How to Draw Barbed Wire — Free Practice Sheets

REFERENCE / CASE 1

barbed wire: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

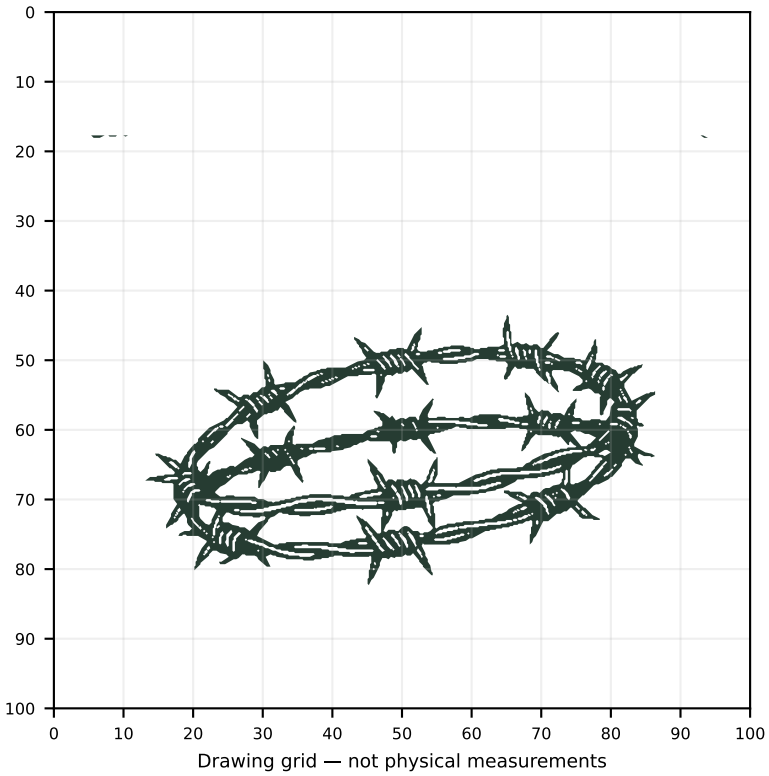

METHOD: Draw two parallel wavy lines to form the twisted double strand loop. Add short crossing diagonal lines at intervals to create the barbs. Draw small wrapped coil marks around the strand at each barb base. Complete the loop by connecting the ends and adding overlapping wire segments.
Use the separate practice sheet before checking the answer.

How to Draw Barbed Wire — Free Practice Sheets

REFERENCE / CASE 2

barbed wire: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

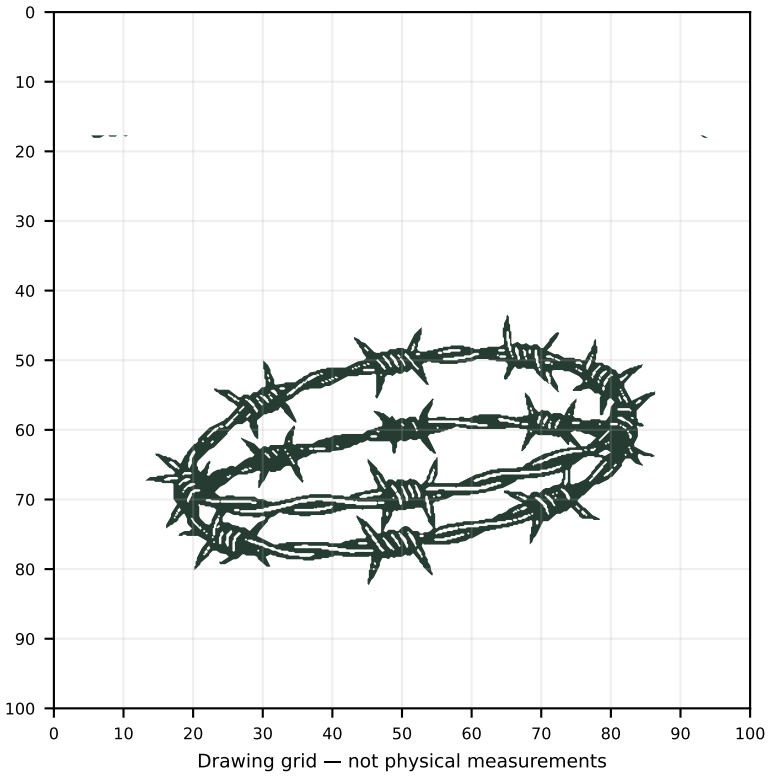

METHOD: Draw two parallel wavy lines to form the twisted double strand loop. Add short crossing diagonal lines at intervals to create the barbs. Draw small wrapped coil marks around the strand at each barb base. Complete the loop by connecting the ends and adding overlapping wire segments.
Use the separate practice sheet before checking the answer.

How to Draw Barbed Wire — Free Practice Sheets

REFERENCE / CASE 3

barbed wire: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

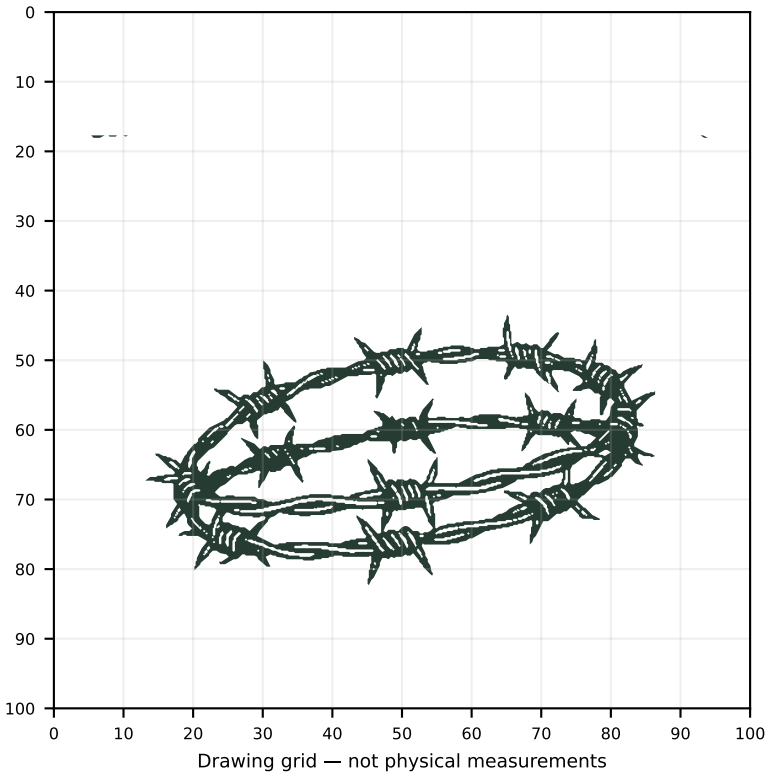

METHOD: Draw two parallel wavy lines to form the twisted double strand loop. Add short crossing diagonal lines at intervals to create the barbs. Draw small wrapped coil marks around the strand at each barb base. Complete the loop by connecting the ends and adding overlapping wire segments.
Use the separate practice sheet before checking the answer.

How to Draw Barbed Wire — Free Practice Sheets

REFERENCE / CASE 4

barbed wire: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw two parallel wavy lines to form the twisted double strand loop. Add short crossing diagonal lines at intervals to create the barbs. Draw small wrapped coil marks around the strand at each barb base. Complete the loop by connecting the ends and adding overlapping wire segments.
Use the separate practice sheet before checking the answer.
