How to Draw Horseshoe — Free Practice Sheets

ANSWER / CASE 1

horseshoe: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

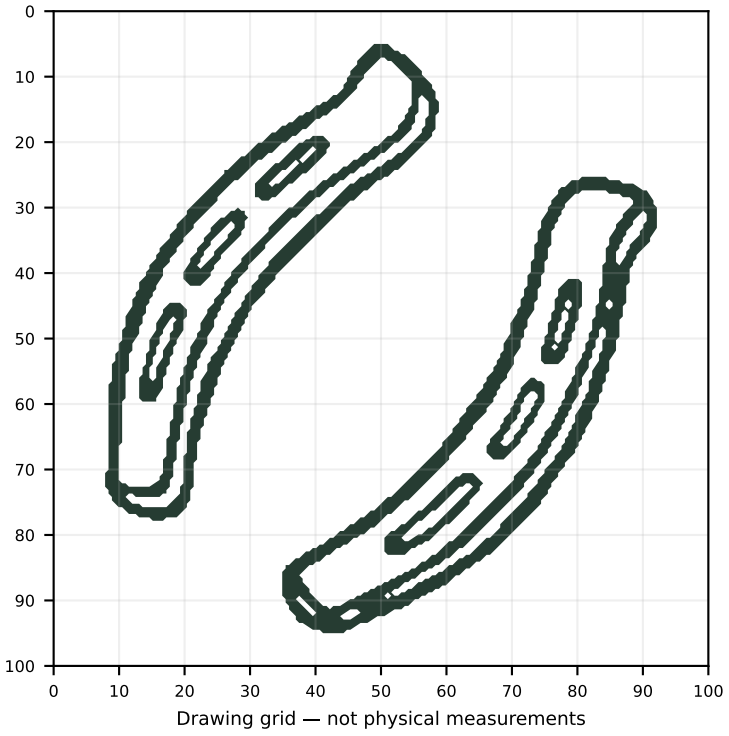

ANSWER: Example solution: preserve Two curved band segments forming an open U-shape with a gap at the heel, Elongated oval nail holes along the inner face of each segment, Rounded, slightly flared ends at the heel and toe tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two mirrored curved bands that bow outward and leave an open gap at the bottom heel
2. Add a parallel inner line to give each band thickness and a flat cross-section
3. Place 3-4 elongated oval nail holes along the center of each band
4. Round and slightly flare the four band ends to suggest the toe and heel tips

