How to Draw Toothbrush — Free Practice Sheets

REFERENCE / CASE 1

toothbrush: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

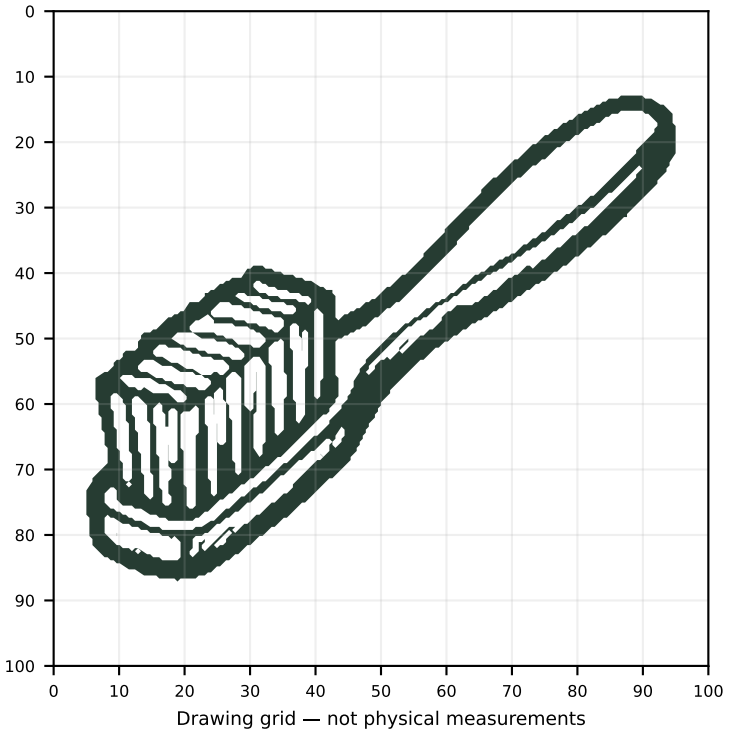

METHOD: Draw the long handle as an elongated rounded outline, wider at the grip and tapering toward the neck. Add the angled neck by extending the handle outline into a short curved transition toward the head. Draw the rectangular head base at the end of the neck, with a slightly rounded lower edge. Add the bristles as a block of parallel vertical lines rising from the head, then outline the bristle mass.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

toothbrush: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

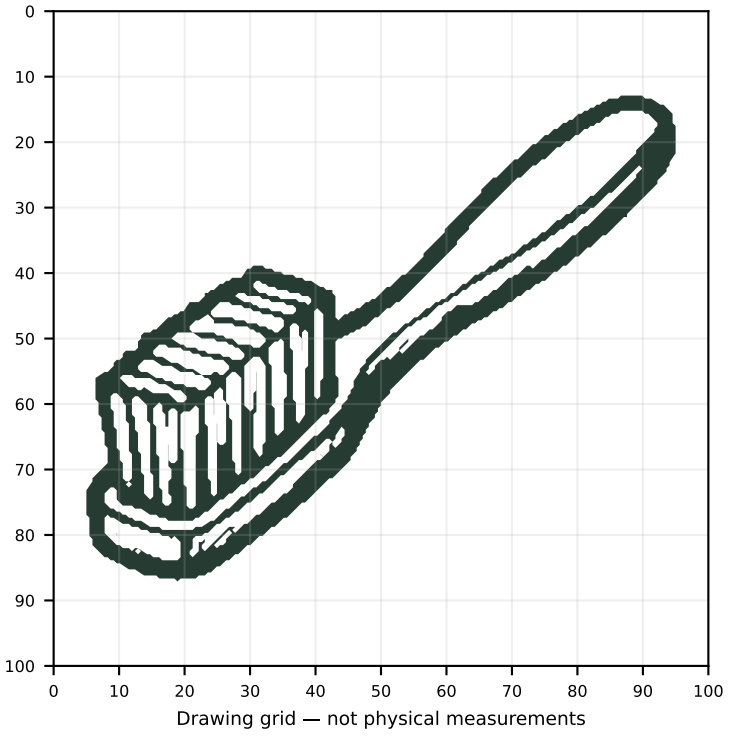

METHOD: Draw the long handle as an elongated rounded outline, wider at the grip and tapering toward the neck. Add the angled neck by extending the handle outline into a short curved transition toward the head. Draw the rectangular head base at the end of the neck, with a slightly rounded lower edge. Add the bristles as a block of parallel vertical lines rising from the head, then outline the bristle mass.
Use the separate practice sheet before checking the answer.

How to Draw Toothbrush — Free Practice Sheets

REFERENCE / CASE 3

toothbrush: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

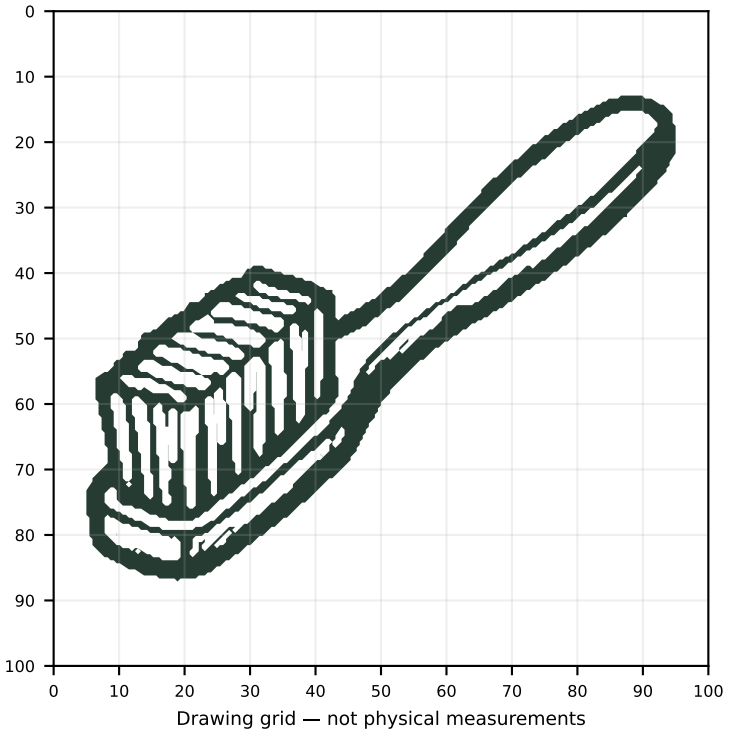

METHOD: Draw the long handle as an elongated rounded outline, wider at the grip and tapering toward the neck. Add the angled neck by extending the handle outline into a short curved transition toward the head. Draw the rectangular head base at the end of the neck, with a slightly rounded lower edge. Add the bristles as a block of parallel vertical lines rising from the head, then outline the bristle mass.
Use the separate practice sheet before checking the answer.

How to Draw Toothbrush — Free Practice Sheets

REFERENCE / CASE 4

toothbrush: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw the long handle as an elongated rounded outline, wider at the grip and tapering toward the neck. Add the angled neck by extending the handle outline into a short curved transition toward the head. Draw the rectangular head base at the end of the neck, with a slightly rounded lower edge. Add the bristles as a block of parallel vertical lines rising from the head, then outline the bristle mass.
Use the separate practice sheet before checking the answer.
