How to Draw Microphone — Free Practice Sheets

ANSWER / CASE 1

microphone: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

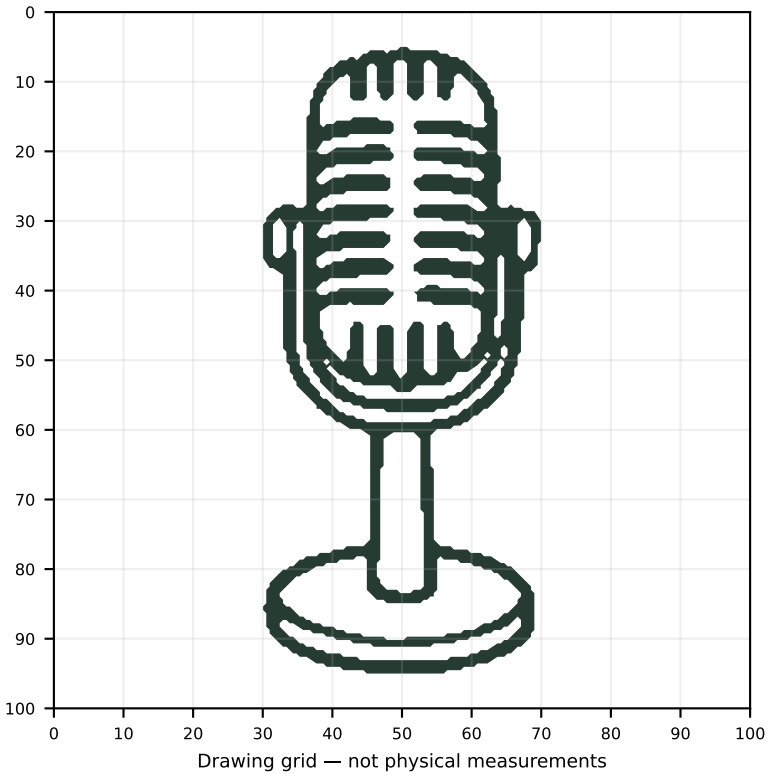

ANSWER: Example solution: preserve rounded rectangular grille head with horizontal slats, U-shaped yoke/cradle connecting the head to the stand, cylindrical handle/stem. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangle for the microphone head, then add evenly spaced horizontal lines across it for the grille.
2. Draw a U-shaped bracket around the lower half of the head, attaching small side mounts to the head.
3. Draw a short vertical cylindrical stem descending from the center of the U-bracket.
4. Draw an oval base at the bottom of the stem, with a smaller inner oval line to show thickness.

