How to Draw Magnetic Compass — Free Practice Sheets

ANSWER / CASE 1

magnetic compass: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

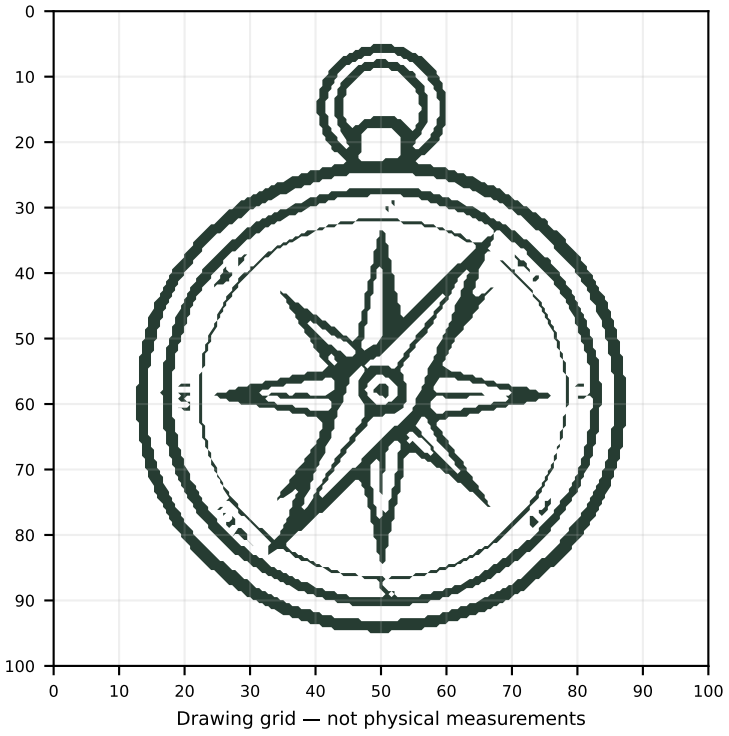

Drawing grid — not physical measurements

ANSWER: Example solution: preserve circular dial with concentric ring border, multi-pointed compass rose/needle star centered in dial, top loop or ring attachment on the casing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer circle for the compass casing, then add a slightly smaller inner circle to form the dial rim.
2. Draw a small ring/loop centered above the outer circle, connected by a short neck to the casing.
3. Inside the dial, draw a central small circle and construct an eight-pointed star/compass rose radiating from it.
4. Add short tick marks or labels around the inner dial edge to indicate cardinal directions.

