How to Draw Hammock — Free Practice Sheets

ANSWER / CASE 1

hammock: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

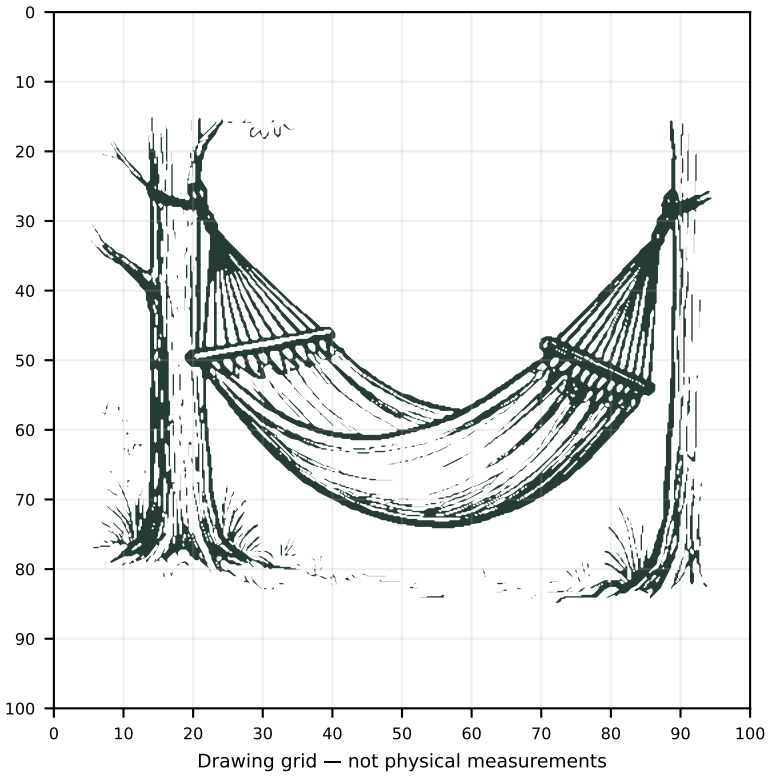

ANSWER: Example solution: preserve curved sagging fabric forming a U-shape between two trees, suspension ropes fanning from fabric ends to tree trunks, two vertical tree trunks acting as supports. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tree trunks with simple bark lines and ground grass at their bases.
2. Sketch a wide U-shaped curve for the sagging hammock fabric between the trunks.
3. Add spreader bars at each end of the fabric and fan-shaped suspension ropes tying to the trunks.
4. Outline the fabric with layered curved lines to show the sagging body and hanging edge.

