How to Draw Totem Pole — Free Practice Sheets

ANSWER / CASE 1

totem pole: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

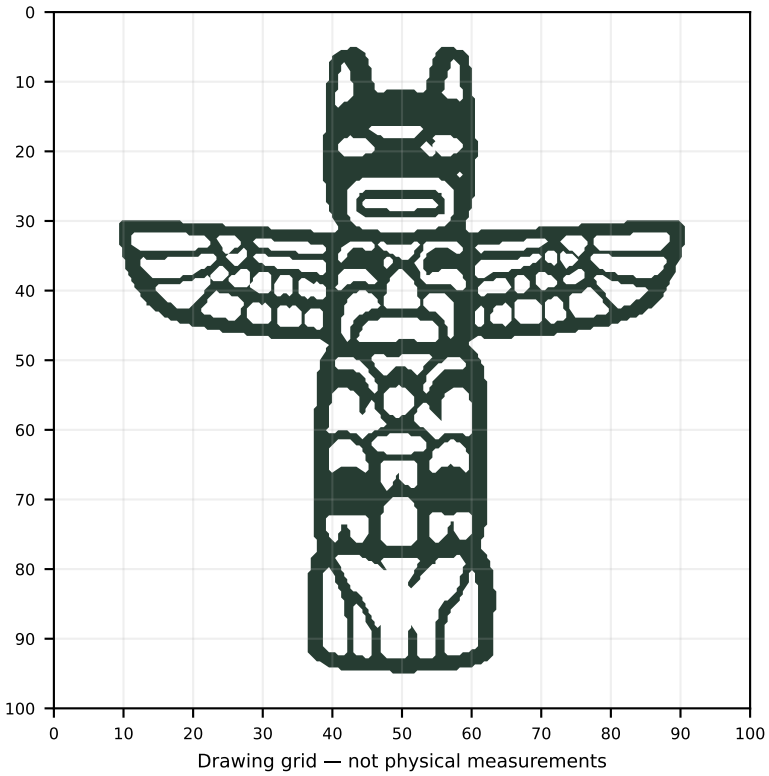

ANSWER: Example solution: preserve stacked carved animal faces arranged in a vertical column, protruding beaks and wings extending horizontally from the upper section, bold black outlines with internal pattern lines forming eyes, feathers, and body segments. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall vertical rectangle to establish the totem pole's central column.
2. Add a large animal head at the top with pointed ears, eyes, and a wide snout.
3. Attach symmetrical wings with feather lines extending outward from the upper body.
4. Stack additional carved face and body shapes down the column, finishing with a rounded base.
