How to Draw Toolbox — Free Practice Sheets

ANSWER / CASE 1

toolbox: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

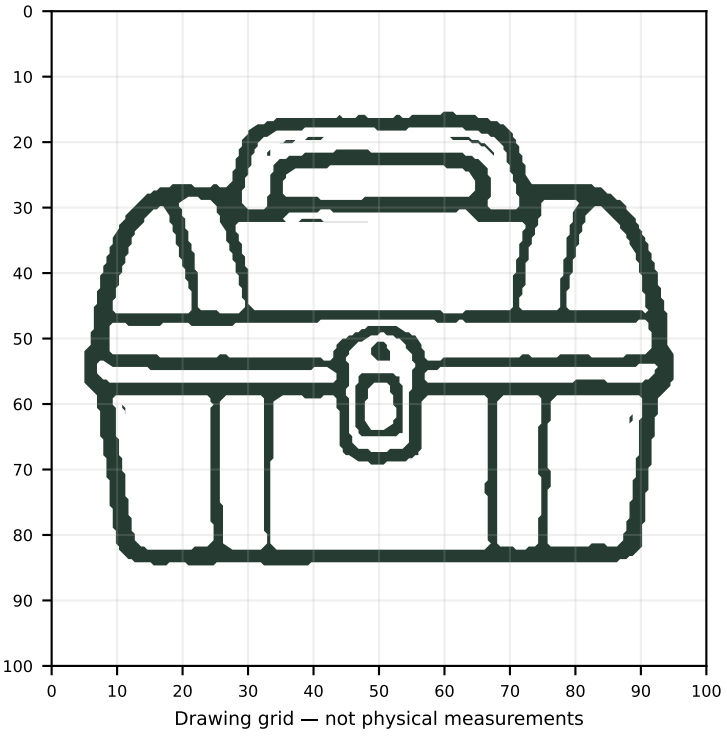

ANSWER: Example solution: preserve rounded rectangular box body with vertical side ribs, carry handle on top, horizontal lid seam with front latch. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded rectangle for the main body.
2. Add a horizontal line across the upper third to separate the lid from the base.
3. Draw the top carry handle as a rounded arch above the lid.
4. Add the front latch centered on the lid seam and vertical rib lines on the body sides.

How to Draw Toolbox — Free Practice Sheets

ANSWER / CASE 2

toolbox: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

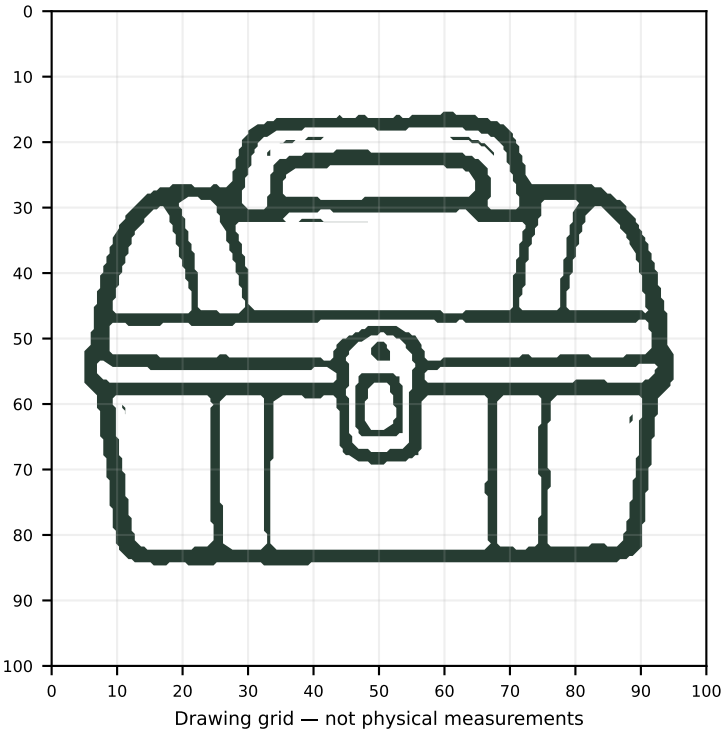

ANSWER: Example solution: preserve rounded rectangular box body with vertical side ribs, carry handle on top, horizontal lid seam with front latch. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded rectangle for the main body.
2. Add a horizontal line across the upper third to separate the lid from the base.
3. Draw the top carry handle as a rounded arch above the lid.
4. Add the front latch centered on the lid seam and vertical rib lines on the body sides.

How to Draw Toolbox — Free Practice Sheets

ANSWER / CASE 3

toolbox: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

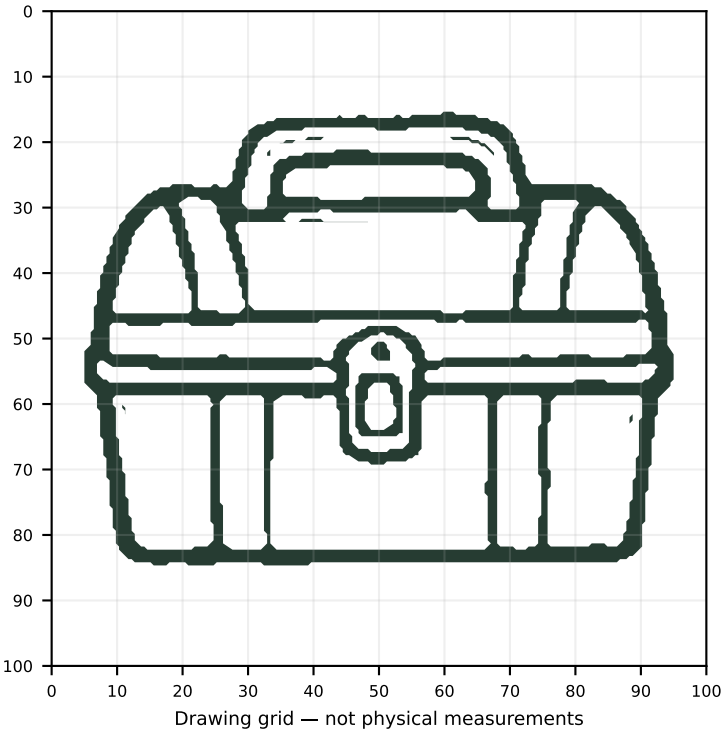

ANSWER: Example solution: preserve rounded rectangular box body with vertical side ribs, carry handle on top, horizontal lid seam with front latch. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded rectangle for the main body.
2. Add a horizontal line across the upper third to separate the lid from the base.
3. Draw the top carry handle as a rounded arch above the lid.
4. Add the front latch centered on the lid seam and vertical rib lines on the body sides.

How to Draw Toolbox — Free Practice Sheets

ANSWER / CASE 4

toolbox: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rounded rectangular box body with vertical side ribs, carry handle on top, horizontal lid seam with front latch. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide rounded rectangle for the main body.
2. Add a horizontal line across the upper third to separate the lid from the base.
3. Draw the top carry handle as a rounded arch above the lid.
4. Add the front latch centered on the lid seam and vertical rib lines on the body sides.
