How to Draw Wrench — Free Practice Sheets

REFERENCE / CASE 1

wrench: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

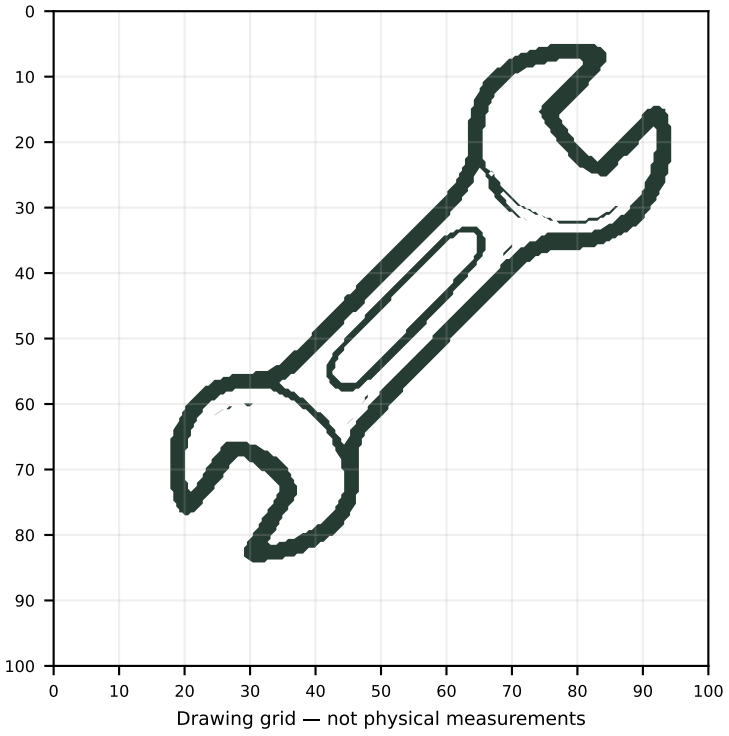

METHOD: Draw a long, slightly tapered handle as the central body. Add an open C-shaped jaw at the top end, angled outward. Add a matching open C-shaped jaw at the bottom end, angled in the opposite direction. Draw inner parallel contour lines along the handle and jaws to suggest thickness and beveled edges.
Use the separate practice sheet before checking the answer.

How to Draw Wrench — Free Practice Sheets

REFERENCE / CASE 2

wrench: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

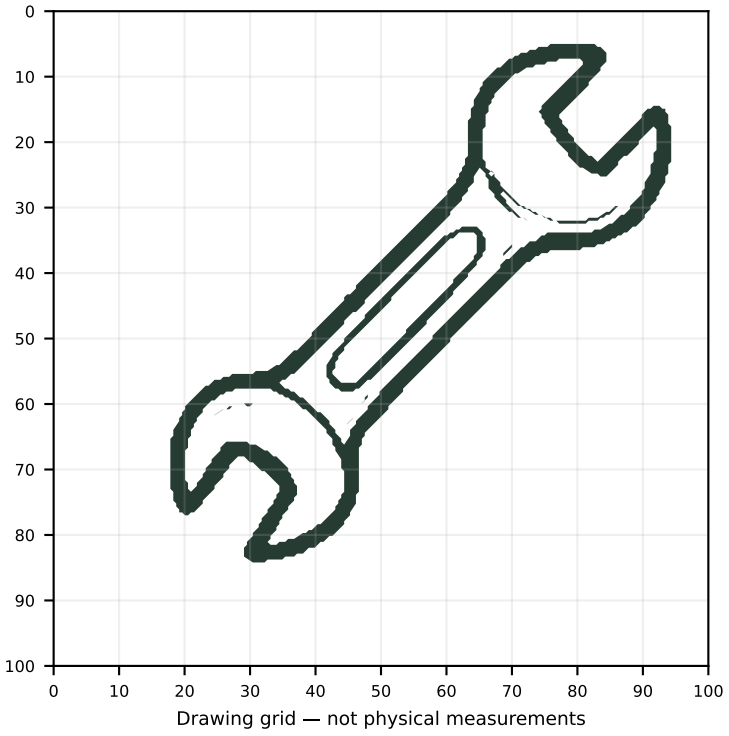

METHOD: Draw a long, slightly tapered handle as the central body. Add an open C-shaped jaw at the top end, angled outward. Add a matching open C-shaped jaw at the bottom end, angled in the opposite direction. Draw inner parallel contour lines along the handle and jaws to suggest thickness and beveled edges.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

wrench: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

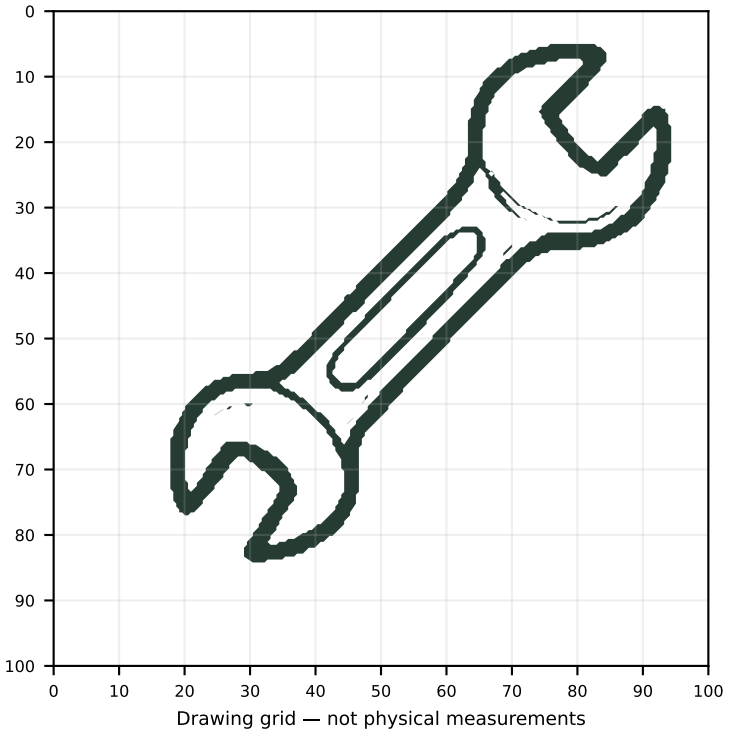

METHOD: Draw a long, slightly tapered handle as the central body. Add an open C-shaped jaw at the top end, angled outward. Add a matching open C-shaped jaw at the bottom end, angled in the opposite direction. Draw inner parallel contour lines along the handle and jaws to suggest thickness and beveled edges.
Use the separate practice sheet before checking the answer.

How to Draw Wrench — Free Practice Sheets

REFERENCE / CASE 4

wrench: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long, slightly tapered handle as the central body. Add an open C-shaped jaw at the top end, angled outward. Add a matching open C-shaped jaw at the bottom end, angled in the opposite direction. Draw inner parallel contour lines along the handle and jaws to suggest thickness and beveled edges.
Use the separate practice sheet before checking the answer.
