How to Draw Podium — Free Practice Sheets

ANSWER / CASE 1

podium: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

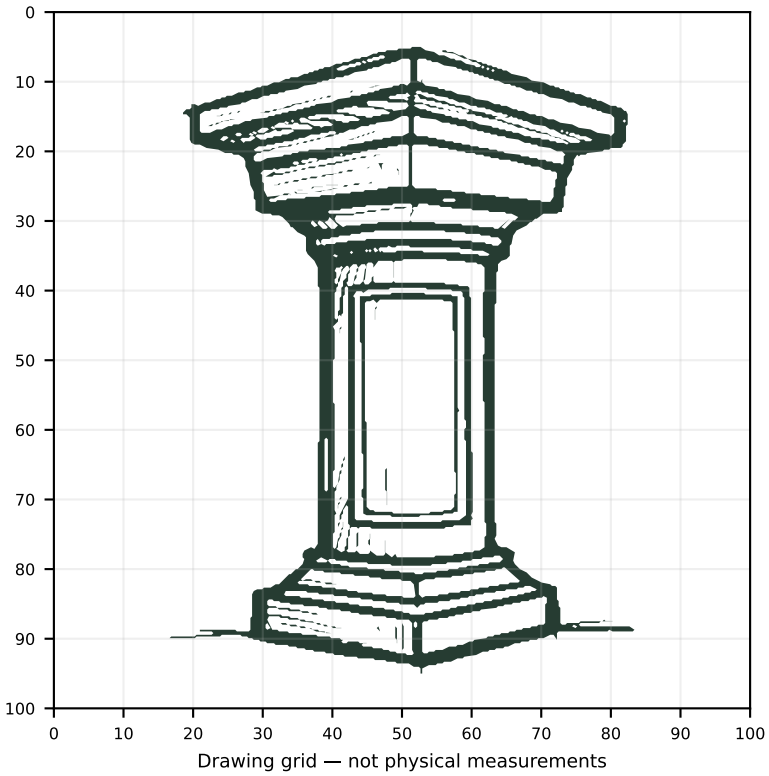

ANSWER: Example solution: preserve slanted top surface with overhanging cap, vertical supporting column with inset rectangular panel, stepped base with horizontal moldings. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the top cap as a wide, slanted quadrilateral with a thick overhanging edge.
2. Add the supporting column below the cap, using vertical lines and a smaller inset rectangle for the front panel.
3. Draw the base as stacked horizontal blocks that widen toward the bottom.
4. Add short ground lines at the base to anchor the object.

