How to Draw Beach Ball — Free Practice Sheets

ANSWER / CASE 1

beach ball: Trace the reference outline, then practise the contour independently. Compare with the separate full reference sheet.

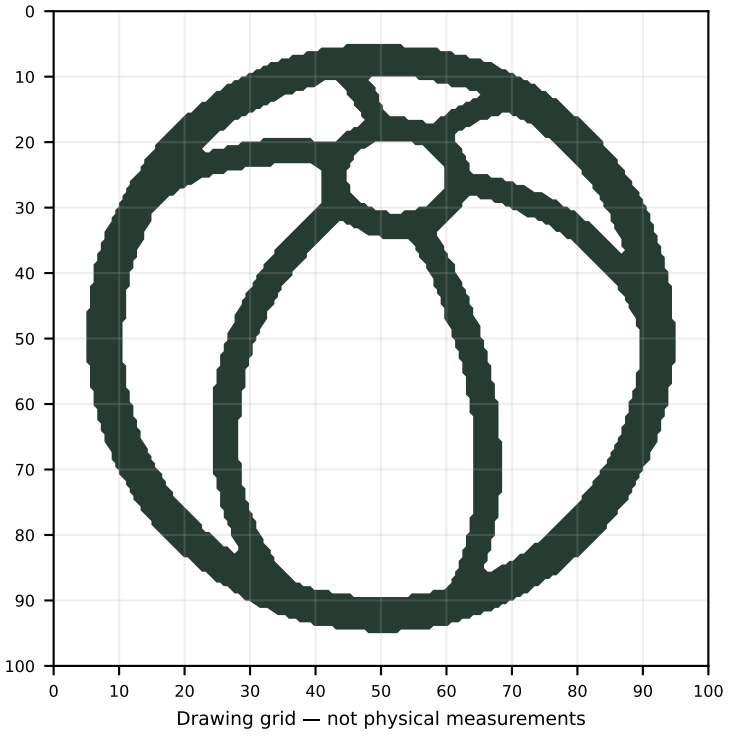

ANSWER: Example solution: preserve round circular outer silhouette, small central circle at the top pole, curved seam lines radiating from the top circle to the outer edge, dividing the ball into panels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the ball's outer silhouette.
2. Draw a small circle near the top center to represent the pole/valve area.
3. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams.
4. Add a second set of curved seam lines between the first set to complete the panel divisions.

How to Draw Beach Ball — Free Practice Sheets

ANSWER / CASE 2

beach ball: Copy the reference onto the blank grid, using matching grid intersections. Compare with the separate full reference sheet.

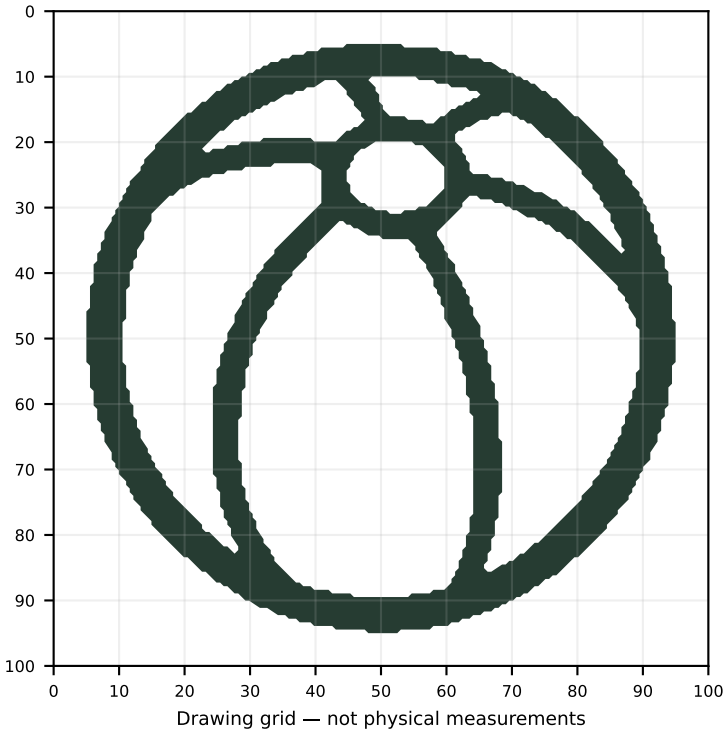

ANSWER: Example solution: preserve round circular outer silhouette, small central circle at the top pole, curved seam lines radiating from the top circle to the outer edge, dividing the ball into panels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the ball's outer silhouette.
2. Draw a small circle near the top center to represent the pole/valve area.
3. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams.
4. Add a second set of curved seam lines between the first set to complete the panel divisions.

How to Draw Beach Ball — Free Practice Sheets

ANSWER / CASE 3

beach ball: Use the bounding frame and center guide to place the silhouette, then add the identifying details. Compare with the separate full reference sheet.

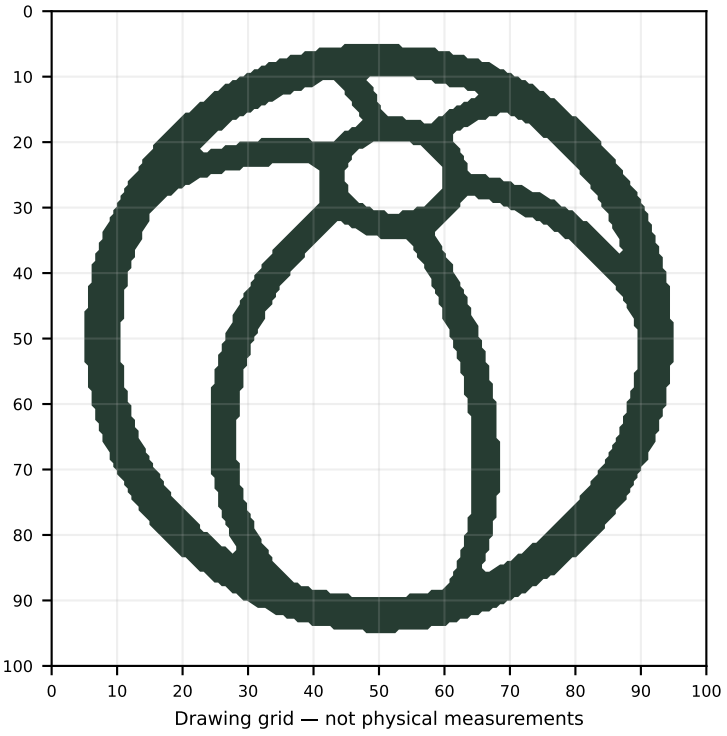

ANSWER: Example solution: preserve round circular outer silhouette, small central circle at the top pole, curved seam lines radiating from the top circle to the outer edge, dividing the ball into panels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the ball's outer silhouette.
2. Draw a small circle near the top center to represent the pole/valve area.
3. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams.
4. Add a second set of curved seam lines between the first set to complete the panel divisions.

How to Draw Beach Ball — Free Practice Sheets

ANSWER / CASE 4

beach ball: Complete the blank right-hand portion using the full reference. Compare with the separate full reference sheet.

ANSWER: Example solution: preserve round circular outer silhouette, small central circle at the top pole, curved seam lines radiating from the top circle to the outer edge, dividing the ball into panels. Other drawings can be correct; assess the visible features and proportions rather than pixel-perfect matching.
1. Draw a large circle for the ball's outer silhouette.
2. Draw a small circle near the top center to represent the pole/valve area.
3. Draw curved lines radiating from the small top circle down to the outer circle to form panel seams.
4. Add a second set of curved seam lines between the first set to complete the panel divisions.
