How to Draw Paint Tube — Free Practice Sheets

ANSWER / CASE 1

paint tube: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

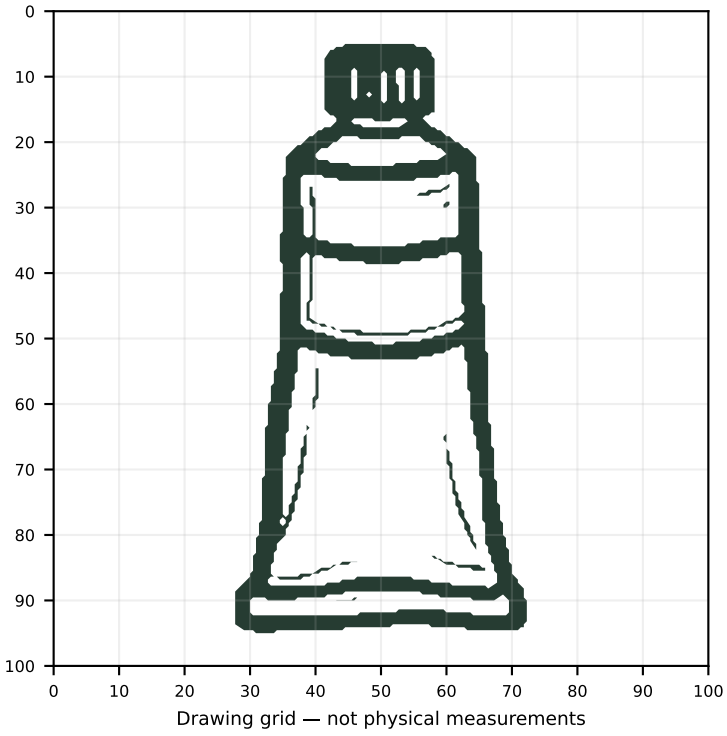

ANSWER: Example solution: preserve cylindrical body tapering toward the top, crimped flat end at the bottom, twist cap with vertical ridges at the top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered rectangle for the tube body, wider at the bottom and narrower at the top.
2. Add a small ridged cylinder on top for the twist cap.
3. Draw a flat horizontal crimped base at the bottom with a slightly wavy edge.
4. Add two horizontal band lines across the upper body and a few vertical contour lines for the tube's shape.

How to Draw Paint Tube — Free Practice Sheets

ANSWER / CASE 2

paint tube: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

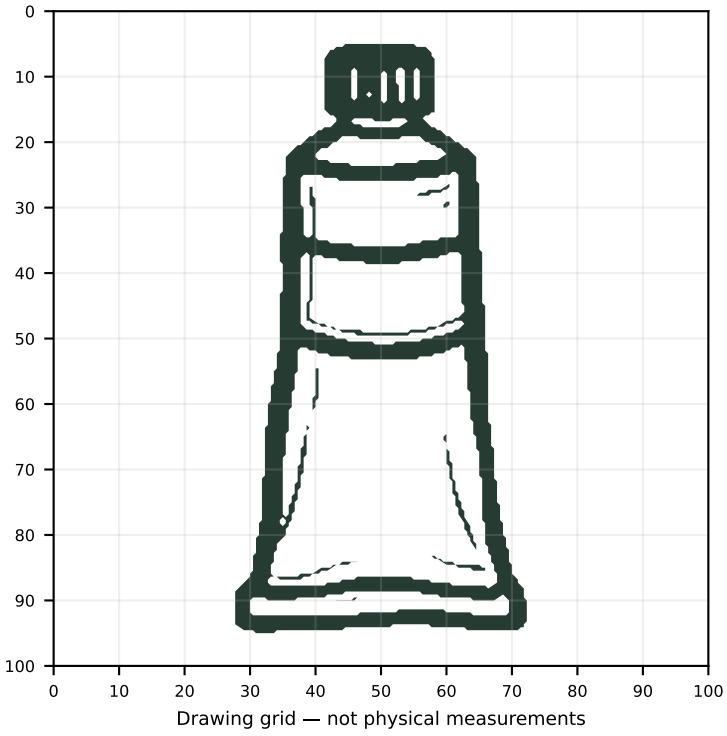

ANSWER: Example solution: preserve cylindrical body tapering toward the top, crimped flat end at the bottom, twist cap with vertical ridges at the top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered rectangle for the tube body, wider at the bottom and narrower at the top.
2. Add a small ridged cylinder on top for the twist cap.
3. Draw a flat horizontal crimped base at the bottom with a slightly wavy edge.
4. Add two horizontal band lines across the upper body and a few vertical contour lines for the tube's shape.

ANSWER / CASE 3

paint tube: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

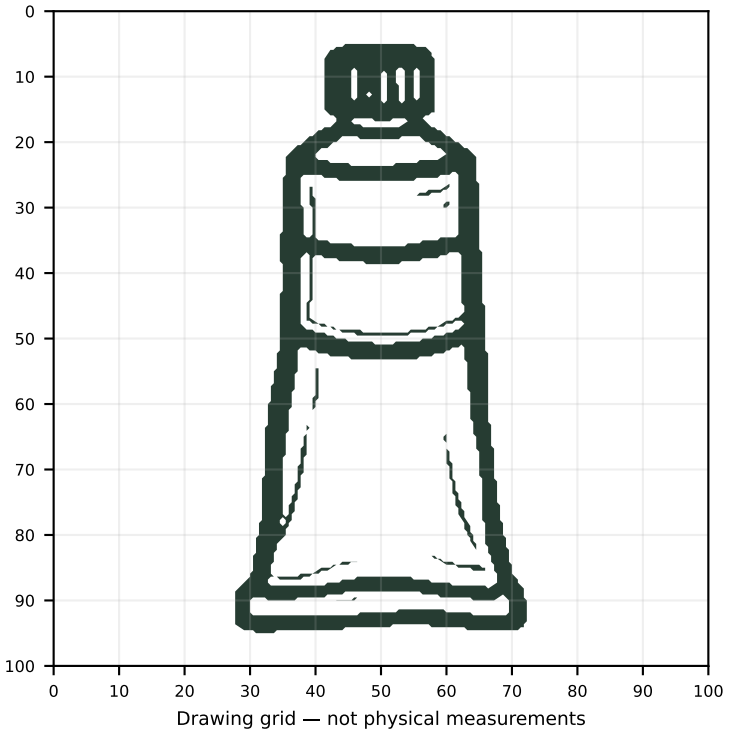

ANSWER: Example solution: preserve cylindrical body tapering toward the top, crimped flat end at the bottom, twist cap with vertical ridges at the top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered rectangle for the tube body, wider at the bottom and narrower at the top.
2. Add a small ridged cylinder on top for the twist cap.
3. Draw a flat horizontal crimped base at the bottom with a slightly wavy edge.
4. Add two horizontal band lines across the upper body and a few vertical contour lines for the tube's shape.

How to Draw Paint Tube — Free Practice Sheets

ANSWER / CASE 4

paint tube: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve cylindrical body tapering toward the top, crimped flat end at the bottom, twist cap with vertical ridges at the top. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a tall tapered rectangle for the tube body, wider at the bottom and narrower at the top.
2. Add a small ridged cylinder on top for the twist cap.
3. Draw a flat horizontal crimped base at the bottom with a slightly wavy edge.
4. Add two horizontal band lines across the upper body and a few vertical contour lines for the tube's shape.
