How to Draw Refrigerator — Free Practice Sheets

ANSWER / CASE 1

refrigerator: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

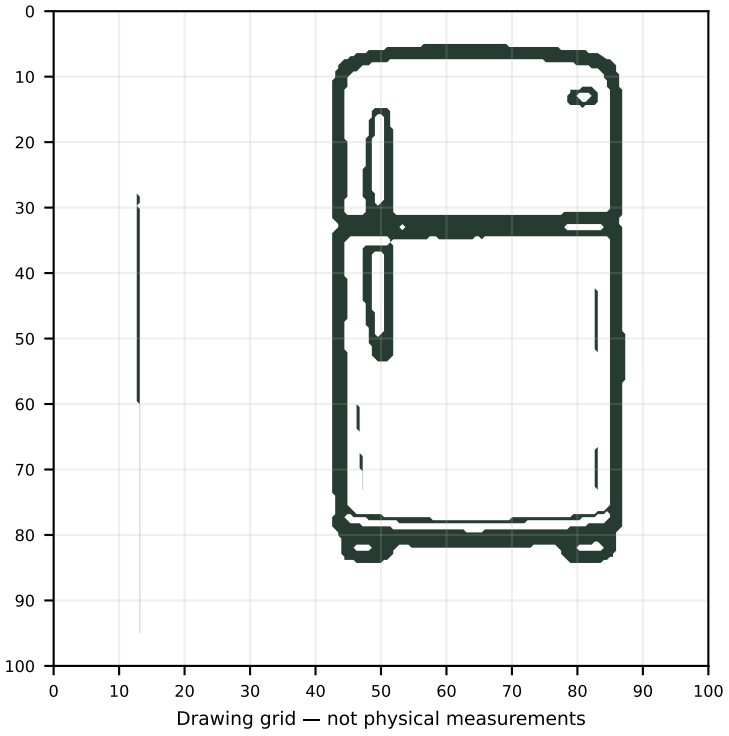

ANSWER: Example solution: preserve tall rectangular body with rounded top corners, horizontal door seam line dividing upper and lower sections, two vertical door handles (one on each door). Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the overall body outline.
2. Add a horizontal line across the middle to separate the freezer and fridge doors.
3. Draw two vertical handle shapes on the left side of each door section.
4. Add small feet at the bottom and a small rectangular detail on the upper right door.

How to Draw Refrigerator — Free Practice Sheets

ANSWER / CASE 2

refrigerator: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

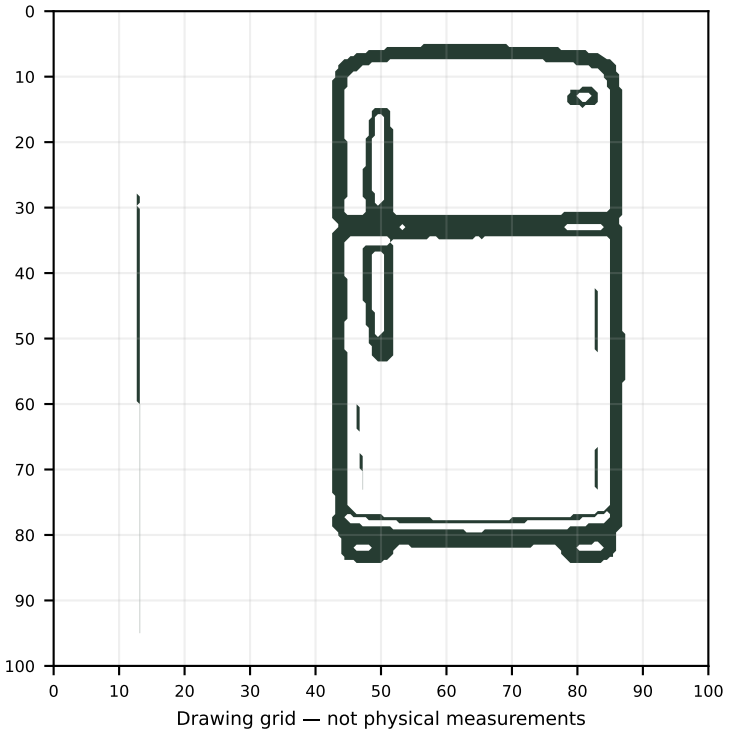

ANSWER: Example solution: preserve tall rectangular body with rounded top corners, horizontal door seam line dividing upper and lower sections, two vertical door handles (one on each door). Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the overall body outline.
2. Add a horizontal line across the middle to separate the freezer and fridge doors.
3. Draw two vertical handle shapes on the left side of each door section.
4. Add small feet at the bottom and a small rectangular detail on the upper right door.

How to Draw Refrigerator — Free Practice Sheets

ANSWER / CASE 3

refrigerator: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

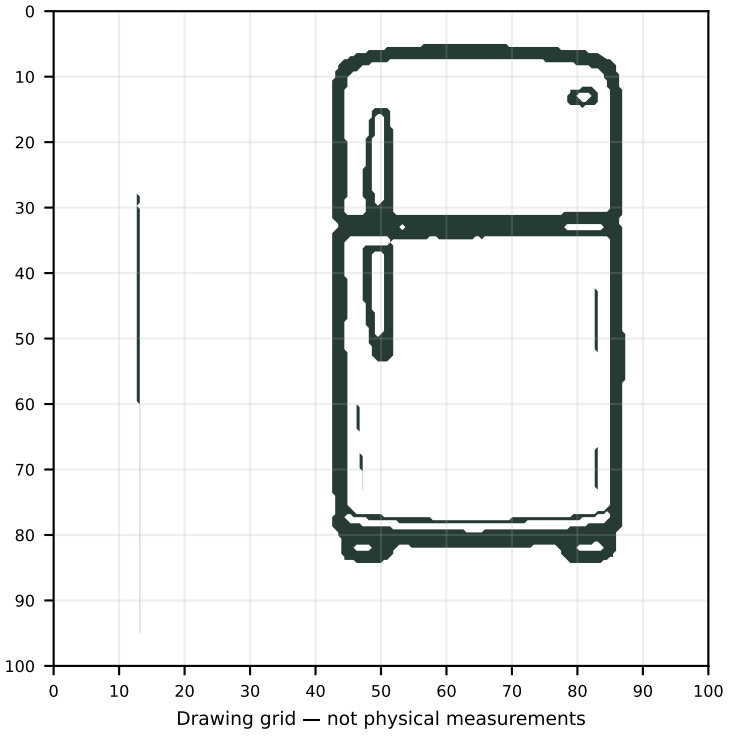

ANSWER: Example solution: preserve tall rectangular body with rounded top corners, horizontal door seam line dividing upper and lower sections, two vertical door handles (one on each door). Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the overall body outline.
2. Add a horizontal line across the middle to separate the freezer and fridge doors.
3. Draw two vertical handle shapes on the left side of each door section.
4. Add small feet at the bottom and a small rectangular detail on the upper right door.

How to Draw Refrigerator — Free Practice Sheets

ANSWER / CASE 4

refrigerator: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve tall rectangular body with rounded top corners, horizontal door seam line dividing upper and lower sections, two vertical door handles (one on each door). Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall rounded rectangle for the overall body outline.
2. Add a horizontal line across the middle to separate the freezer and fridge doors.
3. Draw two vertical handle shapes on the left side of each door section.
4. Add small feet at the bottom and a small rectangular detail on the upper right door.
