How to Draw Ice Skate — Free Practice Sheets

ANSWER / CASE 1

ice skate: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

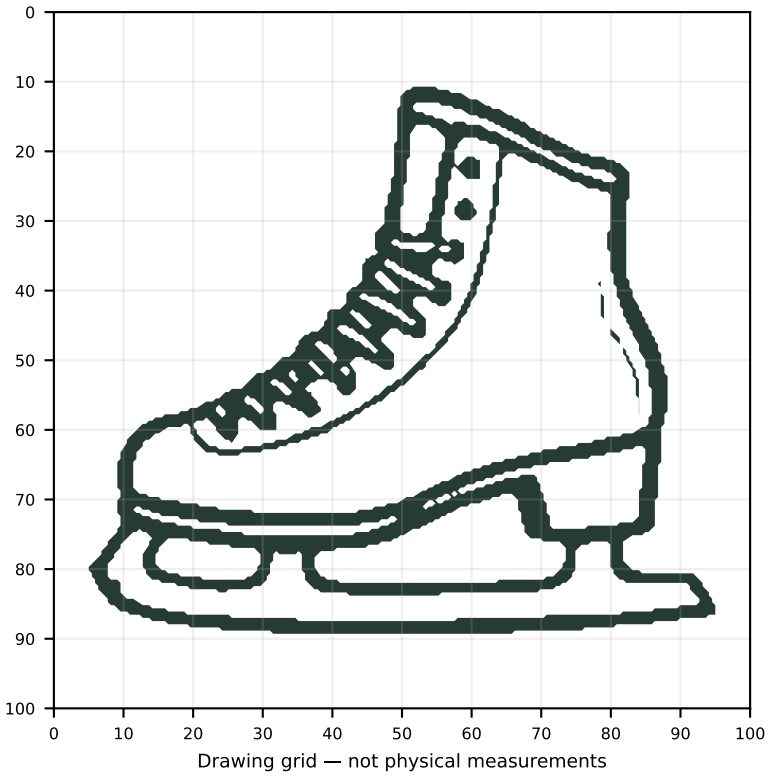

ANSWER: Example solution: preserve tall boot shape with a rounded toe and high ankle collar, row of lace eyelets and crisscross laces along the front of the boot, blade with a curved front tip and a raised heel connection. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the boot outline starting with the rounded toe, then the sole line, and finish with the tall ankle collar.
2. Add the lace eyelets and crisscross laces along the front opening of the boot.
3. Draw the blade as a long horizontal shape beneath the sole, with a curved front tip and a small support connecting to the heel.
4. Outline the entire skate with a clean, consistent line and add the small rectangular heel block between the boot and blade.

