How to Draw Pickaxe — Free Practice Sheets

REFERENCE / CASE 1

pickaxe: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

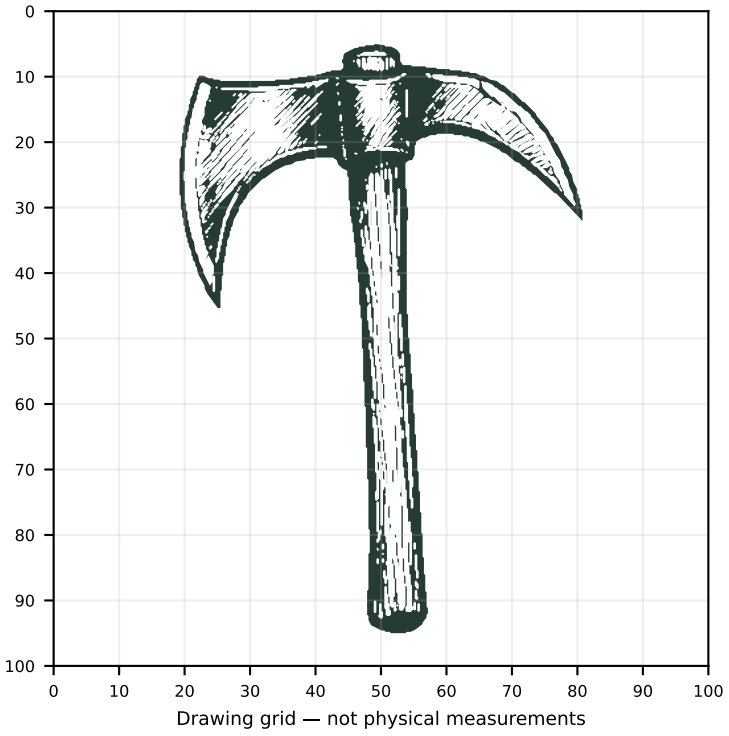

METHOD: Draw a long vertical handle with slightly tapered ends. Sketch a central socket/eye at the top of the handle. Attach a broad curved blade on the left and a pointed curved pick on the right, both angling downward from the socket. Add outline details and hatching to define the metal head and wooden handle.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

pickaxe: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

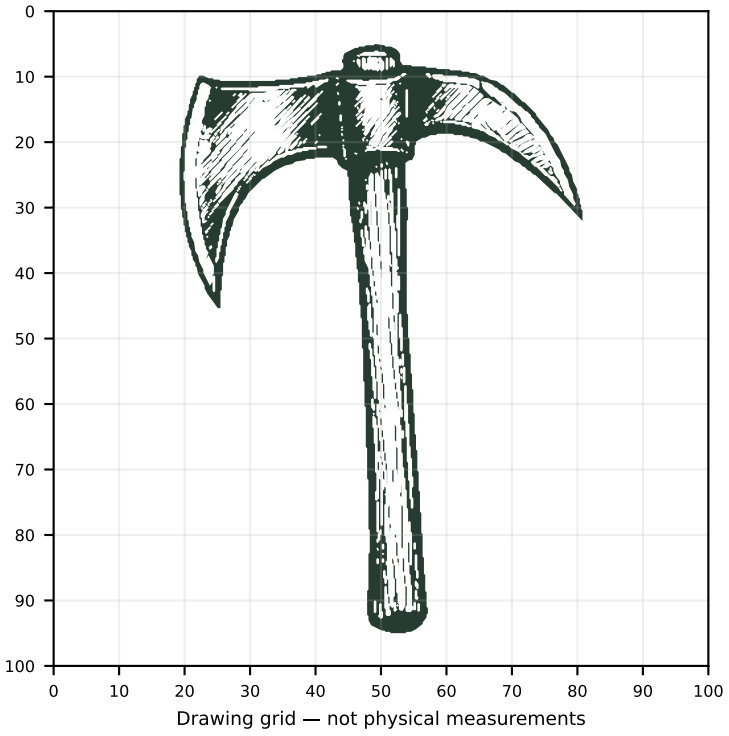

METHOD: Draw a long vertical handle with slightly tapered ends. Sketch a central socket/eye at the top of the handle. Attach a broad curved blade on the left and a pointed curved pick on the right, both angling downward from the socket. Add outline details and hatching to define the metal head and wooden handle.
Use the separate practice sheet before checking the answer.

How to Draw Pickaxe — Free Practice Sheets

REFERENCE / CASE 4

pickaxe: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a long vertical handle with slightly tapered ends. Sketch a central socket/eye at the top of the handle. Attach a broad curved blade on the left and a pointed curved pick on the right, both angling downward from the socket. Add outline details and hatching to define the metal head and wooden handle.
Use the separate practice sheet before checking the answer.
