How to Draw Cup — Free Practice Sheets

REFERENCE / CASE 1

cup: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

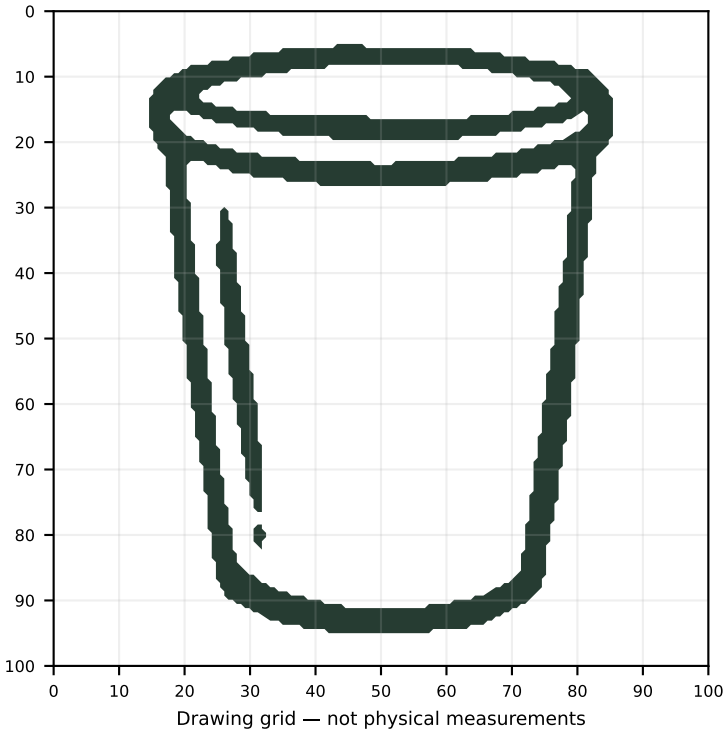

METHOD: Draw a horizontal ellipse for the cup opening. From the sides of the ellipse, draw two slightly inward-slanting lines down to form the tapered body. Connect the bottom of those lines with a curved line to close the cup base. Add a second inner ellipse line just below the rim to show thickness, and include a short vertical highlight line inside the body.
Use the separate practice sheet before checking the answer.

How to Draw Cup — Free Practice Sheets

REFERENCE / CASE 2

cup: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

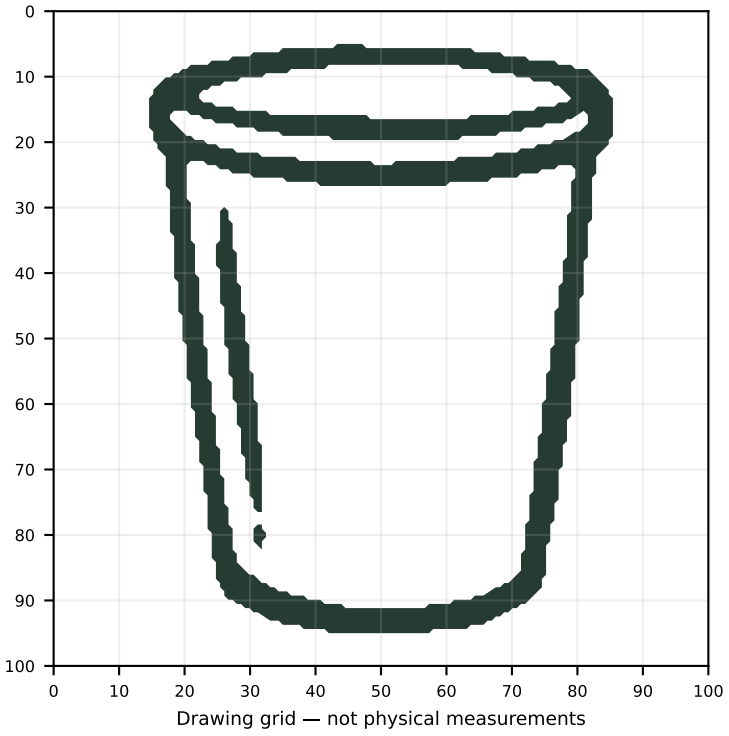

METHOD: Draw a horizontal ellipse for the cup opening. From the sides of the ellipse, draw two slightly inward-slanting lines down to form the tapered body. Connect the bottom of those lines with a curved line to close the cup base. Add a second inner ellipse line just below the rim to show thickness, and include a short vertical highlight line inside the body.
Use the separate practice sheet before checking the answer.

How to Draw Cup — Free Practice Sheets

REFERENCE / CASE 3

cup: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

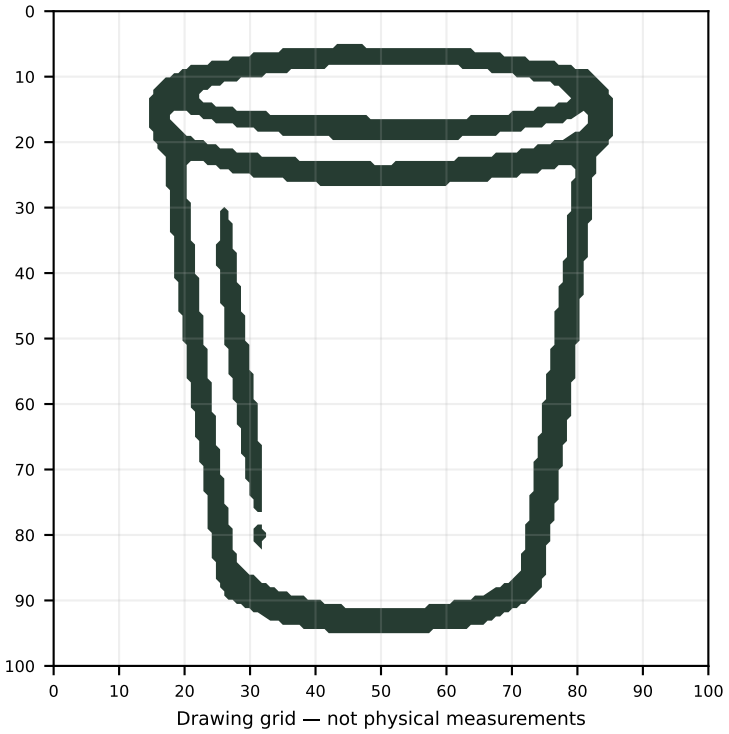

METHOD: Draw a horizontal ellipse for the cup opening. From the sides of the ellipse, draw two slightly inward-slanting lines down to form the tapered body. Connect the bottom of those lines with a curved line to close the cup base. Add a second inner ellipse line just below the rim to show thickness, and include a short vertical highlight line inside the body.
Use the separate practice sheet before checking the answer.

How to Draw Cup — Free Practice Sheets

REFERENCE / CASE 4

cup: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a horizontal ellipse for the cup opening. From the sides of the ellipse, draw two slightly inward-slanting lines down to form the tapered body. Connect the bottom of those lines with a curved line to close the cup base. Add a second inner ellipse line just below the rim to show thickness, and include a short vertical highlight line inside the body.
Use the separate practice sheet before checking the answer.
