# How to Draw Paper Bag — Free Practice Sheets

### ANSWER / CASE 1

paper bag: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

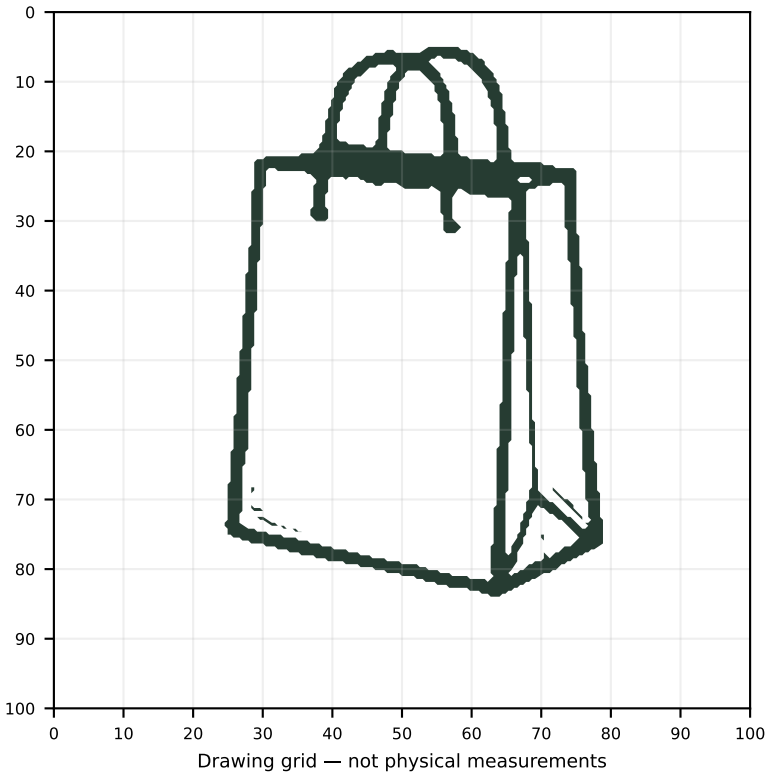

ANSWER: Example solution: preserve rectangular folded body with visible side panel, crumpled top opening with two loop handles, flat base with slight perspective. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the front rectangular face of the bag with a slight taper toward the top.
2. Add the side panel as a narrower quadrilateral attached to the right edge to show depth.
3. Draw the flat base as a short angled line connecting the bottom corners.
4. Add the crumpled top edge and two loop handles attached at the top.

