How to Draw Trampoline — Free Practice Sheets

ANSWER / CASE 1

trampoline: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

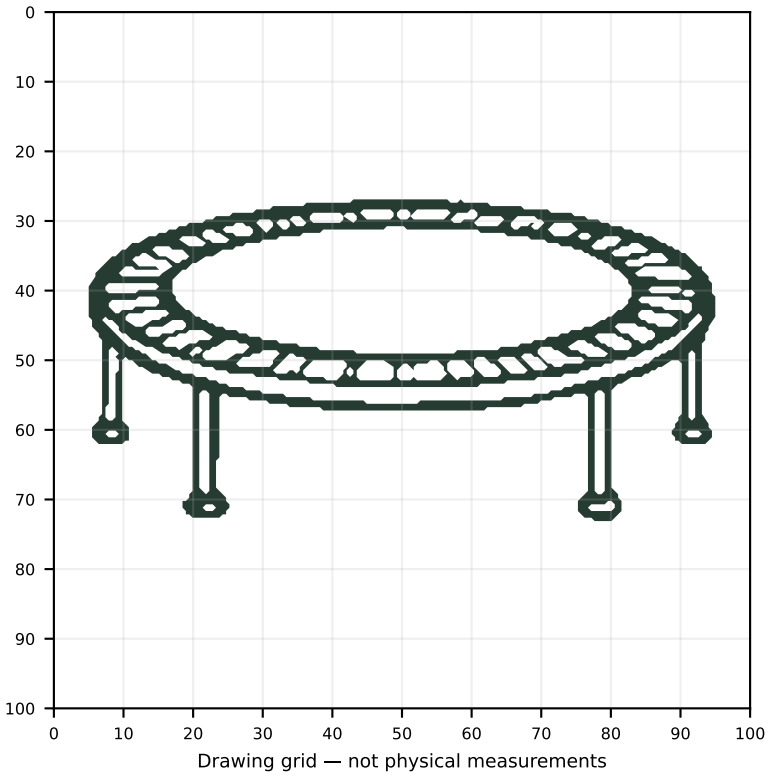

ANSWER: Example solution: preserve circular bouncing mat drawn as an open ellipse, ring of short radial lines around the mat edge representing springs, four straight support legs with small feet. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular mat, keeping the inner area open.
2. Add a second slightly larger ellipse around it to form the frame edge.
3. Draw short radial lines between the two ellipses all the way around to indicate springs.
4. Add four vertical legs below the frame, each ending in a small rounded foot.

