How to Draw Fidget Spinner — Free Practice Sheets

REFERENCE / CASE 1

fidget spinner: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

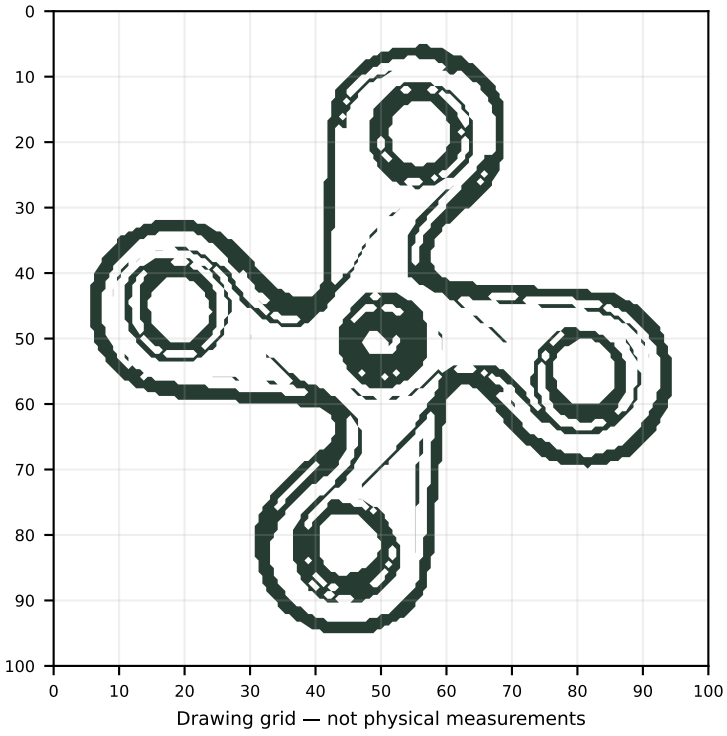

METHOD: Draw a small central circle for the bearing and a larger concentric outline around it. Draw four rounded arm outlines radiating outward from the central hub in a symmetrical cross arrangement. At the end of each arm, draw a circular cap with concentric ring lines. Add inner contour lines along the arms connecting the central bearing to the outer caps, then darken the outer silhouette.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

fidget spinner: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

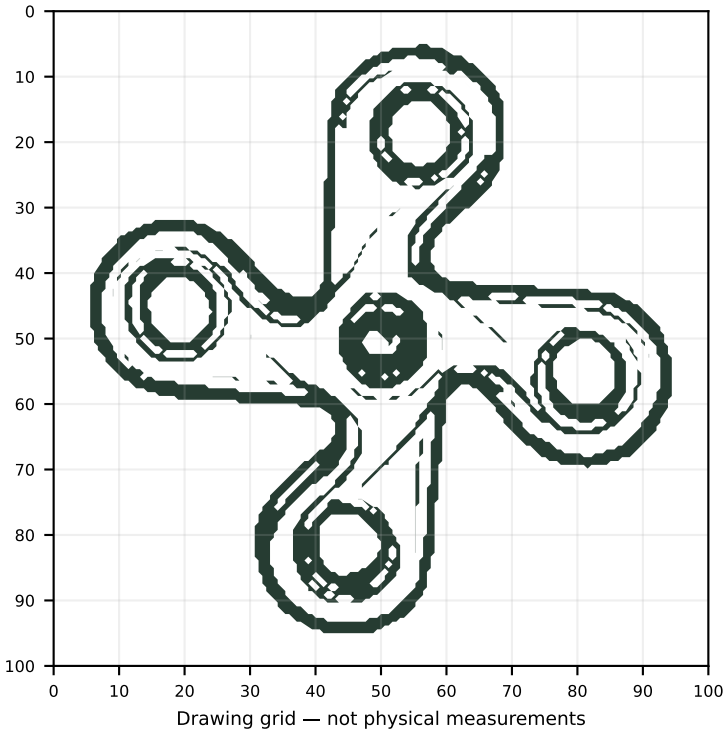

METHOD: Draw a small central circle for the bearing and a larger concentric outline around it. Draw four rounded arm outlines radiating outward from the central hub in a symmetrical cross arrangement. At the end of each arm, draw a circular cap with concentric ring lines. Add inner contour lines along the arms connecting the central bearing to the outer caps, then darken the outer silhouette.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

fidget spinner: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

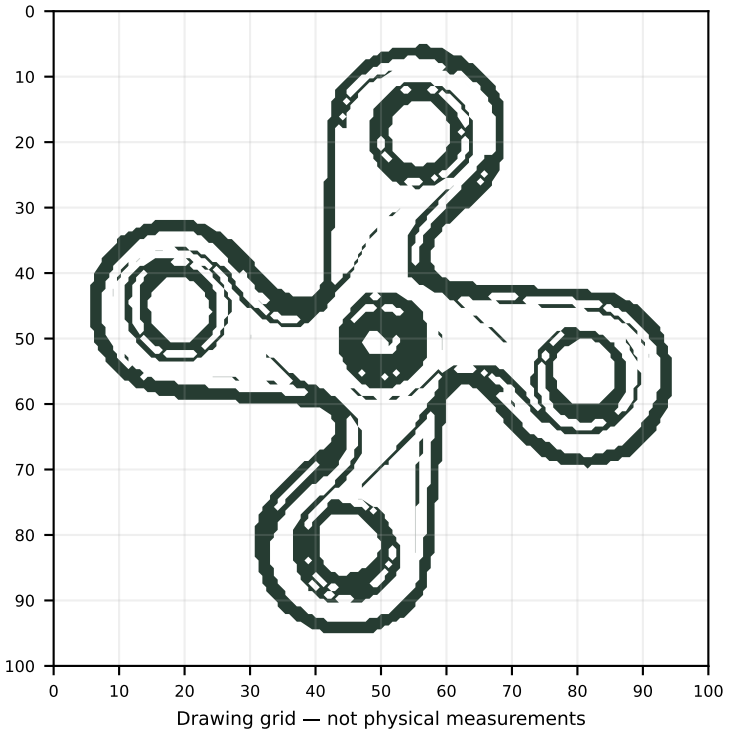

METHOD: Draw a small central circle for the bearing and a larger concentric outline around it. Draw four rounded arm outlines radiating outward from the central hub in a symmetrical cross arrangement. At the end of each arm, draw a circular cap with concentric ring lines. Add inner contour lines along the arms connecting the central bearing to the outer caps, then darken the outer silhouette.
Use the separate practice sheet before checking the answer.

How to Draw Fidget Spinner — Free Practice Sheets

REFERENCE / CASE 4

fidget spinner: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a small central circle for the bearing and a larger concentric outline around it. Draw four rounded arm outlines radiating outward from the central hub in a symmetrical cross arrangement. At the end of each arm, draw a circular cap with concentric ring lines. Add inner contour lines along the arms connecting the central bearing to the outer caps, then darken the outer silhouette.
Use the separate practice sheet before checking the answer.
