How to Draw Drums — Free Practice Sheets

ANSWER / CASE 1

drums: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

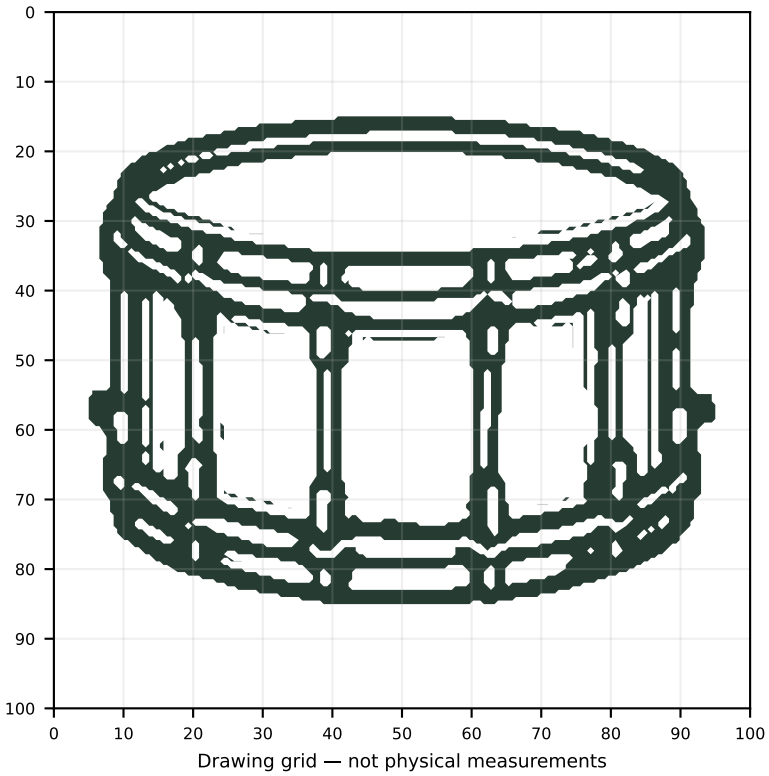

ANSWER: Example solution: preserve cylindrical shell with vertical tension rods, elliptical top drumhead rim, horizontal hoops at top and bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an ellipse for the top drumhead and a matching curved lower edge for the bottom hoop.
2. Connect the top and bottom with slightly curved vertical side lines to form the cylindrical shell.
3. Add evenly spaced vertical tension rods between the top and bottom hoops.
4. Draw the top and bottom rim bands as double lines following the ellipse and lower curve.

