How to Draw Axe — Free Practice Sheets

ANSWER / CASE 1

axe: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

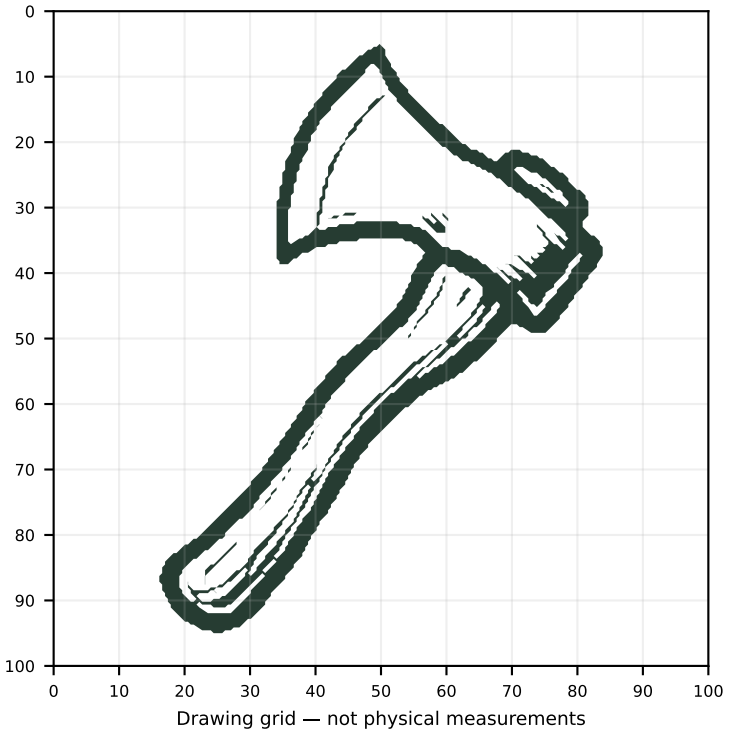

ANSWER: Example solution: preserve curved blade with a broad cutting edge, wooden handle attached below the axe head, wedge-shaped head with a poll/butt on the right side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the curved blade as a large crescent-like shape with a wide cutting edge on the left.
2. Add the wedge-shaped head body behind the blade, including the rectangular poll/butt on the right.
3. Draw the handle extending downward from the head, slightly curved and tapering toward the bottom.
4. Outline the handle with a double line to show thickness and connect it cleanly to the head.

How to Draw Axe — Free Practice Sheets

ANSWER / CASE 2

axe: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

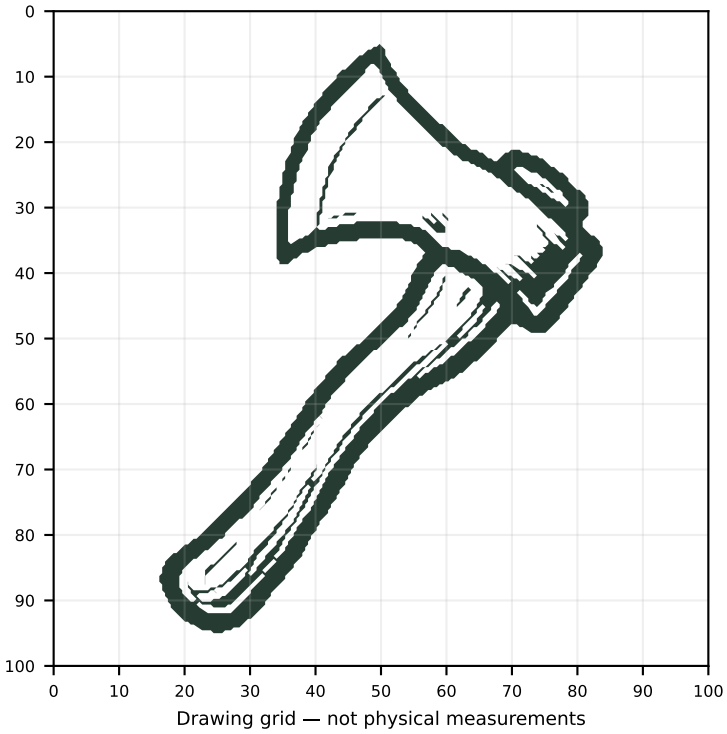

ANSWER: Example solution: preserve curved blade with a broad cutting edge, wooden handle attached below the axe head, wedge-shaped head with a poll/butt on the right side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the curved blade as a large crescent-like shape with a wide cutting edge on the left.
2. Add the wedge-shaped head body behind the blade, including the rectangular poll/butt on the right.
3. Draw the handle extending downward from the head, slightly curved and tapering toward the bottom.
4. Outline the handle with a double line to show thickness and connect it cleanly to the head.

How to Draw Axe — Free Practice Sheets

ANSWER / CASE 3

axe: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

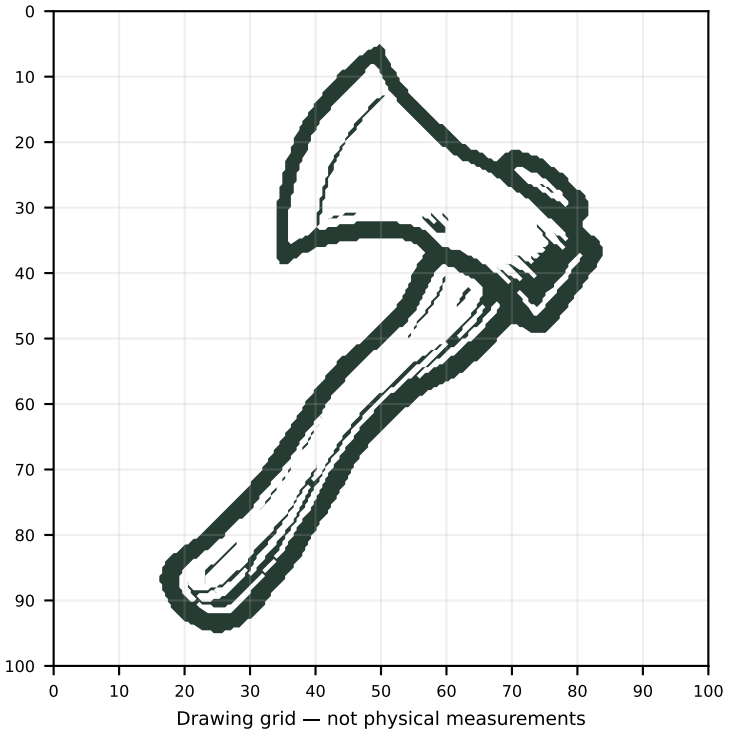

ANSWER: Example solution: preserve curved blade with a broad cutting edge, wooden handle attached below the axe head, wedge-shaped head with a poll/butt on the right side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the curved blade as a large crescent-like shape with a wide cutting edge on the left.
2. Add the wedge-shaped head body behind the blade, including the rectangular poll/butt on the right.
3. Draw the handle extending downward from the head, slightly curved and tapering toward the bottom.
4. Outline the handle with a double line to show thickness and connect it cleanly to the head.

How to Draw Axe — Free Practice Sheets

ANSWER / CASE 4

axe: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved blade with a broad cutting edge, wooden handle attached below the axe head, wedge-shaped head with a poll/butt on the right side. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the curved blade as a large crescent-like shape with a wide cutting edge on the left.
2. Add the wedge-shaped head body behind the blade, including the rectangular poll/butt on the right.
3. Draw the handle extending downward from the head, slightly curved and tapering toward the bottom.
4. Outline the handle with a double line to show thickness and connect it cleanly to the head.
