How to Draw Razor — Free Practice Sheets

ANSWER / CASE 1

razor: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

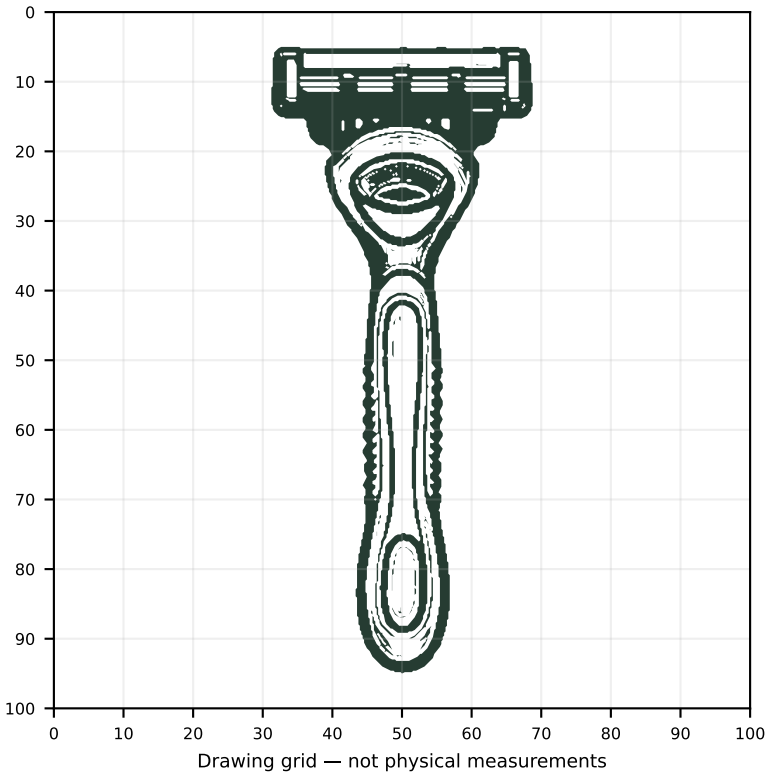

ANSWER: Example solution: preserve rectangular blade head with horizontal blade lines and side caps, rounded pivot joint connecting head to handle, long tapered handle with grip ridges and oval inset detail. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a wide horizontal rectangle for the blade head, adding parallel horizontal lines inside and small end caps.
2. Below the head, sketch a rounded oval pivot joint with a central oval detail.
3. Draw the handle as a long tapered shape narrowing at the top and widening at the bottom.
4. Add grip ridges along the handle sides and an oval inset near the bottom for detail.