How to Draw Microphone — Free Practice Sheets

ANSWER / CASE 2

microphone: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

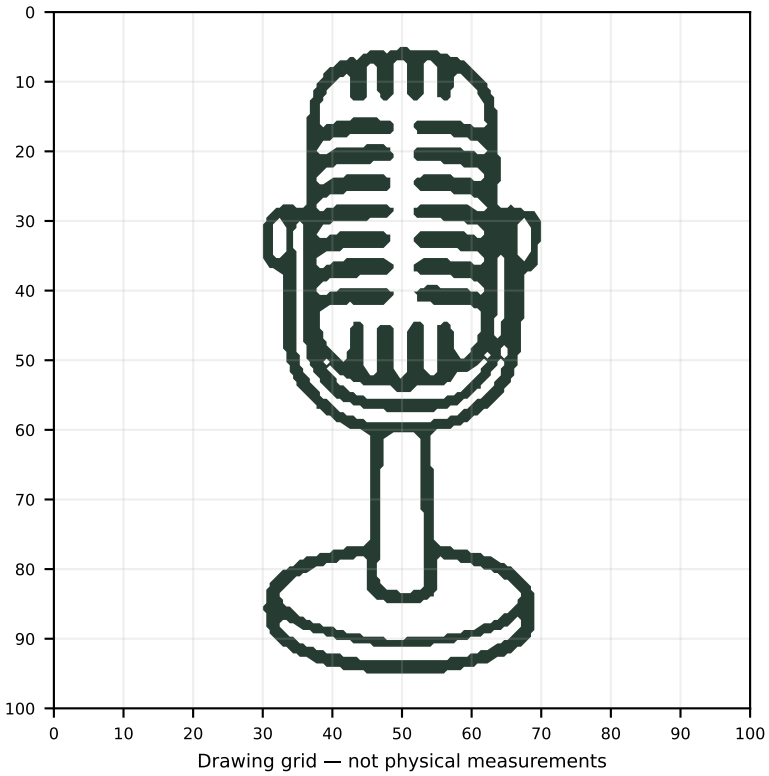

ANSWER: Example solution: preserve rounded rectangular grille head with horizontal slats, U-shaped yoke/cradle connecting the head to the stand, cylindrical handle/stem. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangle for the microphone head, then add evenly spaced horizontal lines across it for the grille.
2. Draw a U-shaped bracket around the lower half of the head, attaching small side mounts to the head.
3. Draw a short vertical cylindrical stem descending from the center of the U-bracket.
4. Draw an oval base at the bottom of the stem, with a smaller inner oval line to show thickness.

ANSWER / CASE 3

microphone: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

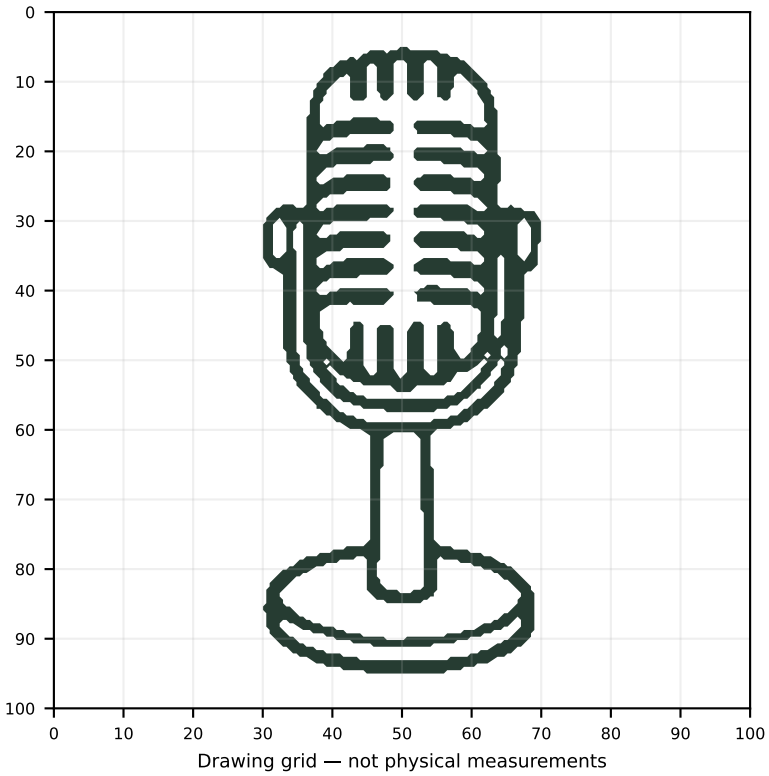

ANSWER: Example solution: preserve rounded rectangular grille head with horizontal slats, U-shaped yoke/cradle connecting the head to the stand, cylindrical handle/stem. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangle for the microphone head, then add evenly spaced horizontal lines across it for the grille.
2. Draw a U-shaped bracket around the lower half of the head, attaching small side mounts to the head.
3. Draw a short vertical cylindrical stem descending from the center of the U-bracket.
4. Draw an oval base at the bottom of the stem, with a smaller inner oval line to show thickness.

How to Draw Microphone — Free Practice Sheets

ANSWER / CASE 4

microphone: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve rounded rectangular grille head with horizontal slats, U-shaped yoke/cradle connecting the head to the stand, cylindrical handle/stem. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded rectangle for the microphone head, then add evenly spaced horizontal lines across it for the grille.
2. Draw a U-shaped bracket around the lower half of the head, attaching small side mounts to the head.
3. Draw a short vertical cylindrical stem descending from the center of the U-bracket.
4. Draw an oval base at the bottom of the stem, with a smaller inner oval line to show thickness.