How to Draw Hammock — Free Practice Sheets

ANSWER / CASE 2

hammock: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

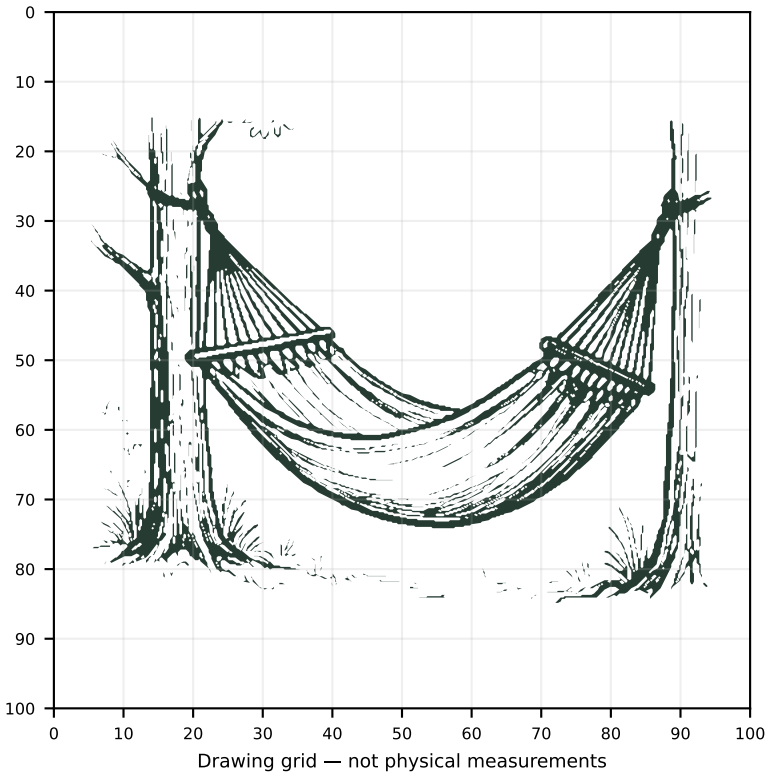

ANSWER: Example solution: preserve curved sagging fabric forming a U-shape between two trees, suspension ropes fanning from fabric ends to tree trunks, two vertical tree trunks acting as supports. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tree trunks with simple bark lines and ground grass at their bases.
2. Sketch a wide U-shaped curve for the sagging hammock fabric between the trunks.
3. Add spreader bars at each end of the fabric and fan-shaped suspension ropes tying to the trunks.
4. Outline the fabric with layered curved lines to show the sagging body and hanging edge.

How to Draw Hammock — Free Practice Sheets

ANSWER / CASE 3

hammock: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

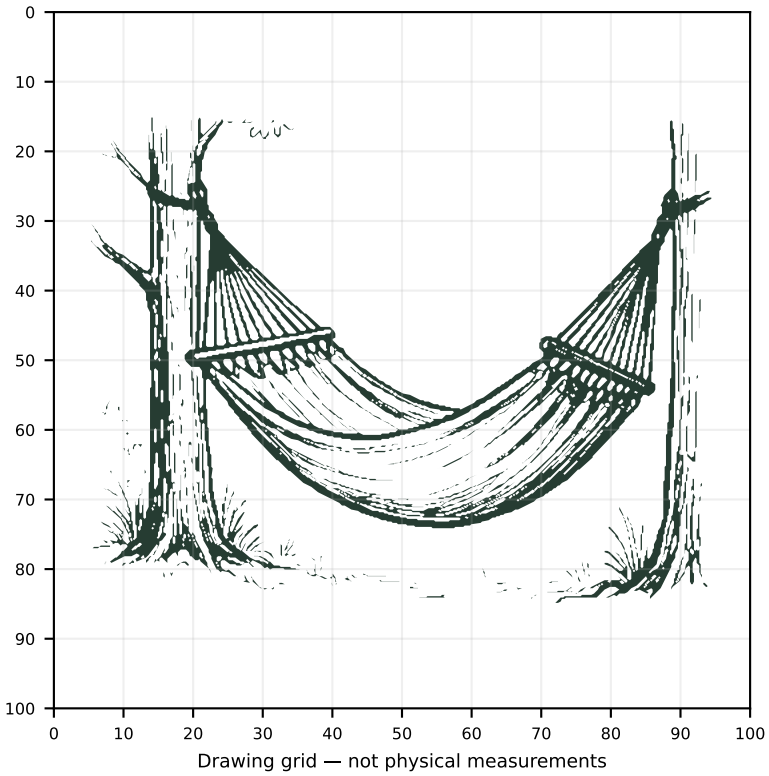

ANSWER: Example solution: preserve curved sagging fabric forming a U-shape between two trees, suspension ropes fanning from fabric ends to tree trunks, two vertical tree trunks acting as supports. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tree trunks with simple bark lines and ground grass at their bases.
2. Sketch a wide U-shaped curve for the sagging hammock fabric between the trunks.
3. Add spreader bars at each end of the fabric and fan-shaped suspension ropes tying to the trunks.
4. Outline the fabric with layered curved lines to show the sagging body and hanging edge.

How to Draw Hammock — Free Practice Sheets

ANSWER / CASE 4

hammock: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve curved sagging fabric forming a U-shape between two trees, suspension ropes fanning from fabric ends to tree trunks, two vertical tree trunks acting as supports. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two vertical tree trunks with simple bark lines and ground grass at their bases.
2. Sketch a wide U-shaped curve for the sagging hammock fabric between the trunks.
3. Add spreader bars at each end of the fabric and fan-shaped suspension ropes tying to the trunks.
4. Outline the fabric with layered curved lines to show the sagging body and hanging edge.
