# How to Draw Comb — Free Practice Sheets

### REFERENCE / CASE 1

comb: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

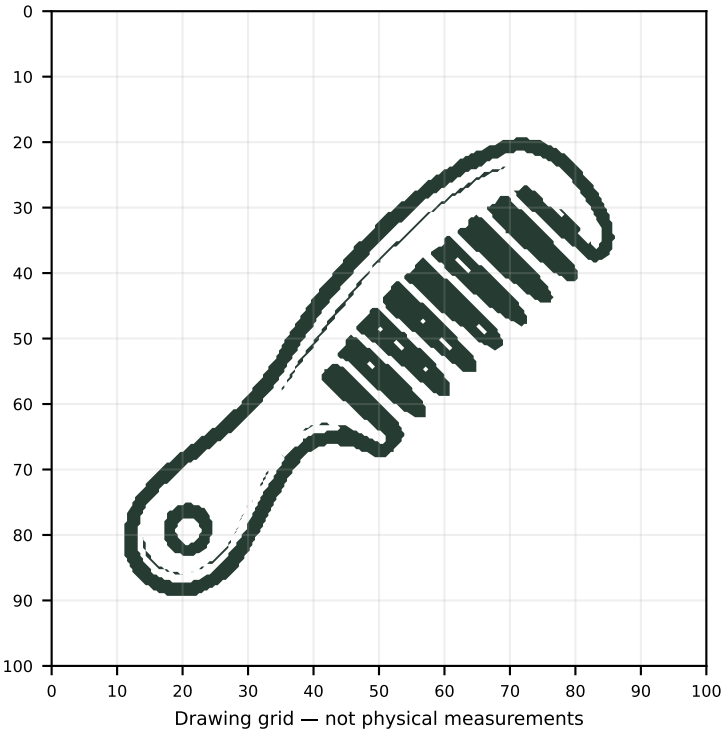

METHOD: Draw the long narrow spine as a gently curved elongated shape from the handle end to the tip. Add the rounded handle at the lower end, including a small circular hole near its center. Along the upper edge of the spine, draw a row of evenly spaced teeth projecting outward. Connect the teeth to the spine with clean lines and close the outline, keeping the handle and spine continuous.
Use the separate practice sheet before checking the answer.

# How to Draw Comb — Free Practice Sheets

**REFERENCE / CASE 2**

comb: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

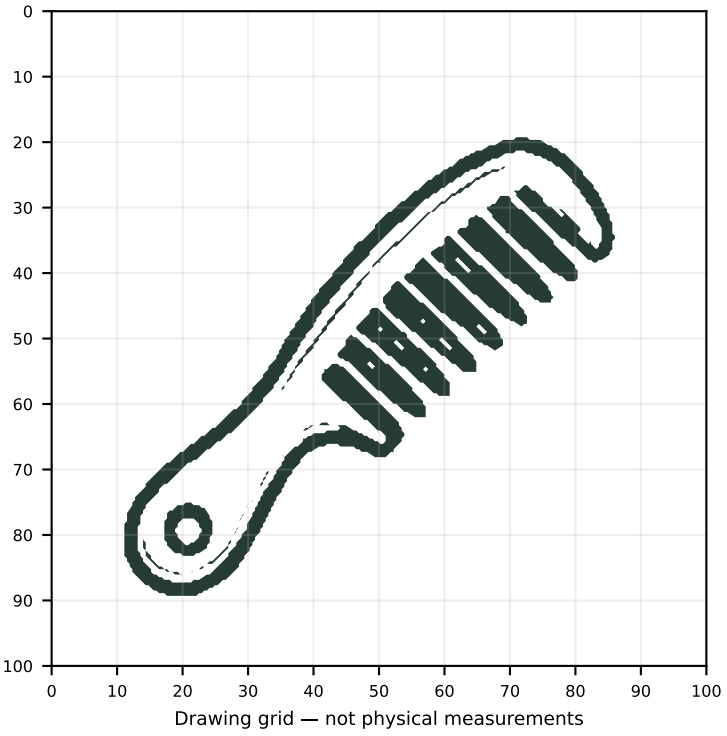

METHOD: Draw the long narrow spine as a gently curved elongated shape from the handle end to the tip. Add the rounded handle at the lower end, including a small circular hole near its center. Along the upper edge of the spine, draw a row of evenly spaced teeth projecting outward. Connect the teeth to the spine with clean lines and close the outline, keeping the handle and spine continuous.
Use the separate practice sheet before checking the answer.

# How to Draw Comb — Free Practice Sheets

**REFERENCE / CASE 3**

comb: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

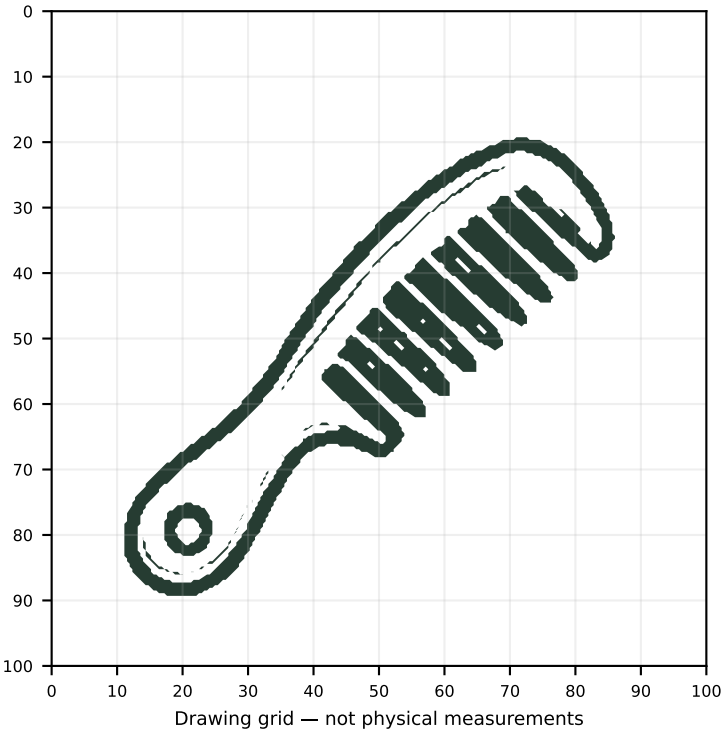

METHOD: Draw the long narrow spine as a gently curved elongated shape from the handle end to the tip. Add the rounded handle at the lower end, including a small circular hole near its center. Along the upper edge of the spine, draw a row of evenly spaced teeth projecting outward. Connect the teeth to the spine with clean lines and close the outline, keeping the handle and spine continuous.
Use the separate practice sheet before checking the answer.

# How to Draw Comb — Free Practice Sheets

**REFERENCE / CASE 4**

comb: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the long narrow spine as a gently curved elongated shape from the handle end to the tip. Add the rounded handle at the lower end, including a small circular hole near its center. Along the upper edge of the spine, draw a row of evenly spaced teeth projecting outward. Connect the teeth to the spine with clean lines and close the outline, keeping the handle and spine continuous.
Use the separate practice sheet before checking the answer.
