How to Draw Rocking Chair — Free Practice Sheets

ANSWER / CASE 1

rocking chair: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

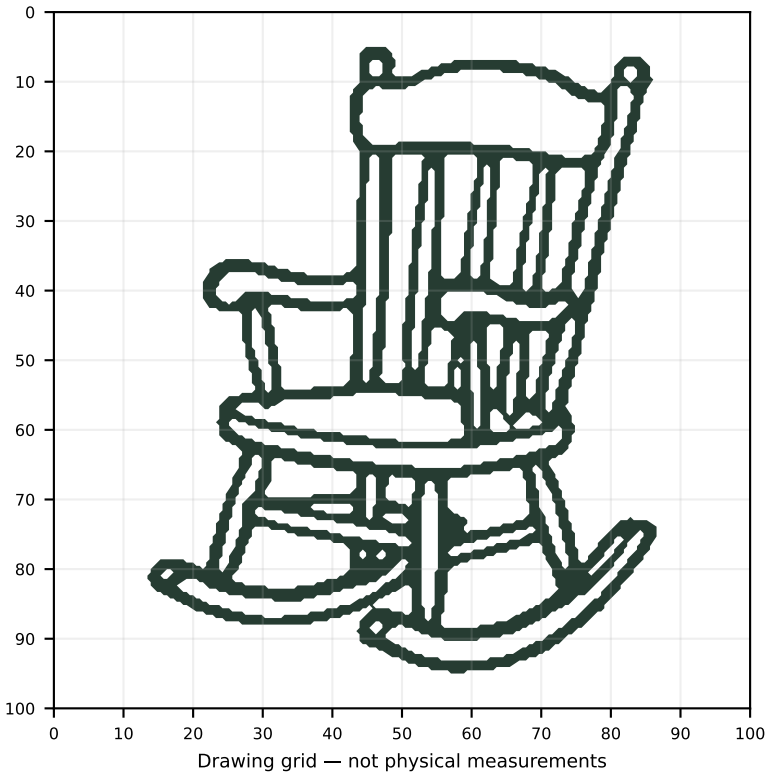

ANSWER: Example solution: preserve curved rocker runners at the base, slatted backrest with vertical slats and a top rail, armrests and a seat supported by legs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the two curved rocker runners as parallel arcs at the bottom.
2. Add the four legs connecting the runners to the seat, with cross-bracing between them.
3. Draw the seat as a rounded horizontal shape above the legs.
4. Add the backrest with vertical slats and a curved top rail, then attach the armrests to the seat and back.

ANSWER / CASE 3

rocking chair: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

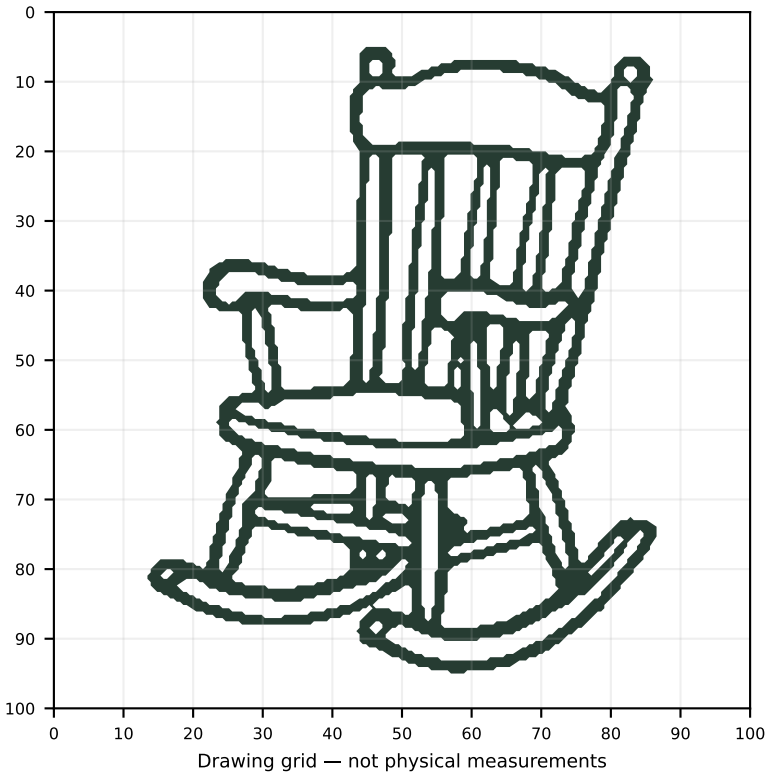

ANSWER: Example solution: preserve curved rocker runners at the base, slatted backrest with vertical slats and a top rail, armrests and a seat supported by legs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the two curved rocker runners as parallel arcs at the bottom.
2. Add the four legs connecting the runners to the seat, with cross-bracing between them.
3. Draw the seat as a rounded horizontal shape above the legs.
4. Add the backrest with vertical slats and a curved top rail, then attach the armrests to the seat and back.

How to Draw Rocking Chair — Free Practice Sheets

ANSWER / CASE 4

rocking chair: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved rocker runners at the base, slatted backrest with vertical slats and a top rail, armrests and a seat supported by legs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the two curved rocker runners as parallel arcs at the bottom.
2. Add the four legs connecting the runners to the seat, with cross-bracing between them.
3. Draw the seat as a rounded horizontal shape above the legs.
4. Add the backrest with vertical slats and a curved top rail, then attach the armrests to the seat and back.
