How to Draw Knife — Free Practice Sheets

ANSWER / CASE 1

knife: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

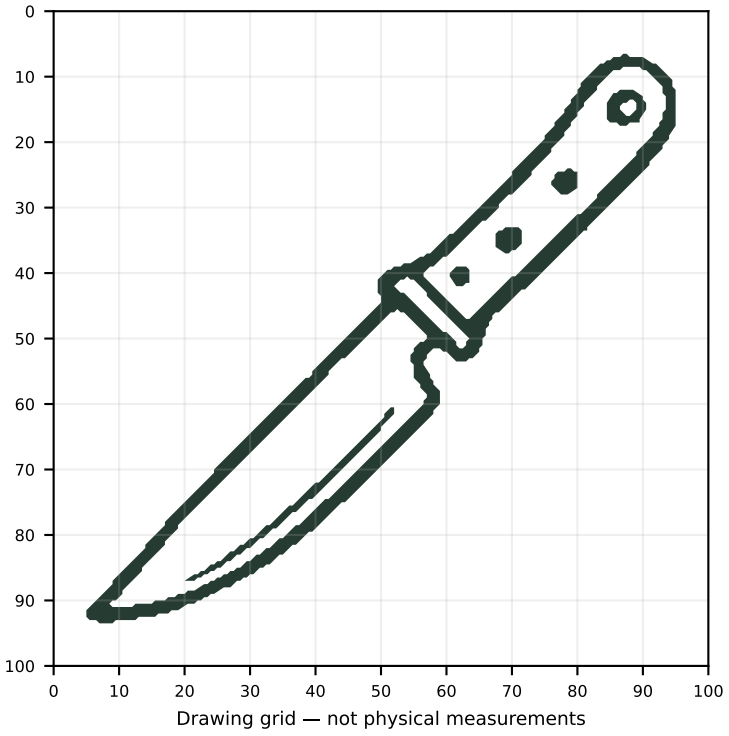

ANSWER: Example solution: preserve long tapered blade with a pointed tip, rounded handle with three rivet dots, small guard/collar between blade and handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long blade outline starting from the pointed tip and widening toward the base.
2. Add the small rectangular guard/collar at the base of the blade.
3. Draw the rounded handle extending from the guard, slightly angled.
4. Add three small circular rivets along the handle and a small hole near the handle end.

ANSWER / CASE 2

knife: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

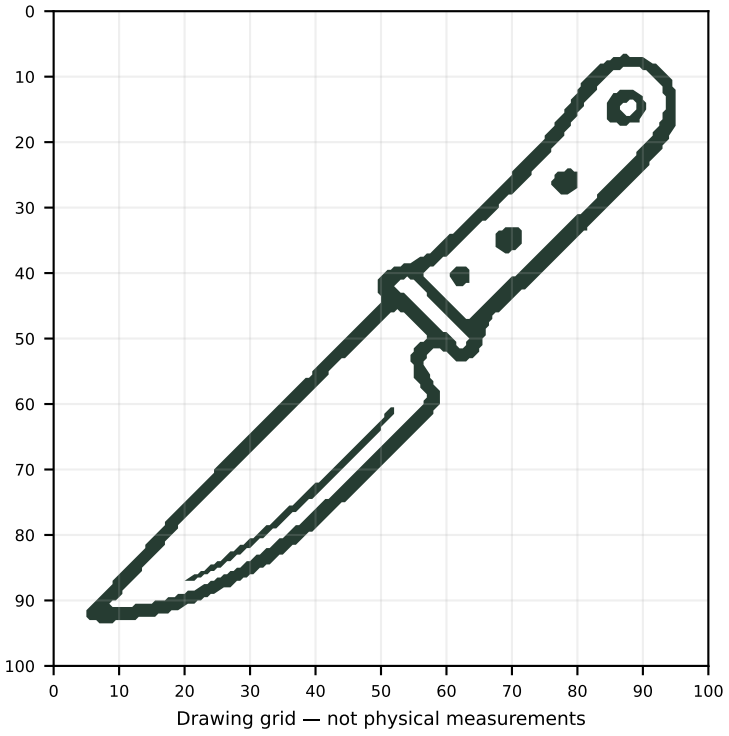

ANSWER: Example solution: preserve long tapered blade with a pointed tip, rounded handle with three rivet dots, small guard/collar between blade and handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long blade outline starting from the pointed tip and widening toward the base.
2. Add the small rectangular guard/collar at the base of the blade.
3. Draw the rounded handle extending from the guard, slightly angled.
4. Add three small circular rivets along the handle and a small hole near the handle end.

ANSWER / CASE 3

knife: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

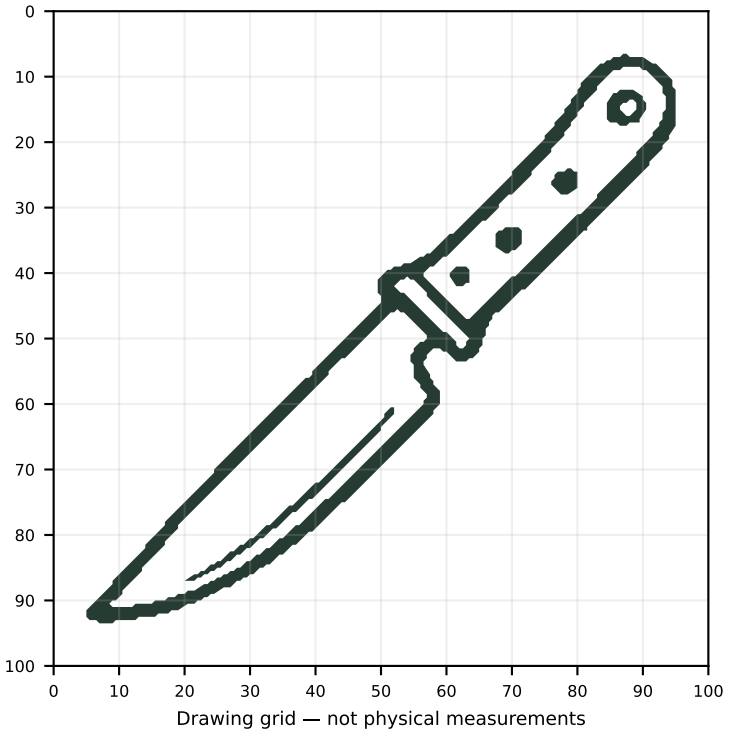

ANSWER: Example solution: preserve long tapered blade with a pointed tip, rounded handle with three rivet dots, small guard/collar between blade and handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long blade outline starting from the pointed tip and widening toward the base.
2. Add the small rectangular guard/collar at the base of the blade.
3. Draw the rounded handle extending from the guard, slightly angled.
4. Add three small circular rivets along the handle and a small hole near the handle end.

How to Draw Knife — Free Practice Sheets

ANSWER / CASE 4

knife: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve long tapered blade with a pointed tip, rounded handle with three rivet dots, small guard/collar between blade and handle. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the long blade outline starting from the pointed tip and widening toward the base.
2. Add the small rectangular guard/collar at the base of the blade.
3. Draw the rounded handle extending from the guard, slightly angled.
4. Add three small circular rivets along the handle and a small hole near the handle end.
