How to Draw Dreamcatcher — Free Practice Sheets

ANSWER / CASE 1

dreamcatcher: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

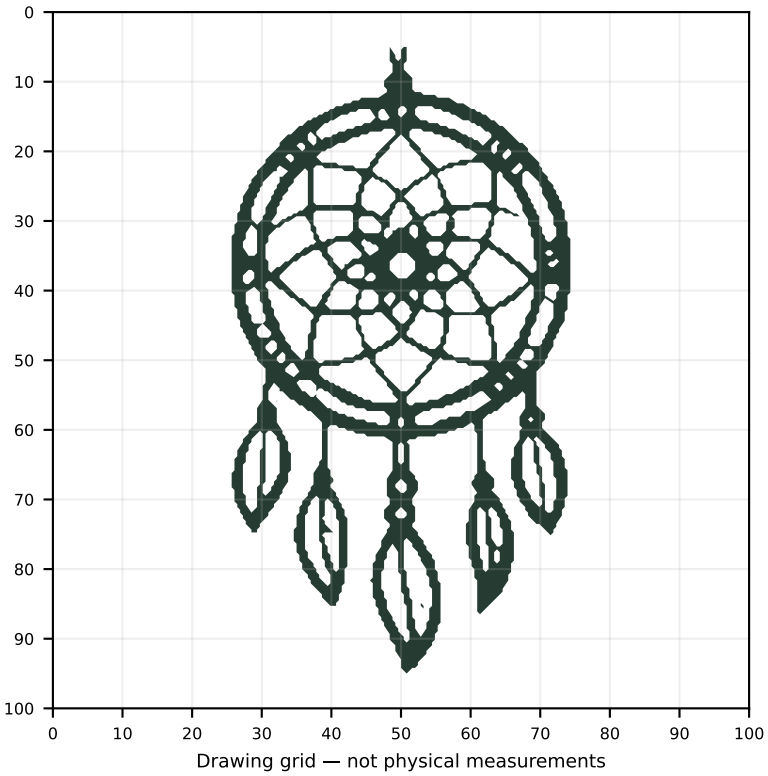

ANSWER: Example solution: preserve circular hoop with a thick outer ring, woven web pattern radiating from a central hub to the hoop, five hanging feather shapes suspended below the hoop. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the hoop, then add a smaller inner circle to give the ring thickness.
2. Draw a small central circle and connect it to the inner hoop with curved lines to form the woven web pattern.
3. Add a small loop and knot at the top of the hoop for hanging.
4. Draw five hanging cords below the hoop, each ending in a leaf-shaped feather with a central vein line.