ANSWER / CASE 2

ice skate: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

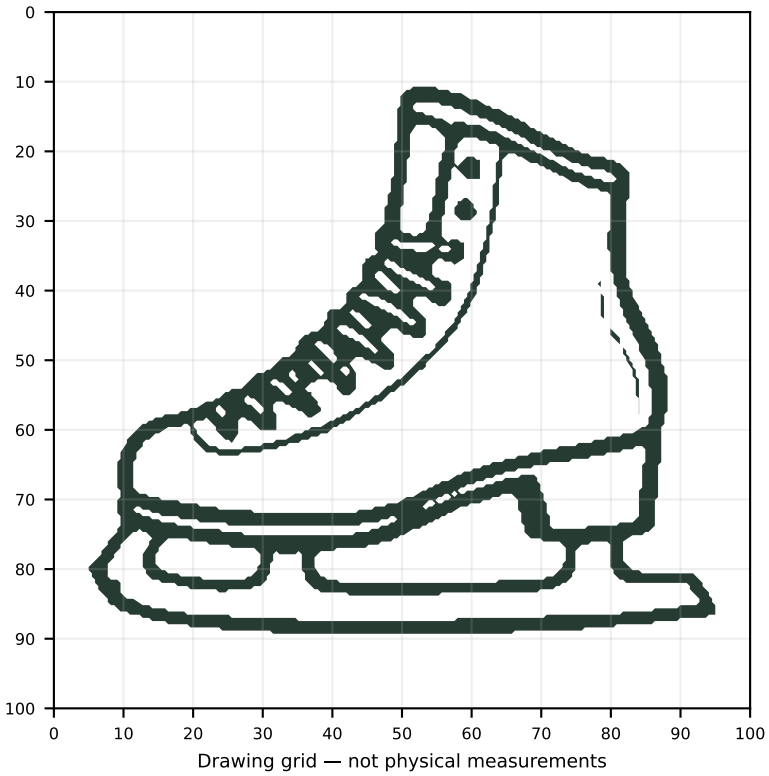

ANSWER: Example solution: preserve tall boot shape with a rounded toe and high ankle collar, row of lace eyelets and crisscross laces along the front of the boot, blade with a curved front tip and a raised heel connection. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the boot outline starting with the rounded toe, then the sole line, and finish with the tall ankle collar.
2. Add the lace eyelets and crisscross laces along the front opening of the boot.
3. Draw the blade as a long horizontal shape beneath the sole, with a curved front tip and a small support connecting to the heel.
4. Outline the entire skate with a clean, consistent line and add the small rectangular heel block between the boot and blade.

How to Draw Ice Skate — Free Practice Sheets

ANSWER / CASE 3

ice skate: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

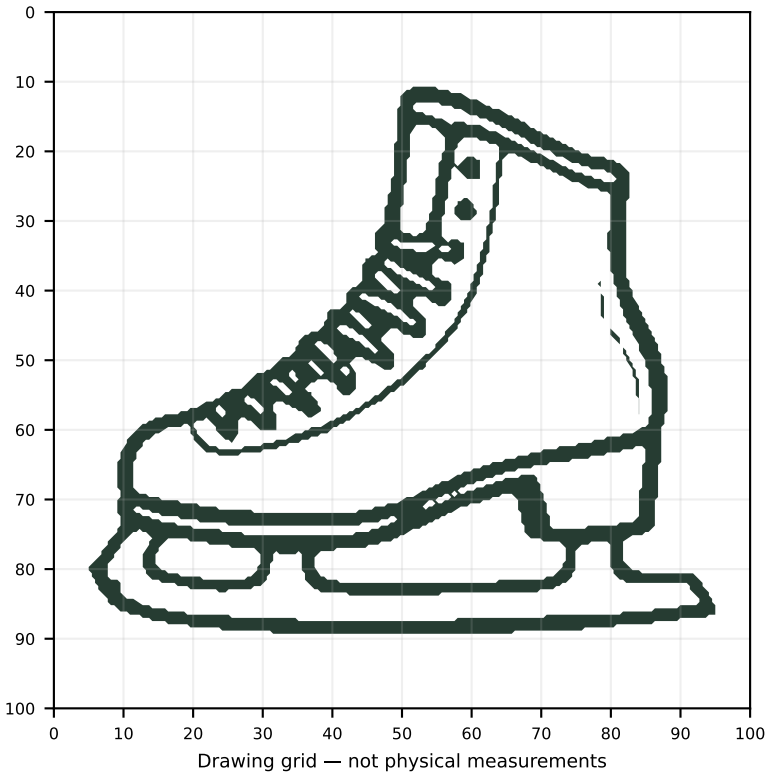

ANSWER: Example solution: preserve tall boot shape with a rounded toe and high ankle collar, row of lace eyelets and crisscross laces along the front of the boot, blade with a curved front tip and a raised heel connection. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the boot outline starting with the rounded toe, then the sole line, and finish with the tall ankle collar.
2. Add the lace eyelets and crisscross laces along the front opening of the boot.
3. Draw the blade as a long horizontal shape beneath the sole, with a curved front tip and a small support connecting to the heel.
4. Outline the entire skate with a clean, consistent line and add the small rectangular heel block between the boot and blade.

How to Draw Ice Skate — Free Practice Sheets

ANSWER / CASE 4

ice skate: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve tall boot shape with a rounded toe and high ankle collar, row of lace eyelets and crisscross laces along the front of the boot, blade with a curved front tip and a raised heel connection. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw the boot outline starting with the rounded toe, then the sole line, and finish with the tall ankle collar.
2. Add the lace eyelets and crisscross laces along the front opening of the boot.
3. Draw the blade as a long horizontal shape beneath the sole, with a curved front tip and a small support connecting to the heel.
4. Outline the entire skate with a clean, consistent line and add the small rectangular heel block between the boot and blade.
