

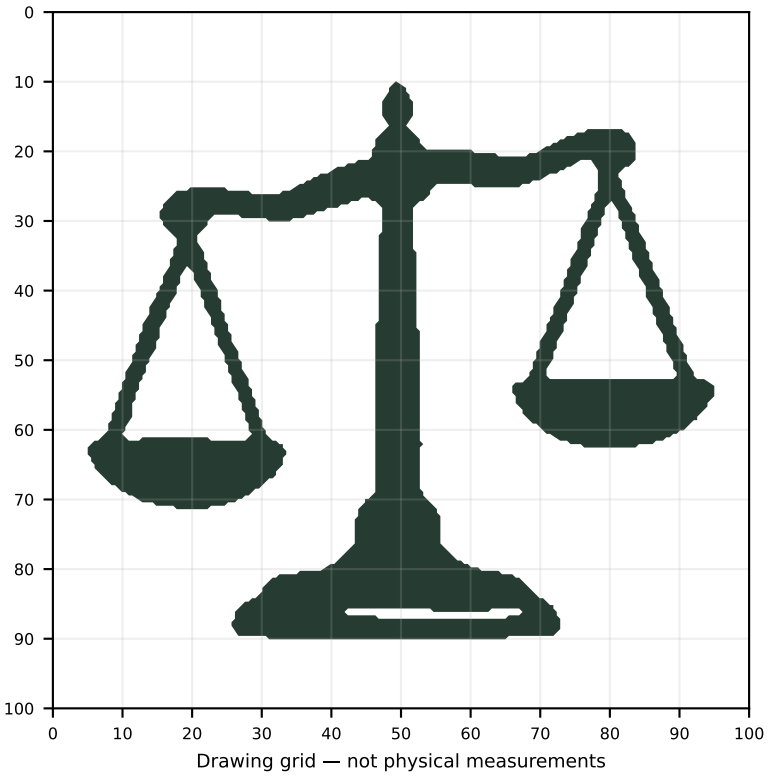

METHOD: Draw a vertical central column and add a small pointed finial at the top. Draw a horizontal beam across the top of the column, with small circular attachment points at each end. From each beam end, draw two diagonal lines forming a triangle that connects to a bowl-shaped pan. Draw a wide, stepped base at the bottom of the column to complete the stand.
Use the separate practice sheet before checking the answer.

How to Draw Balance Scale — Free Practice Sheets

REFERENCE / CASE 2

balance scale: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

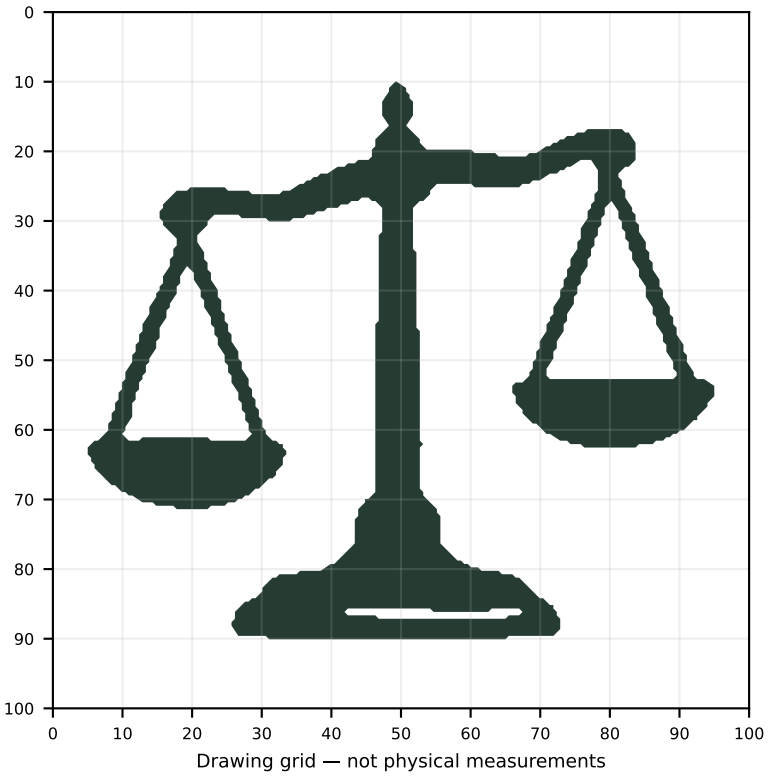

METHOD: Draw a vertical central column and add a small pointed finial at the top. Draw a horizontal beam across the top of the column, with small circular attachment points at each end. From each beam end, draw two diagonal lines forming a triangle that connects to a bowl-shaped pan. Draw a wide, stepped base at the bottom of the column to complete the stand.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

balance scale: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

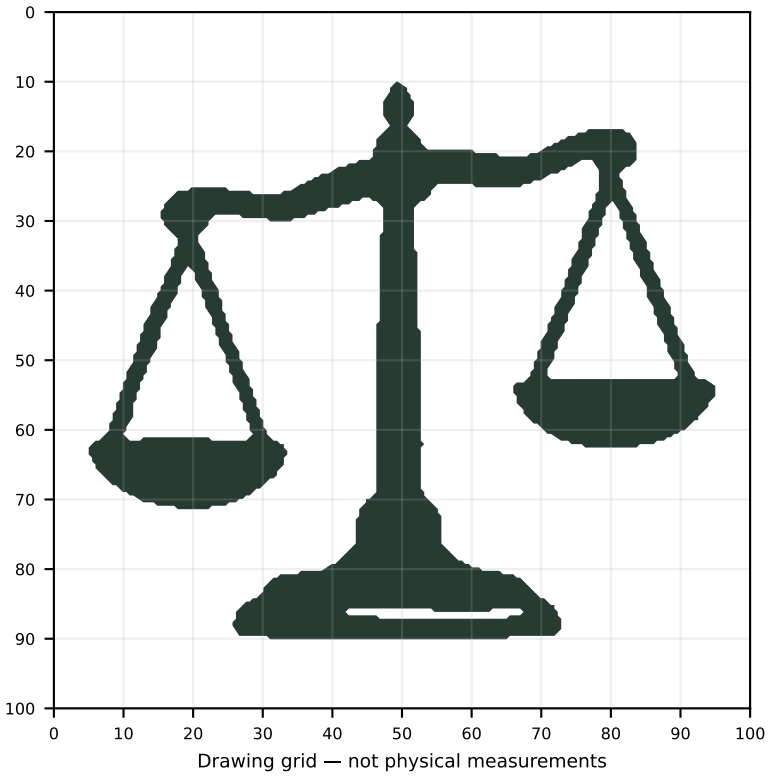

METHOD: Draw a vertical central column and add a small pointed finial at the top. Draw a horizontal beam across the top of the column, with small circular attachment points at each end. From each beam end, draw two diagonal lines forming a triangle that connects to a bowl-shaped pan. Draw a wide, stepped base at the bottom of the column to complete the stand.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 4

balance scale: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a vertical central column and add a small pointed finial at the top. Draw a horizontal beam across the top of the column, with small circular attachment points at each end. From each beam end, draw two diagonal lines forming a triangle that connects to a bowl-shaped pan. Draw a wide, stepped base at the bottom of the column to complete the stand.
Use the separate practice sheet before checking the answer.
