How to Draw Screw — Free Practice Sheets

REFERENCE / CASE 1

screw: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

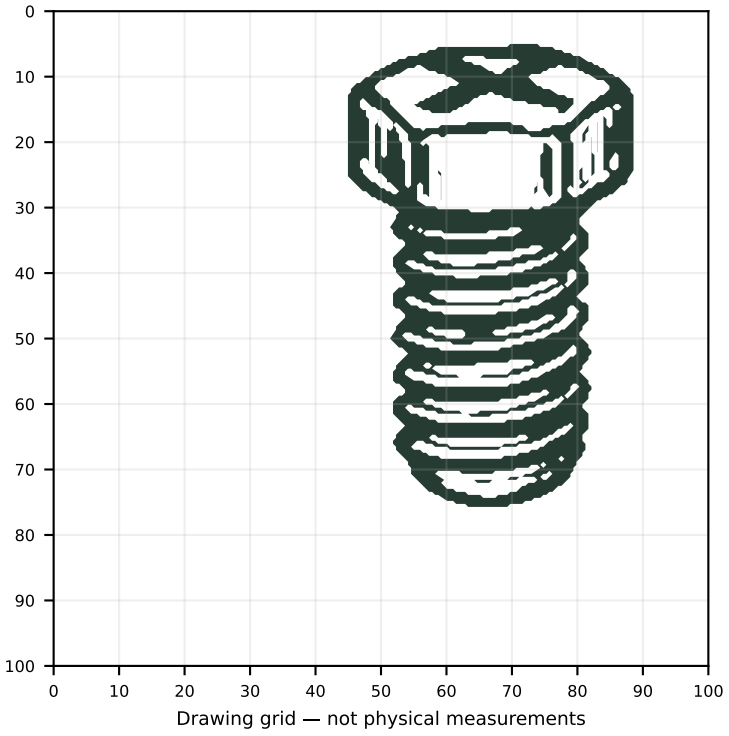

METHOD: Draw a hexagonal head outline with slightly rounded corners. Add a cross/X slot inside the top face of the head. Draw a vertical shaft below the head and fill it with repeated curved horizontal thread lines. Close the bottom of the shaft with a rounded tip and add outline thickness.
Use the separate practice sheet before checking the answer.

How to Draw Screw — Free Practice Sheets

REFERENCE / CASE 2

screw: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

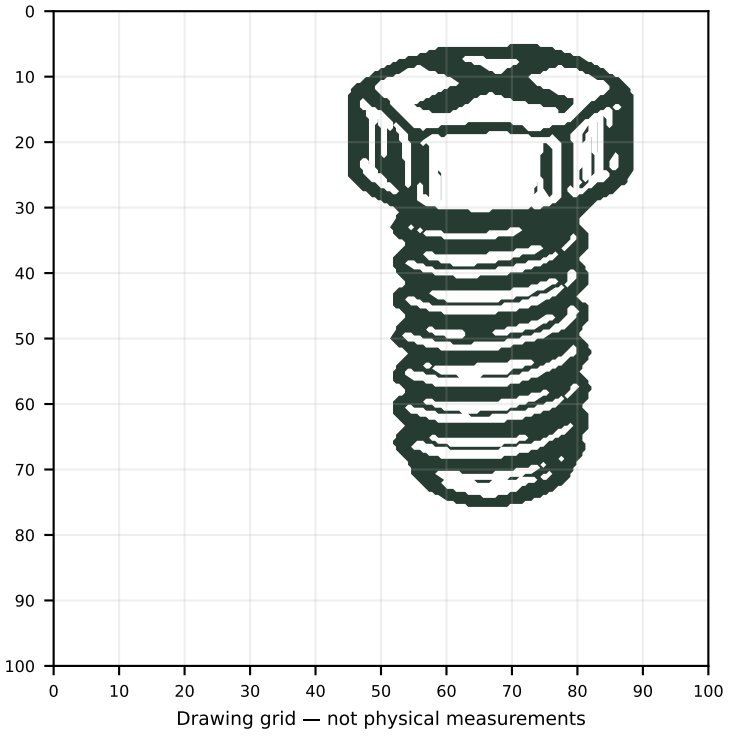

METHOD: Draw a hexagonal head outline with slightly rounded corners. Add a cross/X slot inside the top face of the head. Draw a vertical shaft below the head and fill it with repeated curved horizontal thread lines. Close the bottom of the shaft with a rounded tip and add outline thickness.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

screw: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

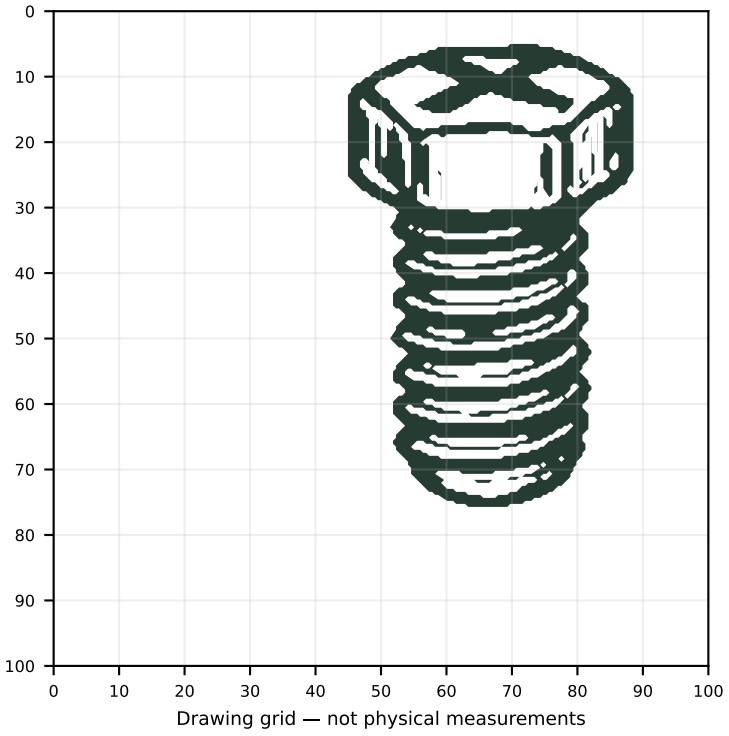

METHOD: Draw a hexagonal head outline with slightly rounded corners. Add a cross/X slot inside the top face of the head. Draw a vertical shaft below the head and fill it with repeated curved horizontal thread lines. Close the bottom of the shaft with a rounded tip and add outline thickness.
Use the separate practice sheet before checking the answer.

How to Draw Screw — Free Practice Sheets

REFERENCE / CASE 4

screw: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a hexagonal head outline with slightly rounded corners. Add a cross/X slot inside the top face of the head. Draw a vertical shaft below the head and fill it with repeated curved horizontal thread lines. Close the bottom of the shaft with a rounded tip and add outline thickness.
Use the separate practice sheet before checking the answer.
