How to Draw Domino — Free Practice Sheets

REFERENCE / CASE 1

domino: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

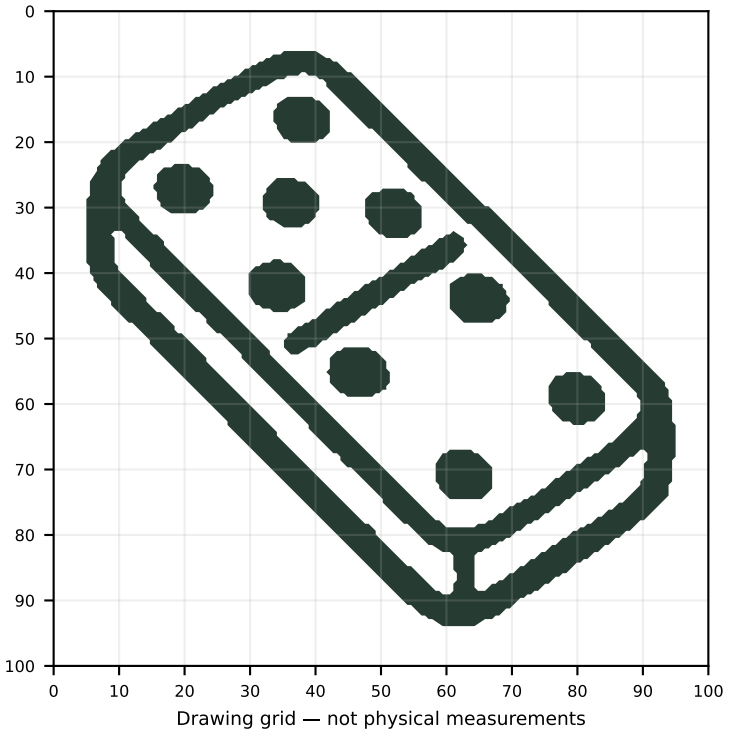

METHOD: Draw a rounded rectangle tilted diagonally to form the domino face. Add a parallel offset outline along the lower edge to show the tile's thickness. Draw a straight dividing line across the middle of the top face, splitting it into two halves. Place dot patterns in each half: five dots arranged in a quincunx on the upper half and four dots in a square pattern on the lower half.
Use the separate practice sheet before checking the answer.

How to Draw Domino — Free Practice Sheets

REFERENCE / CASE 2

domino: Copy the reference onto the blank grid, using matching grid intersections.
Compare with the separate full reference sheet.

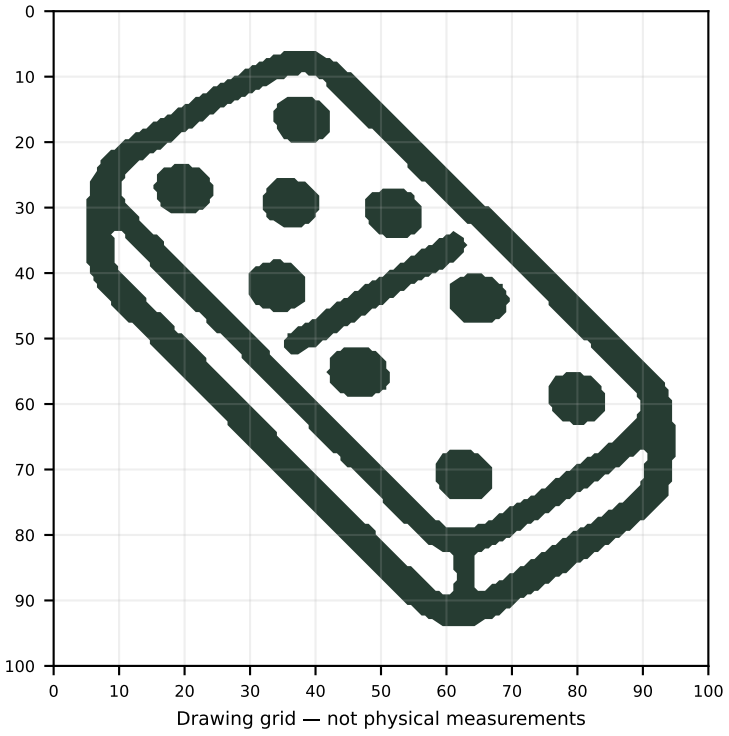

METHOD: Draw a rounded rectangle tilted diagonally to form the domino face. Add a parallel offset outline along the lower edge to show the tile's thickness. Draw a straight dividing line across the middle of the top face, splitting it into two halves. Place dot patterns in each half: five dots arranged in a quincunx on the upper half and four dots in a square pattern on the lower half.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 3

domino: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

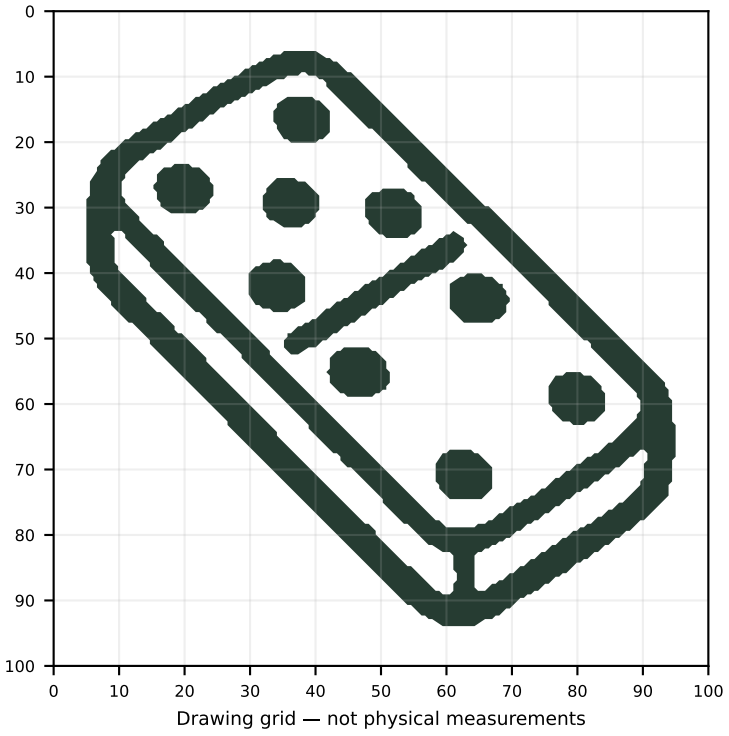

METHOD: Draw a rounded rectangle tilted diagonally to form the domino face. Add a parallel offset outline along the lower edge to show the tile's thickness. Draw a straight dividing line across the middle of the top face, splitting it into two halves. Place dot patterns in each half: five dots arranged in a quincunx on the upper half and four dots in a square pattern on the lower half.
Use the separate practice sheet before checking the answer.

How to Draw Domino — Free Practice Sheets

REFERENCE / CASE 4

domino: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a rounded rectangle tilted diagonally to form the domino face. Add a parallel offset outline along the lower edge to show the tile's thickness. Draw a straight dividing line across the middle of the top face, splitting it into two halves. Place dot patterns in each half: five dots arranged in a quincunx on the upper half and four dots in a square pattern on the lower half.
Use the separate practice sheet before checking the answer.
