How to Draw Beach Ball — Free Practice Sheets

REFERENCE / CASE 1

beach ball: Trace the reference outline, then practise the contour independently.
Compare with the separate full reference sheet.

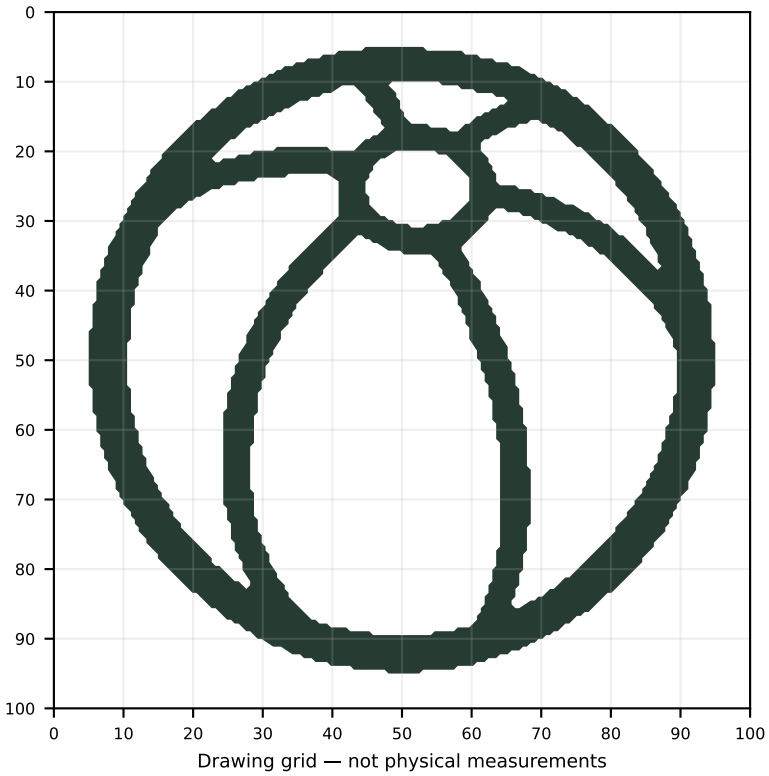

METHOD: Draw a large circle for the ball's outer silhouette. Draw a small circle near the top center to represent the pole/valve area. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams. Add a second set of curved seam lines between the first set to complete the panel divisions.
Use the separate practice sheet before checking the answer.

REFERENCE / CASE 2

beach ball: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

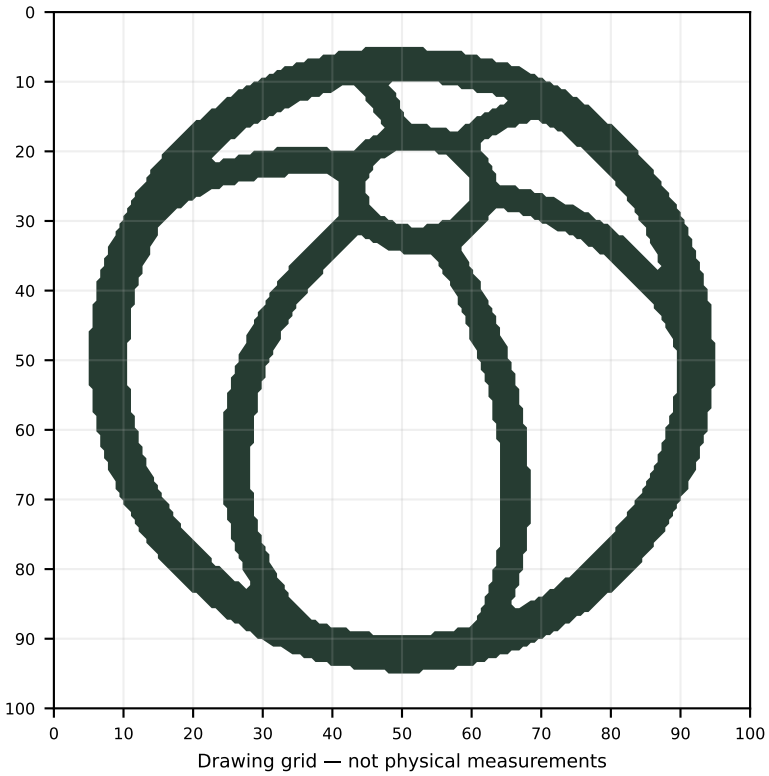

METHOD: Draw a large circle for the ball's outer silhouette. Draw a small circle near the top center to represent the pole/valve area. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams. Add a second set of curved seam lines between the first set to complete the panel divisions.
Use the separate practice sheet before checking the answer.

How to Draw Beach Ball — Free Practice Sheets

REFERENCE / CASE 3

beach ball: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

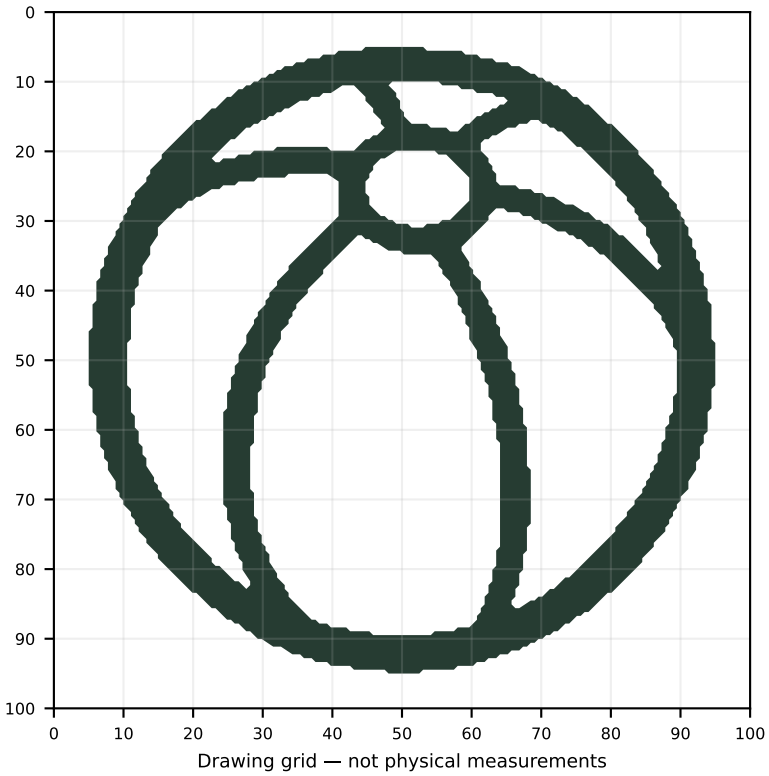

METHOD: Draw a large circle for the ball's outer silhouette. Draw a small circle near the top center to represent the pole/valve area. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams. Add a second set of curved seam lines between the first set to complete the panel divisions.
Use the separate practice sheet before checking the answer.

How to Draw Beach Ball — Free Practice Sheets

REFERENCE / CASE 4

beach ball: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

METHOD: Draw a large circle for the ball's outer silhouette. Draw a small circle near the top center to represent the pole/valve area. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams. Add a second set of curved seam lines between the first set to complete the panel divisions.
Use the separate practice sheet before checking the answer.
