# How to Draw Picture Frame — Free Practice Sheets

### ANSWER / CASE 1

picture frame: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

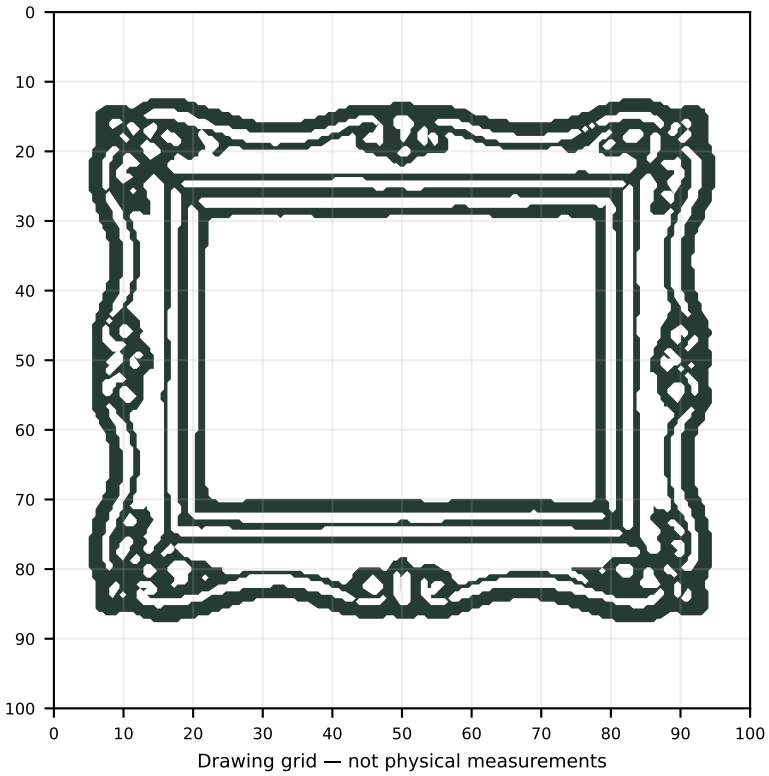

ANSWER: Example solution: preserve rectangular outer border with wavy, scalloped edges, rectangular inner opening formed by nested straight lines, corner and midpoint decorative joints with scroll motifs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large rectangle for the outer frame boundary.
2. Draw a smaller centered rectangle inside to define the inner opening.
3. Add a second inner rectangle line to create the frame's beveled edge.
4. Draw wavy, scalloped outlines along the outer border and add scroll motifs at the corners and side midpoints.
