How to Draw Brush — Free Practice Sheets

ANSWER / CASE 1

brush: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

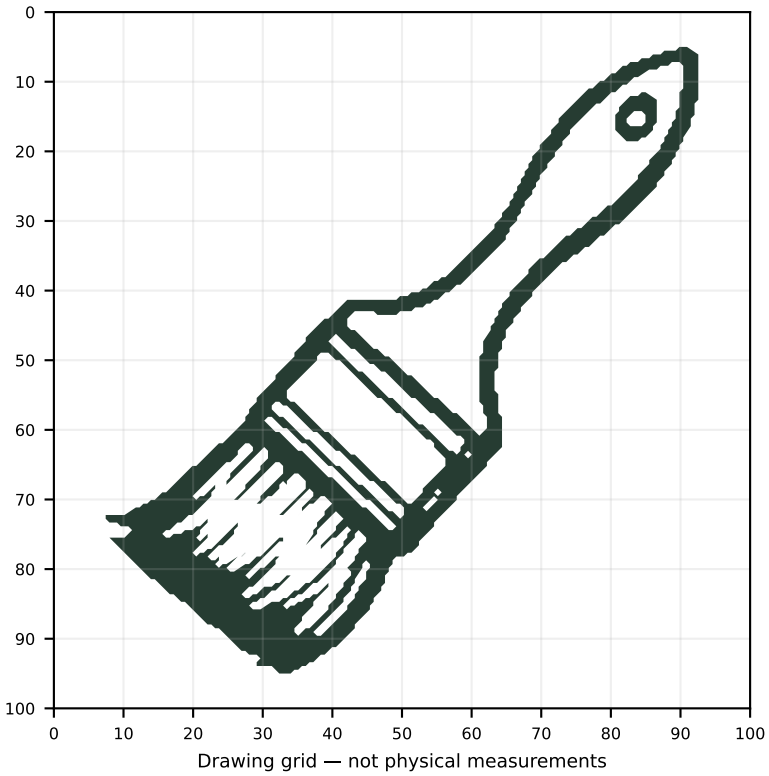

ANSWER: Example solution: preserve Elongated handle with a rounded top and a small circular hole, Rectangular ferrule with parallel band lines connecting handle to bristles, Tapered bristle block with internal stroke lines indicating hairs. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the handle as a long, slightly curved shape with a rounded end and a small circle near the top.
2. Add a rectangular ferrule below the handle, using two parallel lines to suggest metal bands.
3. Attach a tapered bristle shape beneath the ferrule, widening slightly and ending in a soft, angled edge.
4. Draw several short curved lines inside the bristle area to indicate individual hairs.
