How to Draw Leash — Free Practice Sheets

ANSWER / CASE 1

leash: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

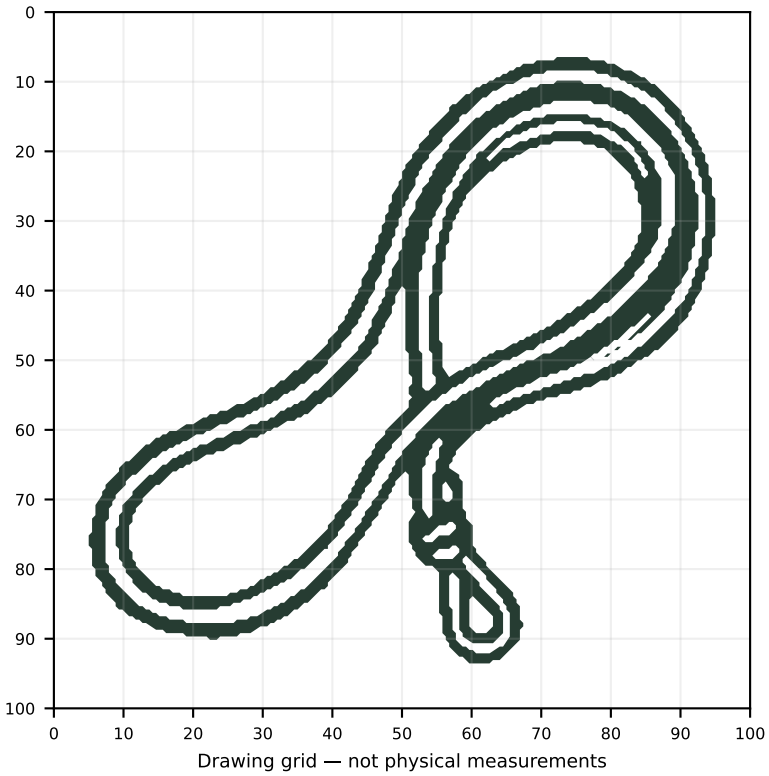

ANSWER: Example solution: preserve large upper loop forming the handle, long strap body crossing into a lower loop, small knotted loop hanging below the crossing point. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large rounded loop at the top for the handle.
2. Extend two parallel lines down from the handle, crossing them to form the long strap body.
3. Curve the strap into a lower loop on the left side.
4. Add a small knotted loop hanging below the crossing point to suggest the clip attachment.