How to Draw Horseshoe — Free Practice Sheets

ANSWER / CASE 2

horseshoe: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

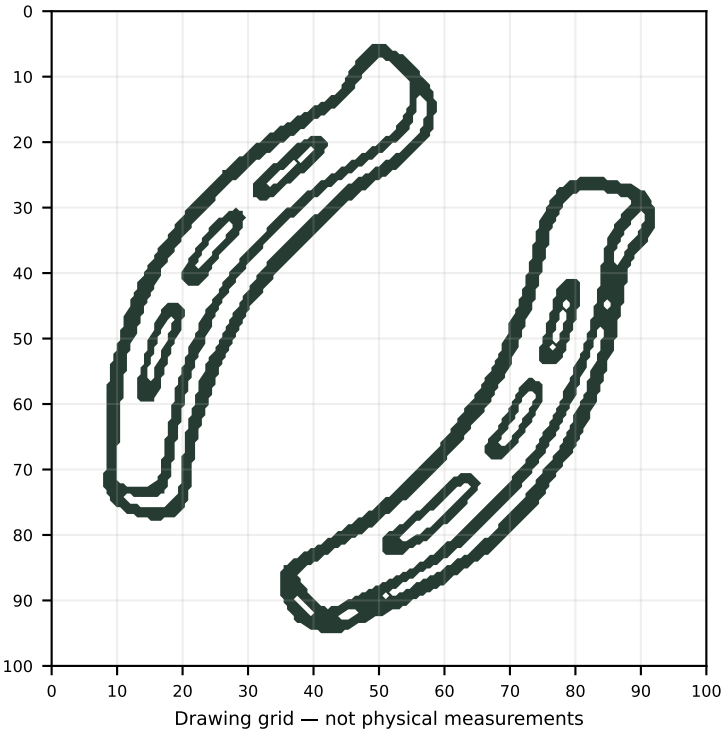

ANSWER: Example solution: preserve Two curved band segments forming an open U-shape with a gap at the heel, Elongated oval nail holes along the inner face of each segment, Rounded, slightly flared ends at the heel and toe tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two mirrored curved bands that bow outward and leave an open gap at the bottom heel
2. Add a parallel inner line to give each band thickness and a flat cross-section
3. Place 3-4 elongated oval nail holes along the center of each band
4. Round and slightly flare the four band ends to suggest the toe and heel tips

How to Draw Horseshoe — Free Practice Sheets

ANSWER / CASE 3

horseshoe: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

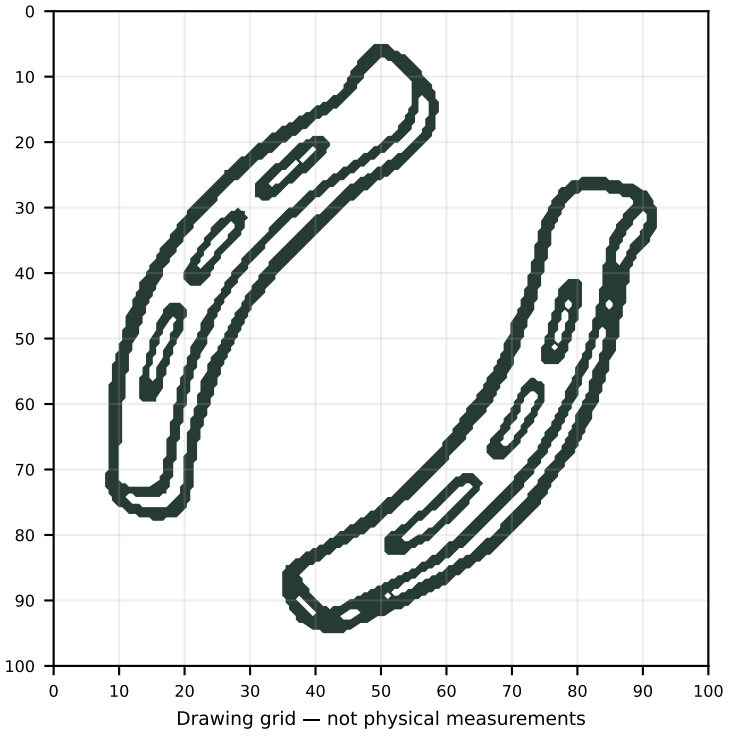

ANSWER: Example solution: preserve Two curved band segments forming an open U-shape with a gap at the heel, Elongated oval nail holes along the inner face of each segment, Rounded, slightly flared ends at the heel and toe tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two mirrored curved bands that bow outward and leave an open gap at the bottom heel
2. Add a parallel inner line to give each band thickness and a flat cross-section
3. Place 3-4 elongated oval nail holes along the center of each band
4. Round and slightly flare the four band ends to suggest the toe and heel tips

How to Draw Horseshoe — Free Practice Sheets

ANSWER / CASE 4

horseshoe: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve Two curved band segments forming an open U-shape with a gap at the heel, Elongated oval nail holes along the inner face of each segment, Rounded, slightly flared ends at the heel and toe tips. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw two mirrored curved bands that bow outward and leave an open gap at the bottom heel
2. Add a parallel inner line to give each band thickness and a flat cross-section
3. Place 3-4 elongated oval nail holes along the center of each band
4. Round and slightly flare the four band ends to suggest the toe and heel tips