How to Draw Drums — Free Practice Sheets

ANSWER / CASE 2

drums: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

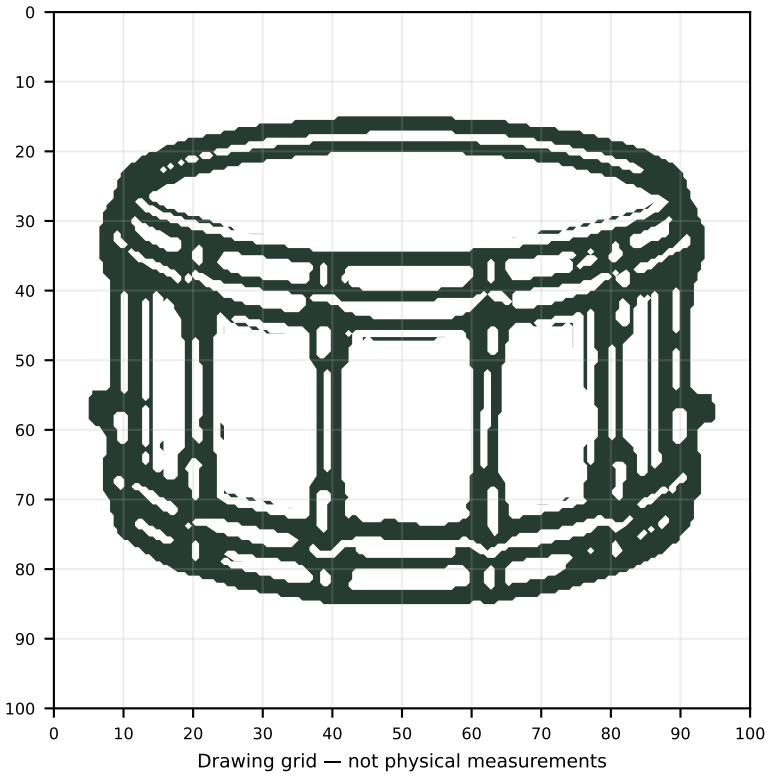

ANSWER: Example solution: preserve cylindrical shell with vertical tension rods, elliptical top drumhead rim, horizontal hoops at top and bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an ellipse for the top drumhead and a matching curved lower edge for the bottom hoop.
2. Connect the top and bottom with slightly curved vertical side lines to form the cylindrical shell.
3. Add evenly spaced vertical tension rods between the top and bottom hoops.
4. Draw the top and bottom rim bands as double lines following the ellipse and lower curve.

How to Draw Drums — Free Practice Sheets

ANSWER / CASE 3

drums: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

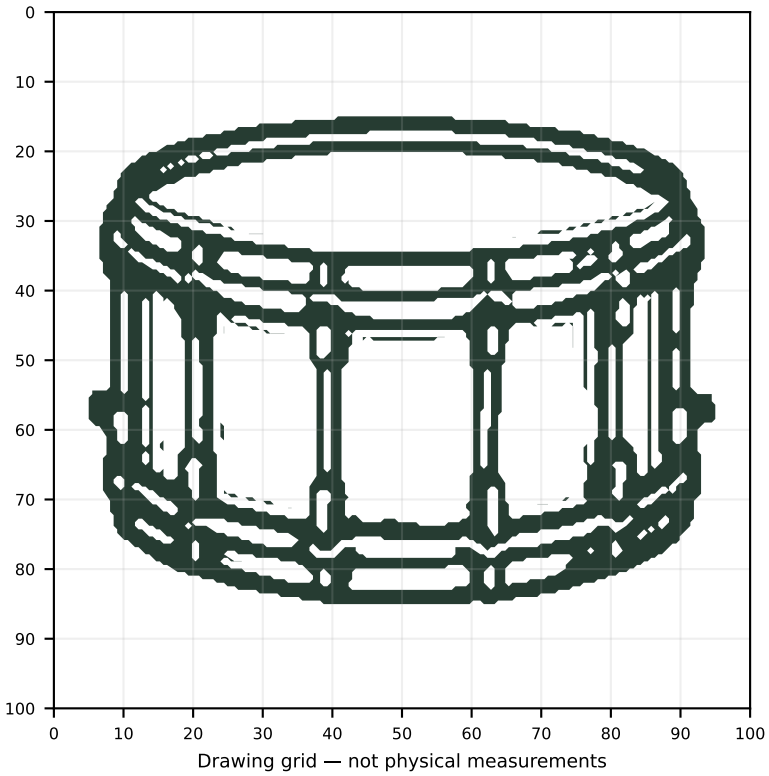

ANSWER: Example solution: preserve cylindrical shell with vertical tension rods, elliptical top drumhead rim, horizontal hoops at top and bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an ellipse for the top drumhead and a matching curved lower edge for the bottom hoop.
2. Connect the top and bottom with slightly curved vertical side lines to form the cylindrical shell.
3. Add evenly spaced vertical tension rods between the top and bottom hoops.
4. Draw the top and bottom rim bands as double lines following the ellipse and lower curve.

How to Draw Drums — Free Practice Sheets

ANSWER / CASE 4

drums: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve cylindrical shell with vertical tension rods, elliptical top drumhead rim, horizontal hoops at top and bottom. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw an ellipse for the top drumhead and a matching curved lower edge for the bottom hoop.
2. Connect the top and bottom with slightly curved vertical side lines to form the cylindrical shell.
3. Add evenly spaced vertical tension rods between the top and bottom hoops.
4. Draw the top and bottom rim bands as double lines following the ellipse and lower curve.
