How to Draw Dice — Free Practice Sheets

ANSWER / CASE 1

dice: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

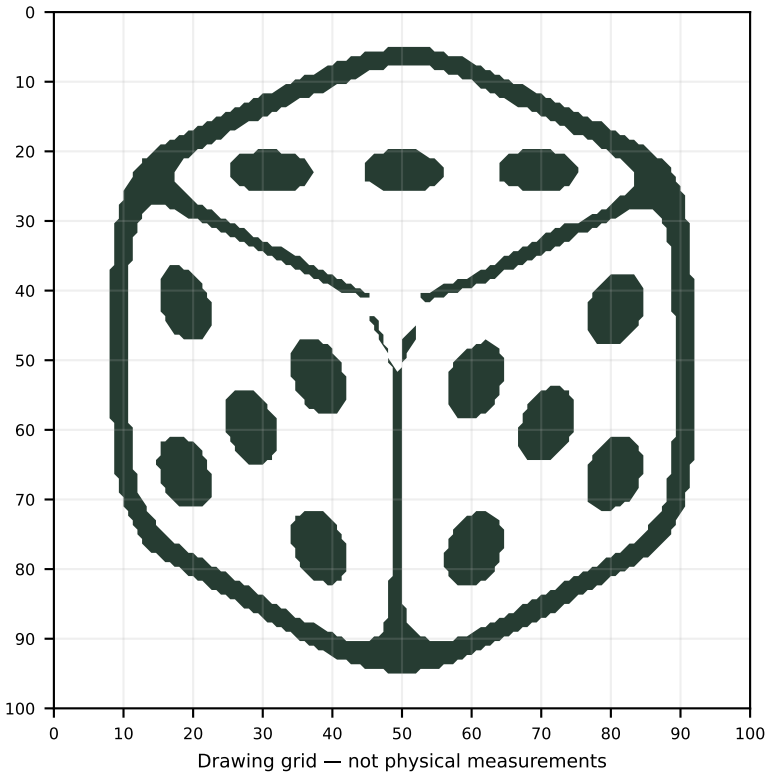

ANSWER: Example solution: preserve cube with rounded corners, pips on faces, three-visible-face perspective. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a rounded-corner cube outline showing three faces: top, left, and right.
2. Add a vertical center line separating the left and right front faces.
3. Place oval pips on the top face in a row.
4. Place oval pips on the left and right faces in a scattered pattern.