How to Draw Trampoline — Free Practice Sheets

ANSWER / CASE 2

trampoline: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

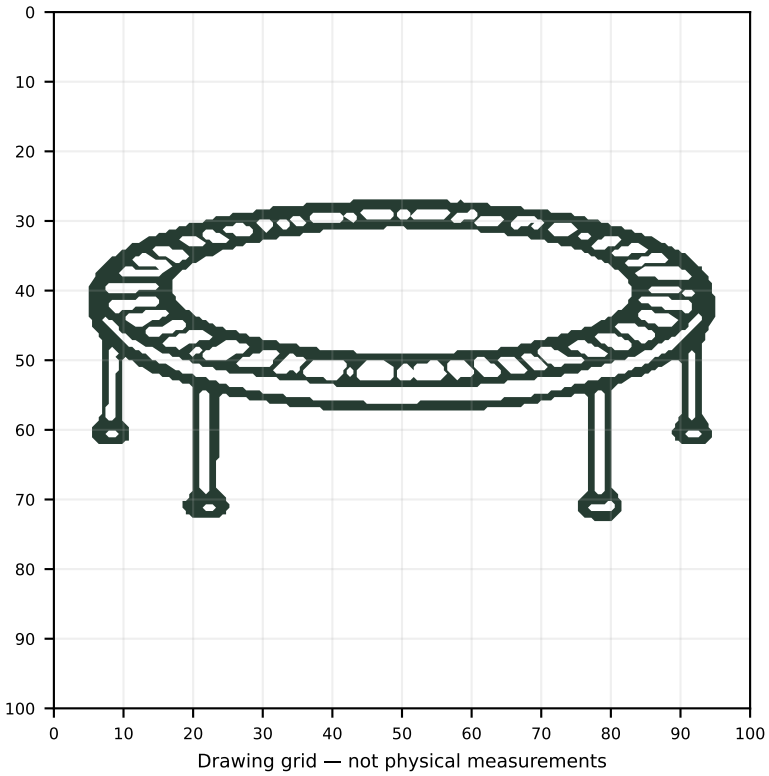

ANSWER: Example solution: preserve circular bouncing mat drawn as an open ellipse, ring of short radial lines around the mat edge representing springs, four straight support legs with small feet. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular mat, keeping the inner area open.
2. Add a second slightly larger ellipse around it to form the frame edge.
3. Draw short radial lines between the two ellipses all the way around to indicate springs.
4. Add four vertical legs below the frame, each ending in a small rounded foot.

How to Draw Trampoline — Free Practice Sheets

ANSWER / CASE 3

trampoline: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

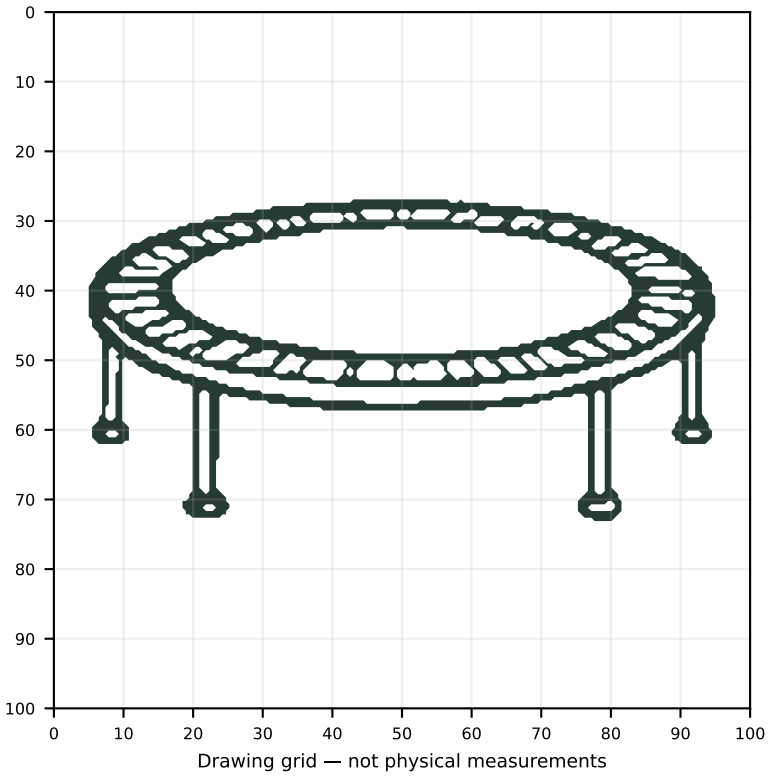

ANSWER: Example solution: preserve circular bouncing mat drawn as an open ellipse, ring of short radial lines around the mat edge representing springs, four straight support legs with small feet. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular mat, keeping the inner area open.
2. Add a second slightly larger ellipse around it to form the frame edge.
3. Draw short radial lines between the two ellipses all the way around to indicate springs.
4. Add four vertical legs below the frame, each ending in a small rounded foot.

How to Draw Trampoline — Free Practice Sheets

ANSWER / CASE 4

trampoline: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve circular bouncing mat drawn as an open ellipse, ring of short radial lines around the mat edge representing springs, four straight support legs with small feet. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.

1. Draw a large ellipse for the circular mat, keeping the inner area open.
2. Add a second slightly larger ellipse around it to form the frame edge.
3. Draw short radial lines between the two ellipses all the way around to indicate springs.
4. Add four vertical legs below the frame, each ending in a small rounded foot.
