How to Draw Flask — Free Practice Sheets

REFERENCE / CASE 1

flask: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

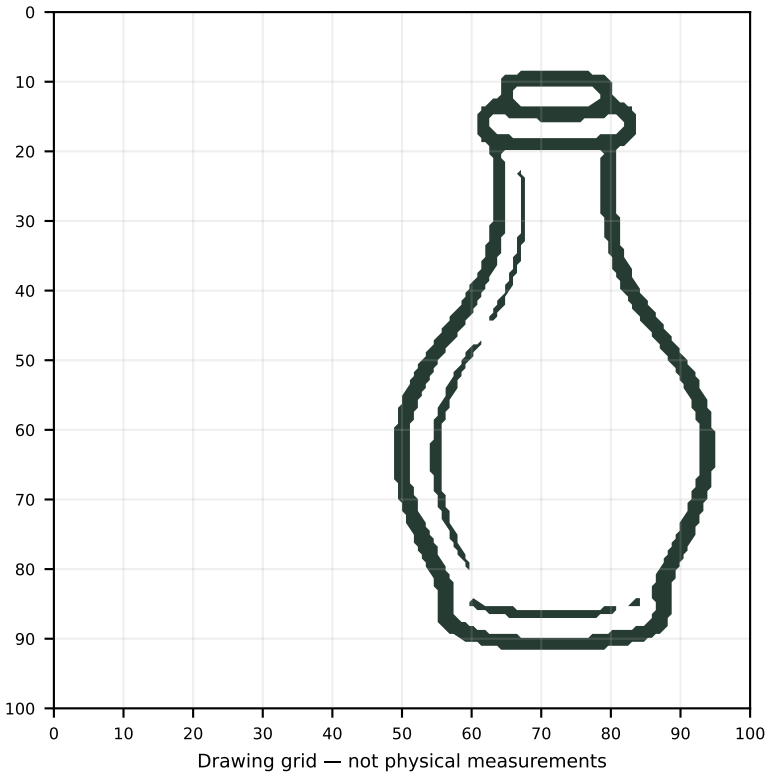

METHOD: Draw a small horizontal oval/rectangle for the flask lip at the top. Add two short vertical lines downward from the lip to form the narrow neck. Curve the neck lines outward into a rounded bulbous body, widening symmetrically on both sides. Close the bottom with a flat horizontal base line and add a short interior line to indicate the base thickness.
Use the separate practice sheet before checking the answer.

How to Draw Flask — Free Practice Sheets

REFERENCE / CASE 2

flask: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

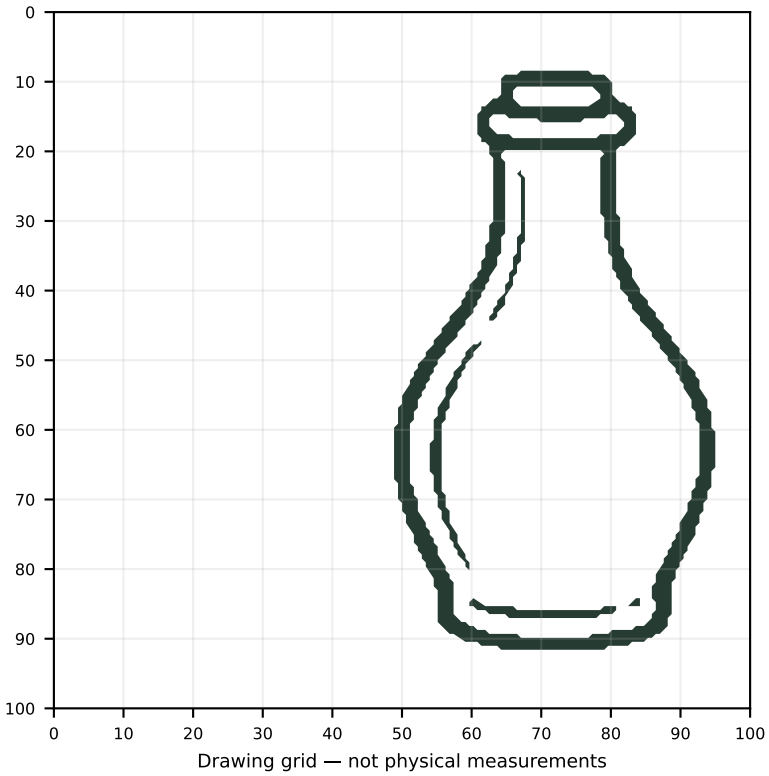

METHOD: Draw a small horizontal oval/rectangle for the flask lip at the top. Add two short vertical lines downward from the lip to form the narrow neck. Curve the neck lines outward into a rounded bulbous body, widening symmetrically on both sides. Close the bottom with a flat horizontal base line and add a short interior line to indicate the base thickness.
Use the separate practice sheet before checking the answer.

How to Draw Flask — Free Practice Sheets

REFERENCE / CASE 3

flask: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

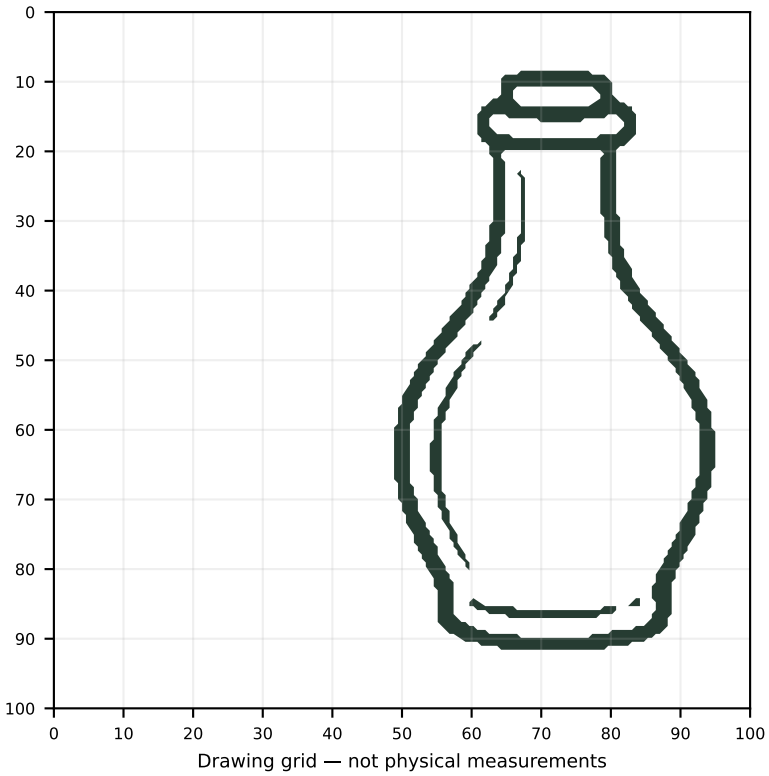

METHOD: Draw a small horizontal oval/rectangle for the flask lip at the top. Add two short vertical lines downward from the lip to form the narrow neck. Curve the neck lines outward into a rounded bulbous body, widening symmetrically on both sides. Close the bottom with a flat horizontal base line and add a short interior line to indicate the base thickness.
Use the separate practice sheet before checking the answer.

How to Draw Flask — Free Practice Sheets

REFERENCE / CASE 4

flask: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a small horizontal oval/rectangle for the flask lip at the top. Add two short vertical lines downward from the lip to form the narrow neck. Curve the neck lines outward into a rounded bulbous body, widening symmetrically on both sides. Close the bottom with a flat horizontal base line and add a short interior line to indicate the base thickness.
Use the separate practice sheet before checking the answer.