How to Draw Leash — Free Practice Sheets

ANSWER / CASE 2

leash: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

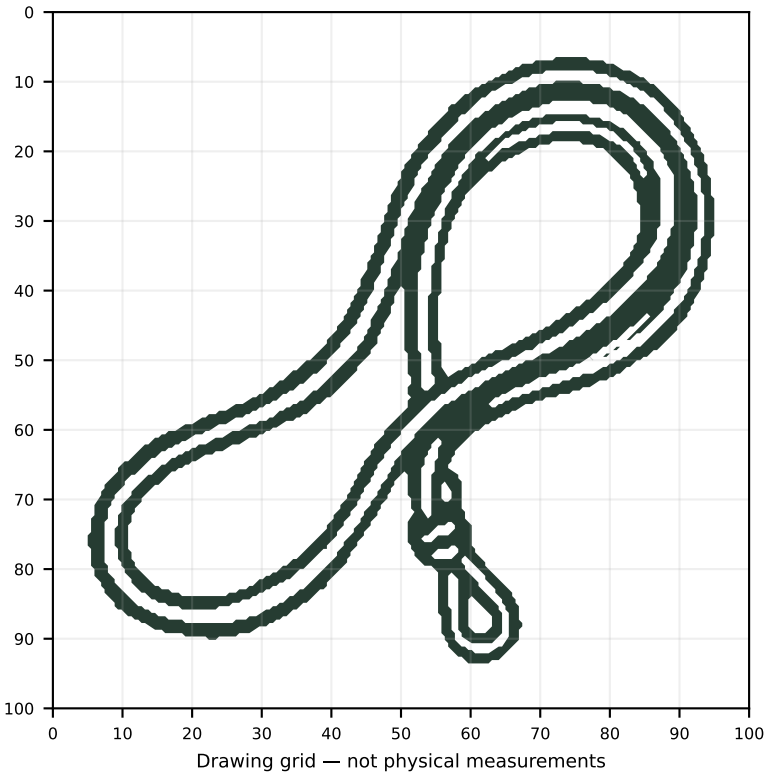

ANSWER: Example solution: preserve large upper loop forming the handle, long strap body crossing into a lower loop, small knotted loop hanging below the crossing point. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large rounded loop at the top for the handle.
2. Extend two parallel lines down from the handle, crossing them to form the long strap body.
3. Curve the strap into a lower loop on the left side.
4. Add a small knotted loop hanging below the crossing point to suggest the clip attachment.

How to Draw Leash — Free Practice Sheets

ANSWER / CASE 3

leash: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

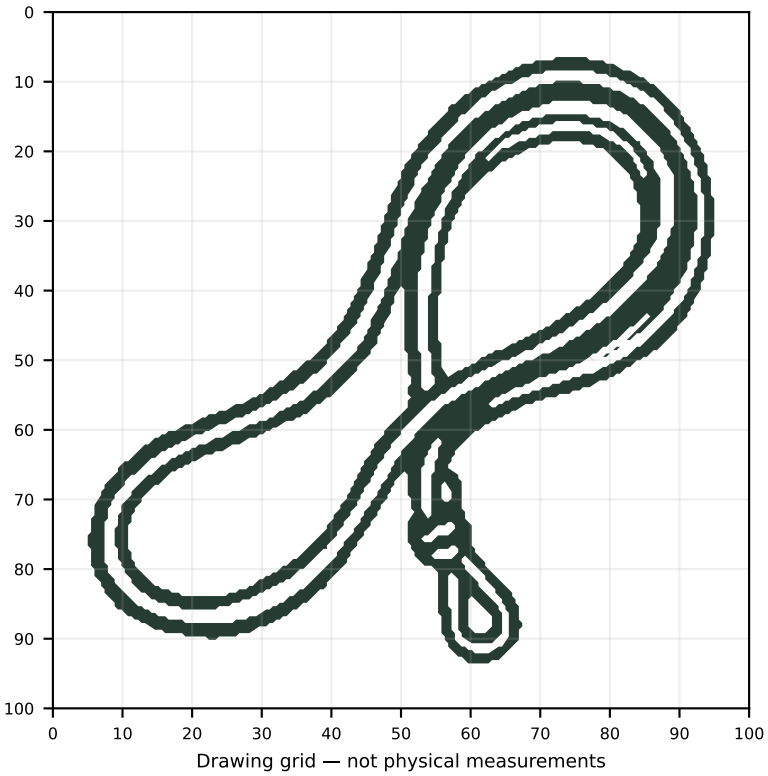

ANSWER: Example solution: preserve large upper loop forming the handle, long strap body crossing into a lower loop, small knotted loop hanging below the crossing point. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large rounded loop at the top for the handle.
2. Extend two parallel lines down from the handle, crossing them to form the long strap body.
3. Curve the strap into a lower loop on the left side.
4. Add a small knotted loop hanging below the crossing point to suggest the clip attachment.

How to Draw Leash — Free Practice Sheets

ANSWER / CASE 4

leash: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve large upper loop forming the handle, long strap body crossing into a lower loop, small knotted loop hanging below the crossing point. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large rounded loop at the top for the handle.
2. Extend two parallel lines down from the handle, crossing them to form the long strap body.
3. Curve the strap into a lower loop on the left side.
4. Add a small knotted loop hanging below the crossing point to suggest the clip attachment.
