How to Draw Iron — Free Practice Sheets

REFERENCE / CASE 1

iron: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

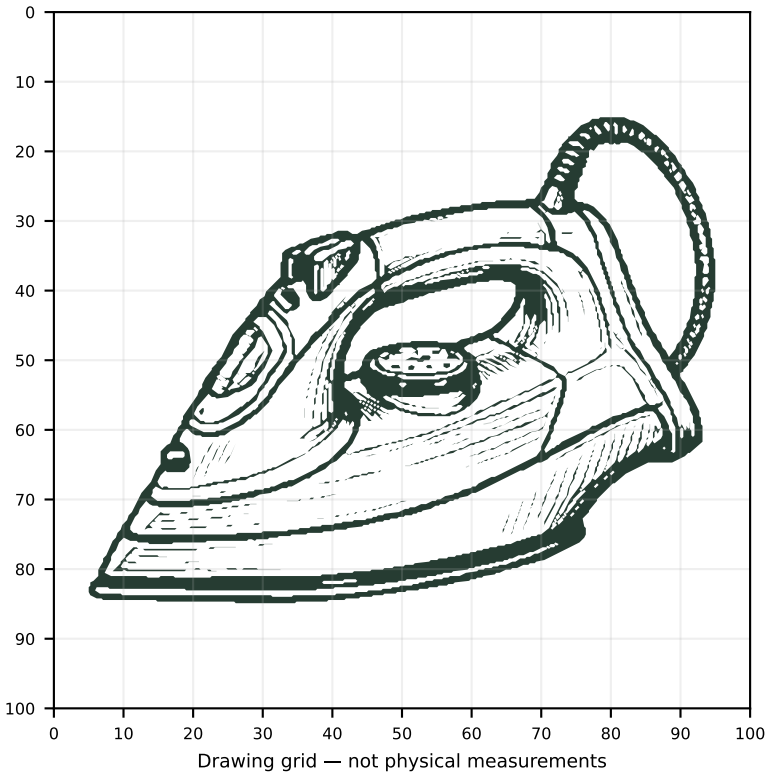

METHOD: Draw the flat triangular soleplate as a long wedge with a pointed front and a slightly raised rear edge. Sketch the curved handle arching over the top, leaving an open gap between the handle and the body. Add the rear cord attachment and draw the cord as a thick looped line extending upward and back. Place the circular dial and small control details on the top deck, then outline the body panels and soleplate rim.
Use the separate practice sheet before checking the answer.
