How to Draw Fork — Free Practice Sheets

ANSWER / CASE 1

fork: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

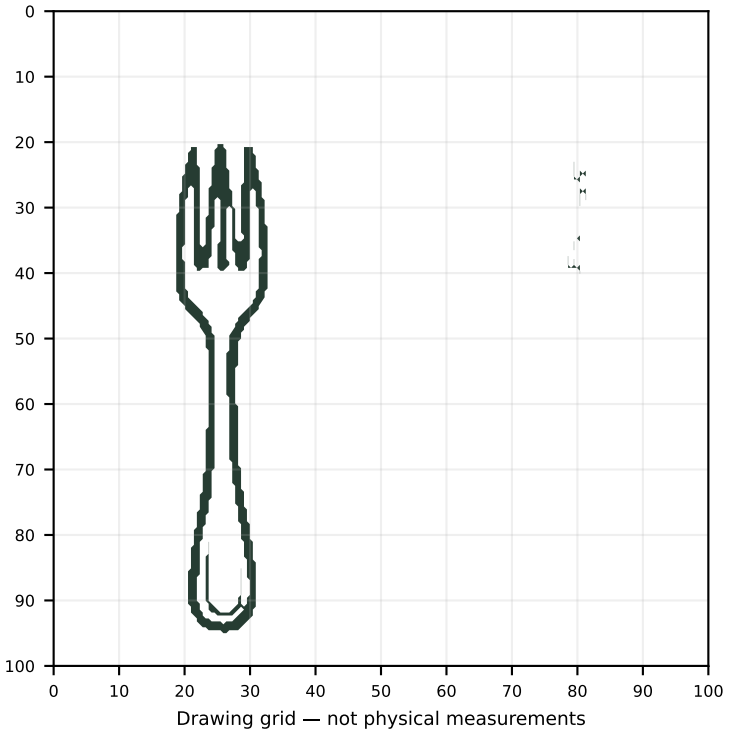

ANSWER: Example solution: preserve four tines at the top, long narrow handle, rounded loop at the bottom of the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval loop for the handle base.
2. Extend two long parallel lines upward from the loop to form the handle.
3. At the top, widen the outline into a U-shaped head.
4. Draw four vertical tines inside the head, with slightly curved tips.

How to Draw Fork — Free Practice Sheets

ANSWER / CASE 2

fork: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

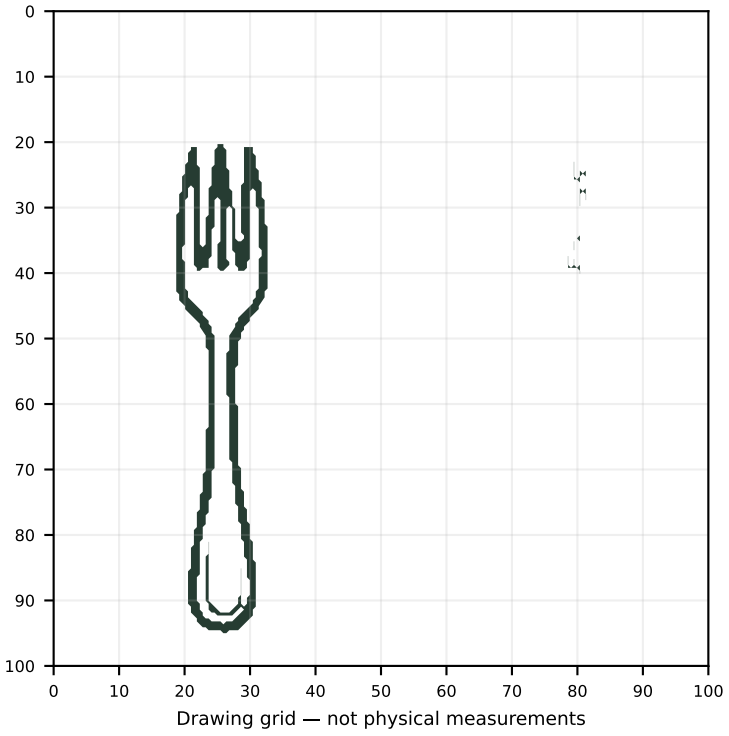

ANSWER: Example solution: preserve four tines at the top, long narrow handle, rounded loop at the bottom of the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval loop for the handle base.
2. Extend two long parallel lines upward from the loop to form the handle.
3. At the top, widen the outline into a U-shaped head.
4. Draw four vertical tines inside the head, with slightly curved tips.

How to Draw Fork — Free Practice Sheets

ANSWER / CASE 3

fork: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

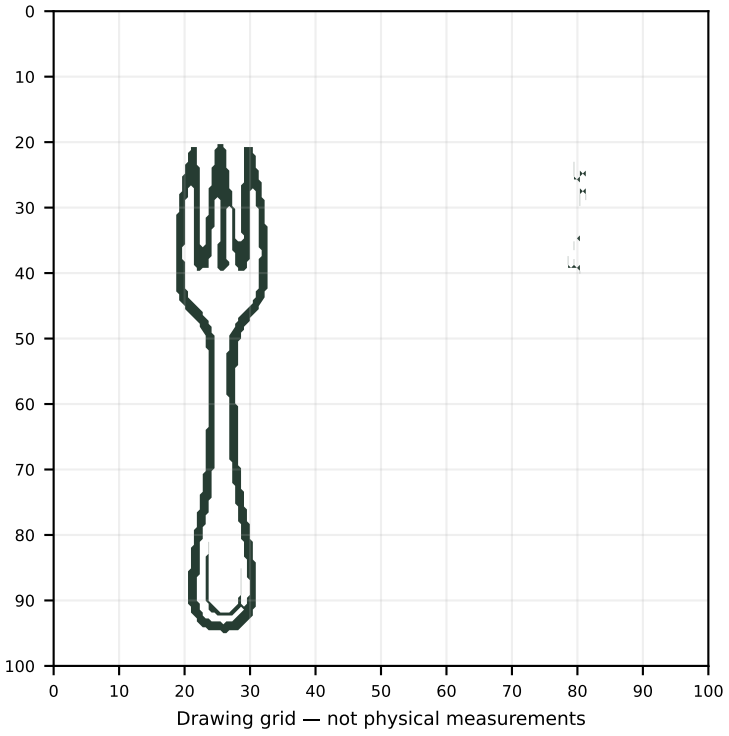

ANSWER: Example solution: preserve four tines at the top, long narrow handle, rounded loop at the bottom of the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval loop for the handle base.
2. Extend two long parallel lines upward from the loop to form the handle.
3. At the top, widen the outline into a U-shaped head.
4. Draw four vertical tines inside the head, with slightly curved tips.

How to Draw Fork — Free Practice Sheets

ANSWER / CASE 4

fork: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve four tines at the top, long narrow handle, rounded loop at the bottom of the handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a vertical oval loop for the handle base.
2. Extend two long parallel lines upward from the loop to form the handle.
3. At the top, widen the outline into a U-shaped head.
4. Draw four vertical tines inside the head, with slightly curved tips.