How to Draw Podium — Free Practice Sheets

ANSWER / CASE 2

podium: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

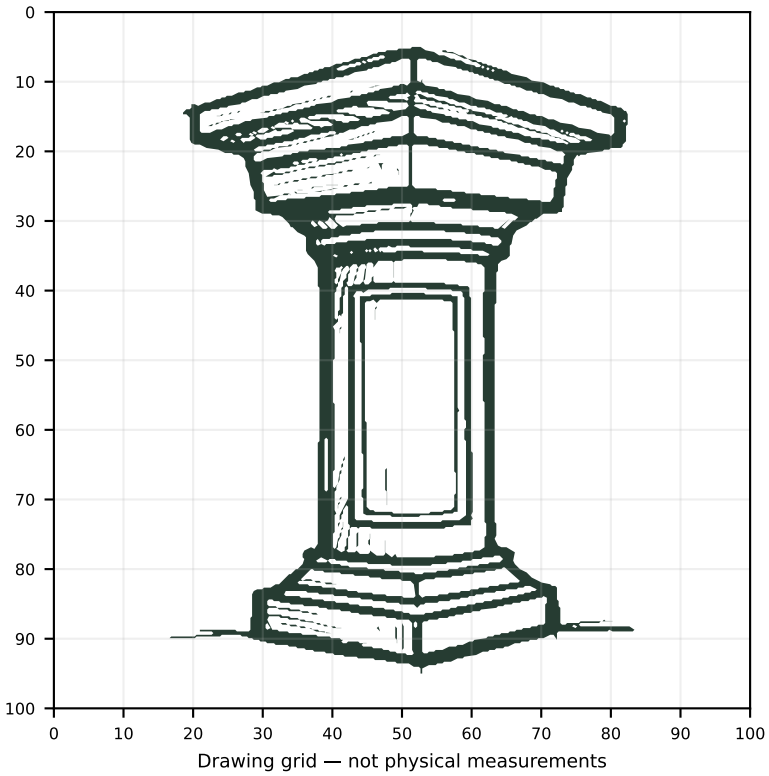

ANSWER: Example solution: preserve slanted top surface with overhanging cap, vertical supporting column with inset rectangular panel, stepped base with horizontal moldings. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the top cap as a wide, slanted quadrilateral with a thick overhanging edge.
2. Add the supporting column below the cap, using vertical lines and a smaller inset rectangle for the front panel.
3. Draw the base as stacked horizontal blocks that widen toward the bottom.
4. Add short ground lines at the base to anchor the object.

How to Draw Podium — Free Practice Sheets

ANSWER / CASE 3

podium: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

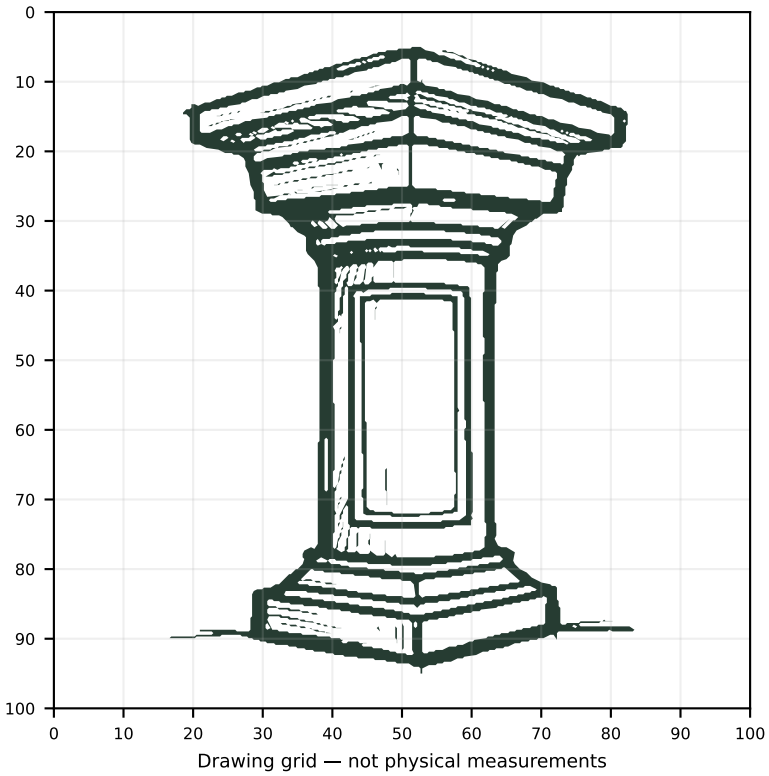

ANSWER: Example solution: preserve slanted top surface with overhanging cap, vertical supporting column with inset rectangular panel, stepped base with horizontal moldings. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the top cap as a wide, slanted quadrilateral with a thick overhanging edge.
2. Add the supporting column below the cap, using vertical lines and a smaller inset rectangle for the front panel.
3. Draw the base as stacked horizontal blocks that widen toward the bottom.
4. Add short ground lines at the base to anchor the object.

How to Draw Podium — Free Practice Sheets

ANSWER / CASE 4

podium: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve slanted top surface with overhanging cap, vertical supporting column with inset rectangular panel, stepped base with horizontal moldings. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the top cap as a wide, slanted quadrilateral with a thick overhanging edge.
2. Add the supporting column below the cap, using vertical lines and a smaller inset rectangle for the front panel.
3. Draw the base as stacked horizontal blocks that widen toward the bottom.
4. Add short ground lines at the base to anchor the object.