## ANSWER / CASE 2

paper bag: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

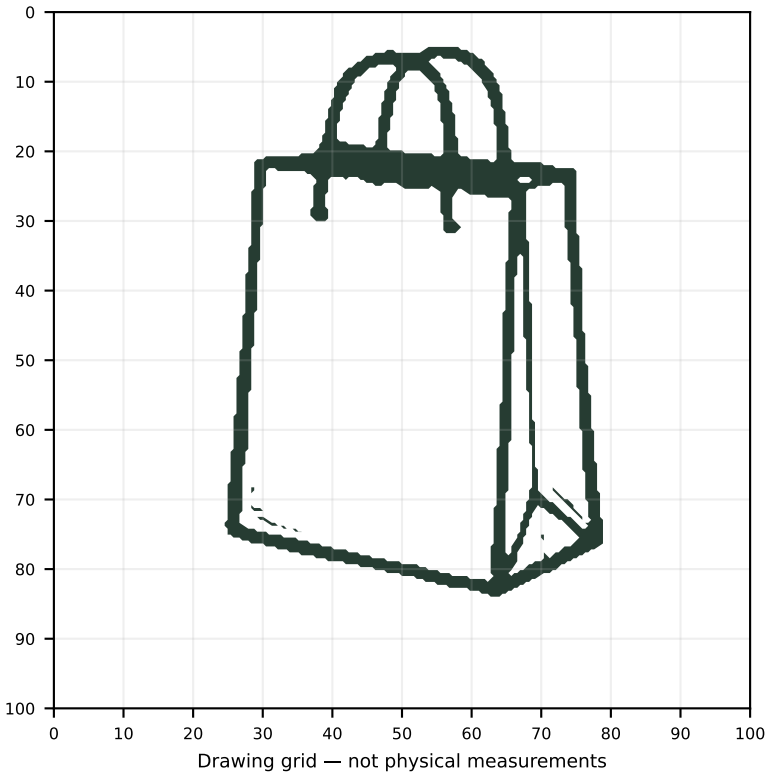

ANSWER: Example solution: preserve rectangular folded body with visible side panel, crumpled top opening with two loop handles, flat base with slight perspective. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw the front rectangular face of the bag with a slight taper toward the top.
2. Add the side panel as a narrower quadrilateral attached to the right edge to show depth.
3. Draw the flat base as a short angled line connecting the bottom corners.
4. Add the crumpled top edge and two loop handles attached at the top.

### ANSWER / CASE 3

paper bag: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

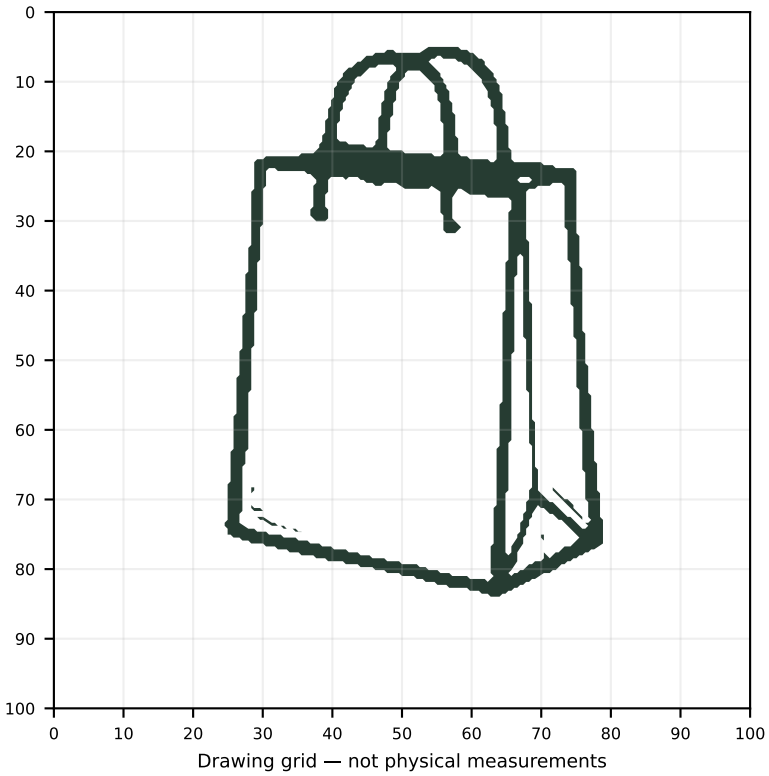

ANSWER: Example solution: preserve rectangular folded body with visible side panel, crumpled top opening with two loop handles, flat base with slight perspective. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the front rectangular face of the bag with a slight taper toward the top.
2. Add the side panel as a narrower quadrilateral attached to the right edge to show depth.
3. Draw the flat base as a short angled line connecting the bottom corners.
4. Add the crumpled top edge and two loop handles attached at the top.

### ANSWER / CASE 4

paper bag: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rectangular folded body with visible side panel, crumpled top opening with two loop handles, flat base with slight perspective. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw the front rectangular face of the bag with a slight taper toward the top.
2. Add the side panel as a narrower quadrilateral attached to the right edge to show depth.
3. Draw the flat base as a short angled line connecting the bottom corners.
4. Add the crumpled top edge and two loop handles attached at the top.
