How to Draw Mirror — Free Practice Sheets

REFERENCE / CASE 1

mirror: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

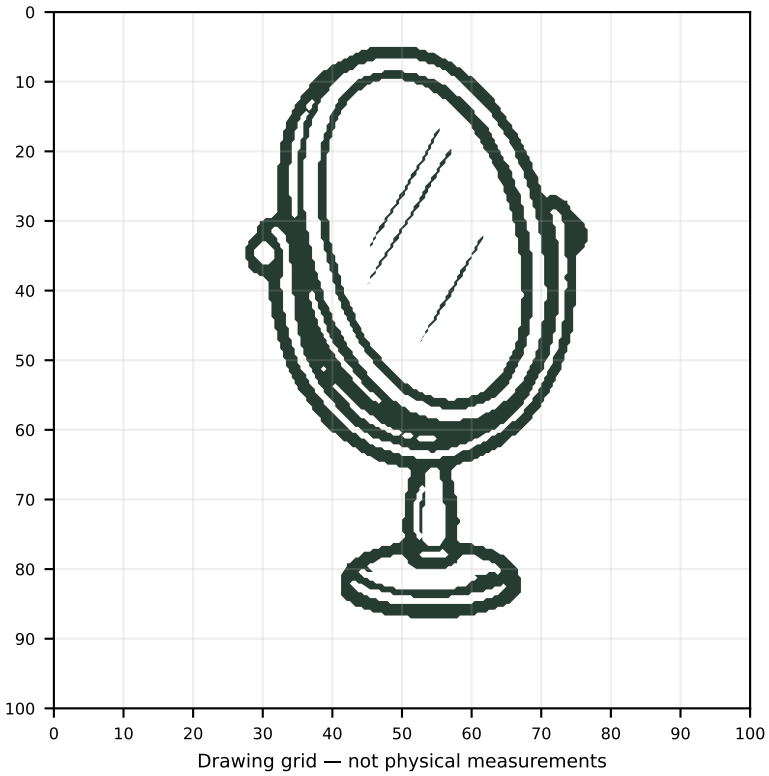

METHOD: Draw a large oval for the mirror face and add a second concentric oval to form the frame. Place small circular knobs on the left and right sides of the frame to indicate pivot points. Draw a short vertical stem descending from the bottom center of the frame. Add a rounded, slightly flattened base at the bottom of the stem to complete the stand. Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

mirror: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

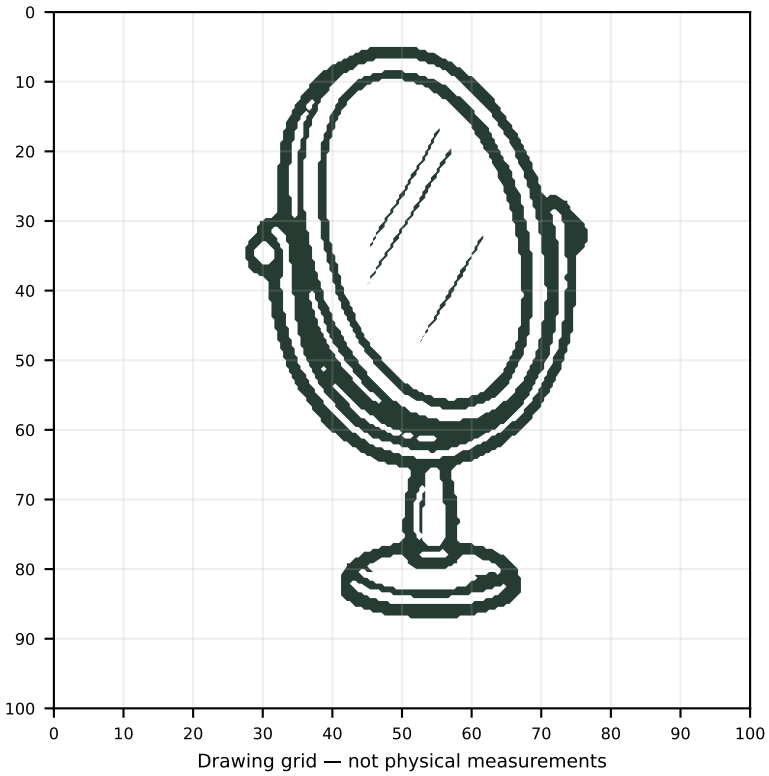

METHOD: Draw a large oval for the mirror face and add a second concentric oval to form the frame. Place small circular knobs on the left and right sides of the frame to indicate pivot points. Draw a short vertical stem descending from the bottom center of the frame. Add a rounded, slightly flattened base at the bottom of the stem to complete the stand. Use the separate practice sheet before checking the answer.

How to Draw Mirror — Free Practice Sheets

REFERENCE / CASE 4

mirror: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a large oval for the mirror face and add a second concentric oval to form the frame. Place small circular knobs on the left and right sides of the frame to indicate pivot points. Draw a short vertical stem descending from the bottom center of the frame. Add a rounded, slightly flattened base at the bottom of the stem to complete the stand. Use the separate practice sheet before checking the answer.