How to Draw Magnetic Compass — Free Practice Sheets

ANSWER / CASE 2

magnetic compass: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

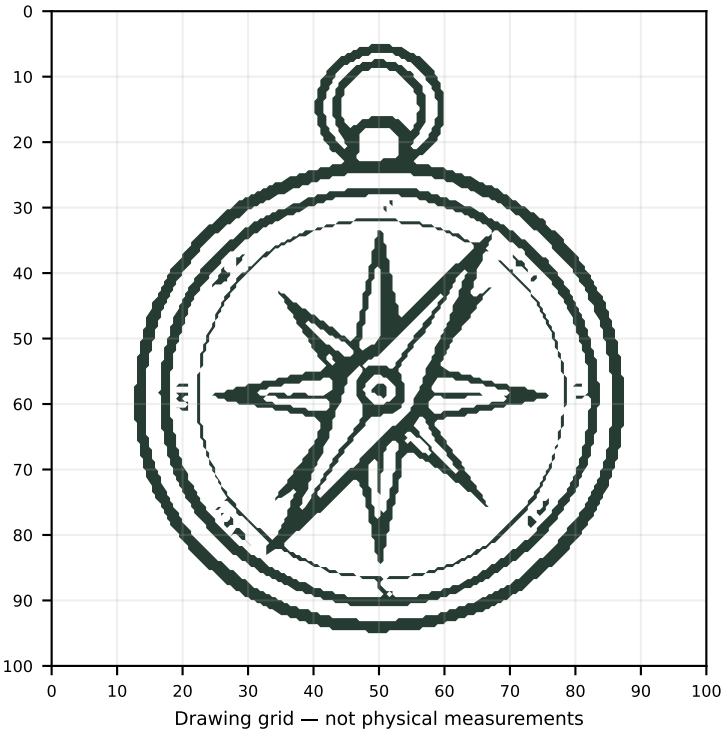

Drawing grid — not physical measurements

ANSWER: Example solution: preserve circular dial with concentric ring border, multi-pointed compass rose/needle star centered in dial, top loop or ring attachment on the casing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer circle for the compass casing, then add a slightly smaller inner circle to form the dial rim.
2. Draw a small ring/loop centered above the outer circle, connected by a short neck to the casing.
3. Inside the dial, draw a central small circle and construct an eight-pointed star/compass rose radiating from it.
4. Add short tick marks or labels around the inner dial edge to indicate cardinal directions.

How to Draw Magnetic Compass — Free Practice Sheets

ANSWER / CASE 3

magnetic compass: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

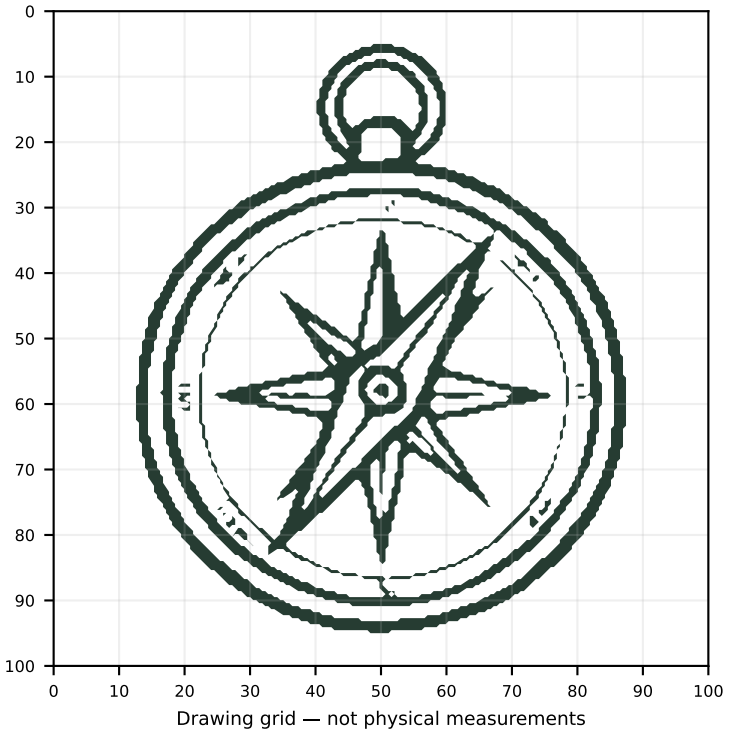

Drawing grid — not physical measurements

ANSWER: Example solution: preserve circular dial with concentric ring border, multi-pointed compass rose/needle star centered in dial, top loop or ring attachment on the casing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer circle for the compass casing, then add a slightly smaller inner circle to form the dial rim.
2. Draw a small ring/loop centered above the outer circle, connected by a short neck to the casing.
3. Inside the dial, draw a central small circle and construct an eight-pointed star/compass rose radiating from it.
4. Add short tick marks or labels around the inner dial edge to indicate cardinal directions.

How to Draw Magnetic Compass — Free Practice Sheets

ANSWER / CASE 4

magnetic compass: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve circular dial with concentric ring border, multi-pointed compass rose/needle star centered in dial, top loop or ring attachment on the casing. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large outer circle for the compass casing, then add a slightly smaller inner circle to form the dial rim.
2. Draw a small ring/loop centered above the outer circle, connected by a short neck to the casing.
3. Inside the dial, draw a central small circle and construct an eight-pointed star/compass rose radiating from it.
4. Add short tick marks or labels around the inner dial edge to indicate cardinal directions.
