How to Draw Tambourine — Free Practice Sheets

ANSWER / CASE 1

tambourine: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

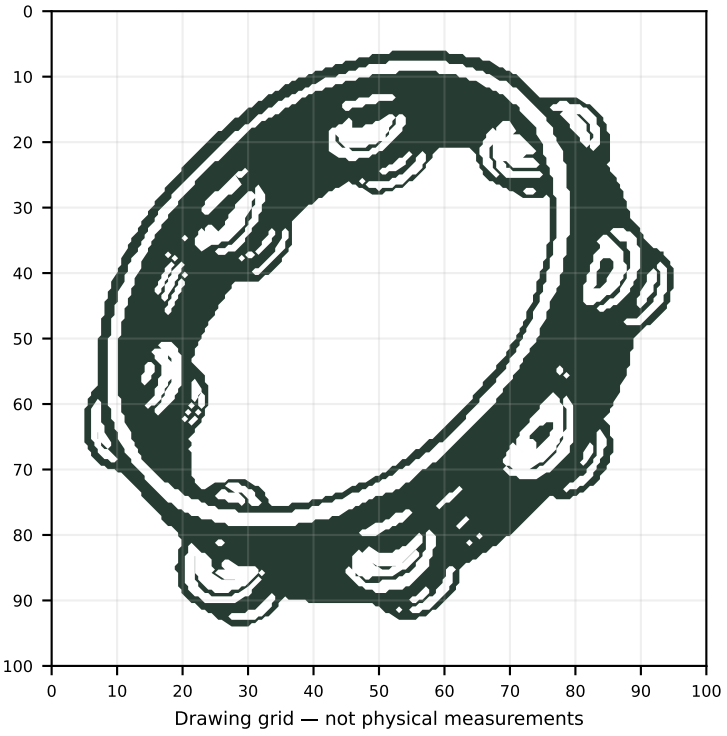

ANSWER: Example solution: preserve circular frame drawn as an elliptical ring, metal jingle pairs mounted around the outer rim, open center showing the drum skin surface area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular frame, tilted to show perspective.
2. Add a second inner ellipse to define the rim thickness and open drum skin area.
3. Place evenly spaced pairs of small jingle shapes around the outer edge of the rim.
4. Shade the rim with parallel hatching and outline the jingles to finish the monochrome line drawing.

How to Draw Tambourine — Free Practice Sheets

ANSWER / CASE 2

tambourine: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

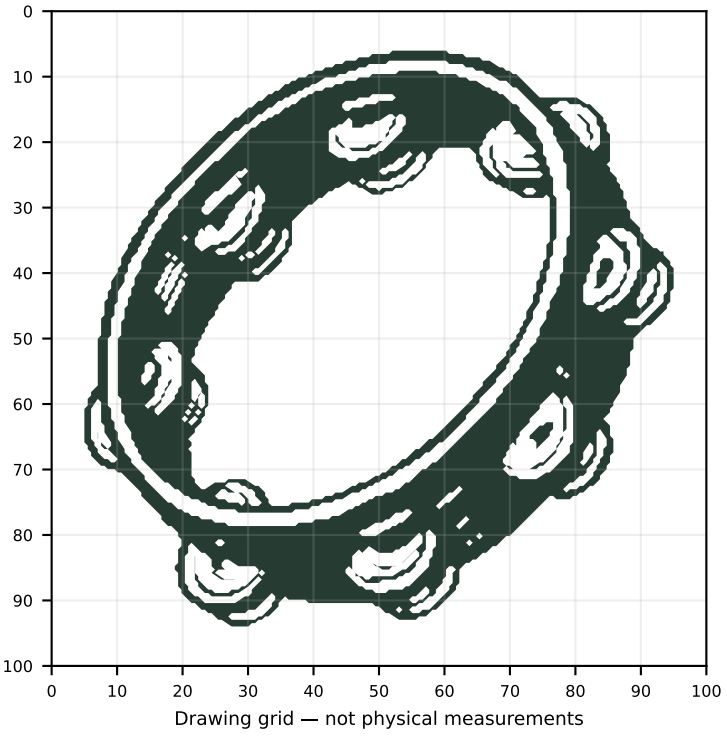

Drawing grid — not physical measurements

ANSWER: Example solution: preserve circular frame drawn as an elliptical ring, metal jingle pairs mounted around the outer rim, open center showing the drum skin surface area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular frame, tilted to show perspective.
2. Add a second inner ellipse to define the rim thickness and open drum skin area.
3. Place evenly spaced pairs of small jingle shapes around the outer edge of the rim.
4. Shade the rim with parallel hatching and outline the jingles to finish the monochrome line drawing.

How to Draw Tambourine — Free Practice Sheets

ANSWER / CASE 3

tambourine: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

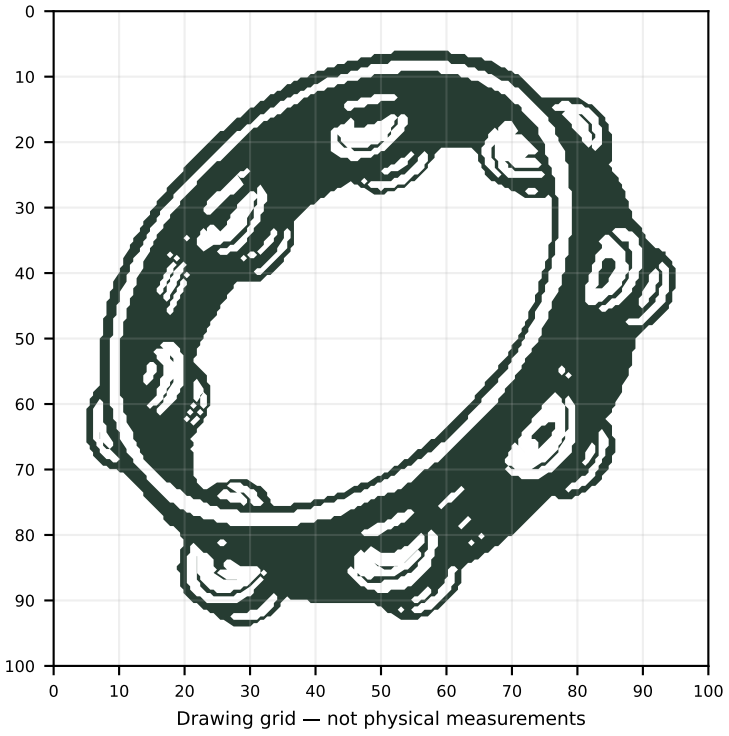

Drawing grid — not physical measurements

ANSWER: Example solution: preserve circular frame drawn as an elliptical ring, metal jingle pairs mounted around the outer rim, open center showing the drum skin surface area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular frame, tilted to show perspective.
2. Add a second inner ellipse to define the rim thickness and open drum skin area.
3. Place evenly spaced pairs of small jingle shapes around the outer edge of the rim.
4. Shade the rim with parallel hatching and outline the jingles to finish the monochrome line drawing.

How to Draw Tambourine — Free Practice Sheets

ANSWER / CASE 4

tambourine: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve circular frame drawn as an elliptical ring, metal jingle pairs mounted around the outer rim, open center showing the drum skin surface area. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large ellipse for the circular frame, tilted to show perspective.
2. Add a second inner ellipse to define the rim thickness and open drum skin area.
3. Place evenly spaced pairs of small jingle shapes around the outer edge of the rim.
4. Shade the rim with parallel hatching and outline the jingles to finish the monochrome line drawing.
