How to Draw Pulley — Free Practice Sheets

REFERENCE / CASE 1

pulley: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

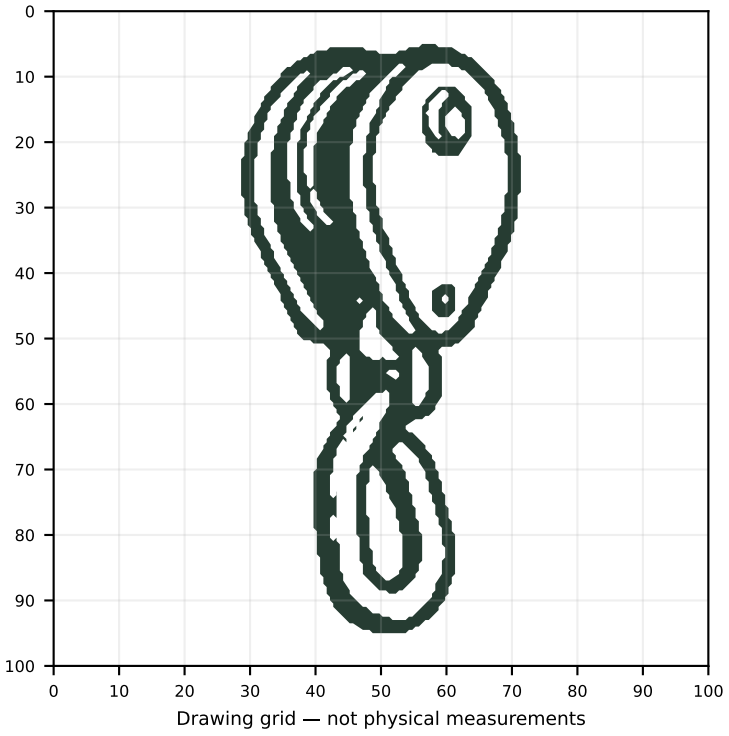

METHOD: Draw the teardrop-shaped side plate with a rounded top and tapered bottom, adding two small circular holes for mounting/rivet points. Draw the grooved wheel as a set of nested curved lines attached to the left side of the plate, showing the rope groove. Draw a small connecting ring or shackle at the bottom tip of the plate. Draw the rope loop as an elongated oval hanging from the bottom ring, with an inner line to indicate thickness.
Use the separate practice sheet before checking the answer.

How to Draw Pulley — Free Practice Sheets

REFERENCE / CASE 2

pulley: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

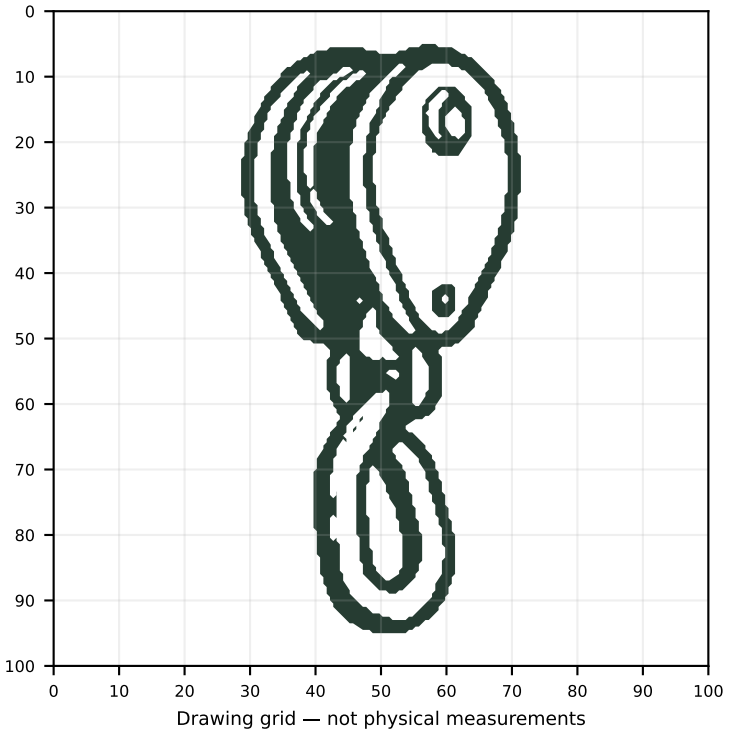

METHOD: Draw the teardrop-shaped side plate with a rounded top and tapered bottom, adding two small circular holes for mounting/rivet points. Draw the grooved wheel as a set of nested curved lines attached to the left side of the plate, showing the rope groove. Draw a small connecting ring or shackle at the bottom tip of the plate. Draw the rope loop as an elongated oval hanging from the bottom ring, with an inner line to indicate thickness.
Use the separate practice sheet before checking the answer.

How to Draw Pulley — Free Practice Sheets

REFERENCE / CASE 3

pulley: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

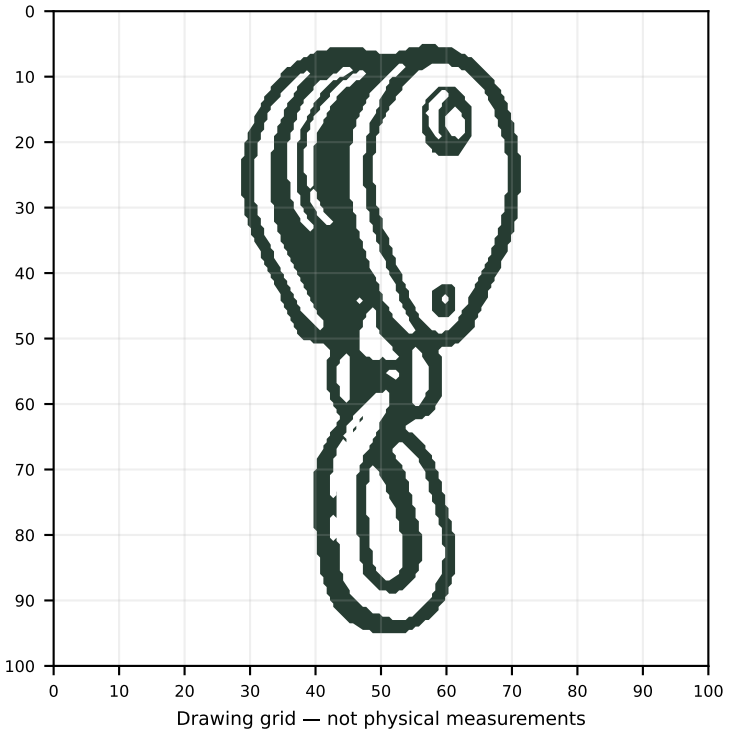

METHOD: Draw the teardrop-shaped side plate with a rounded top and tapered bottom, adding two small circular holes for mounting/rivet points. Draw the grooved wheel as a set of nested curved lines attached to the left side of the plate, showing the rope groove. Draw a small connecting ring or shackle at the bottom tip of the plate. Draw the rope loop as an elongated oval hanging from the bottom ring, with an inner line to indicate thickness.
Use the separate practice sheet before checking the answer.

How to Draw Pulley — Free Practice Sheets

REFERENCE / CASE 4

pulley: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the teardrop-shaped side plate with a rounded top and tapered bottom, adding two small circular holes for mounting/rivet points. Draw the grooved wheel as a set of nested curved lines attached to the left side of the plate, showing the rope groove. Draw a small connecting ring or shackle at the bottom tip of the plate. Draw the rope loop as an elongated oval hanging from the bottom ring, with an inner line to indicate thickness.
Use the separate practice sheet before checking the answer.
